Regional Development Change In:

Leadership and Change in Sustainable Regional Development Markku Sotarauta, Ina Horlings, Joyce Liddle, 2012 This book shows first of all that leadership plays a crucial role in reinventing regions and branching out from an old path to something new in order to create more balanced and sustainable regional development Second it maintains that leadership is not a solo but a multi agent and level activity and that it needs to be discussed and studied as such Third as the book argues leadership is shaped differently in various institutional and cultural contexts and on different scales This book explores the ways leadership plays out in regional development context contributing to economically socially and ecologically balanced sustainable future

Regional Development Agencies and Business Change Gill Bentley, John Gibney, 2017-11-01 This title was first published in 2000 Providing an introduction to contemporary regional economic development issues this book analyzes whether the Regional Development Agencies ROAs have the organizational capacities to cope with complex business and economic development challenges

Regional Development in an Age of Structural Economic Change Piet Rietveld, Daniel Shefer, 2024-02-22 First published in 1999 this volume addresses various themes in regional development studies from the perspective of structural economic change Particular attention is paid to factors having long run implications for regional development such as innovation and knowledge production Innovation and research and development activities appear to take place at particular locations This has implications for long run spatial and sectoral developments Another factor is transport infrastructure its impact on efficiency and equity is surveyed Other themes covered relate to the role of tourism and adjustments in urban economies The book aims to offer a balance between modelling and non modelling approaches In addition to country specific contributions some are offered at the European level

Regional Development in The 1990s Ron Martin, Ron L. Martin, P. M. Townroe, 1992 In the first half of this book region by region profiles review the experience of the 80s and reflect on the present climate assessing problems and opportunities as they look forward across the next decade The second half provides 25 commentaries on changes influencing the development of regions from questions of industry technology and employment to the impact of national policy and 1992 and the prospects and capacity for regional policy and development From these a number of conclusions are drawn for policy development at local regional national and EEC levels

China's Regional Development Ming Lu, Zhao Chen, Zhu Xiwei, Xu Xianxiang, 2013-07-18 China is a large developing economy and it has been deeply involved in globalization since its economic reform and opening up Simultaneously China has seen a significant change in the spatial distribution of economic resources especially capital and labor In the recent 10 years economists have made significant progress in both theoretical and empirical studies on related topics The book provides an overview on the existing literature and current policy debates on what we have known and what we have misunderstood This book includes an analytical framework of the New Economic Geography NEG with political economy to help us understand China's regional development issues The book of 10 chapters is

organized into four thematic sections The first section is a theoretical discussion on the relationship between economic agglomeration and interregional balanced development The second section is a political economy analysis on regional and urban rural development The third section provides a summary on empirical literatures concerning from market segmentation and institutional barriers to production factor mobility The final section consists of four empirical chapters on the relationship between agglomeration and balance which is the core of relevant policy debates The book argues that for China to achieve both efficiency and balance for regional development China may need to reform its systems which constrain production factors mobility This book is a valuable reference for readers who are interested in spatial economics and the Chinese economy especially its regional and urban development

Regional Development Theories and Their Application Benjamin Higgins, 2017-07-12 Throughout the world today former nation states as disparate as Yugoslavia Somalia and Canada have either disintegrated or threaten to splinter into regions The conflicts are economic social ethnic linguistic religious political and cultural Higgins and Savoie analyze the reasons for these conflicts and show why attempts to eliminate regional disparities within nations have been largely unsuccessful This volume is a highly readable comprehensive survey of the literature and current debates in the fields of regional economics development policy and planning

Re-framing Regional Development Philip Cooke, 2013-01-17 Turbulence characterises the current global scene This book uses complementary theoretical approaches to understand and help prescribe policies to re frame the regional development problem in turbulent times These approaches are evolutionary complexity evolutionary economic geography emergence theory and resilience theory From below they address the four major crises creating a perfect storm for societies and economics involving the climate change crisis the energy crisis the banking and financial crisis and the global economic crisis This book analyses and proposes ways in which regional economies in particular are having to be reframed to address these crises First many must evolve in new ways possibly moving back from the service economy towards a new greener form of manufacturing of goods as well as services Accordingly regional economies are innovating in new ways Amongst these are the quest for relatedness within their own regional orbits and promoting modularity as a mode of analysis and a policy stance to stimulate innovation across industry and geographical borders Finally regional economies and societies are discovering that from a resilience perspective they must find answers to the higher levels of governance with which they increasingly struggle In this respect regional economies are in transition and regional processes are emergent The transition seeks to address the four crises involving re balancing re directing and re framing future policy and practice This book describes many of the novel framings involved in understanding the new ways in which this major task is being addressed in theory policy and everyday practice

Regional Development in China Yehua Dennis Wei, 2013-04-15 This study systematically examines uneven regional development in China focusing on three central agents the foreign investor the state and the region Wei s findings have important implications for theories of and policy towards Chinese regional development This book

is a vital resource for those with an interest in transition economies Regional Development and Planning for the 21st Century Allen G. Noble, Frank J. Costa, Ashok K. Dutt, Robert B. Kent, 2018-12-20 Published in 1998 *Regional Development and Planning for the 21st Century* examines a number of related themes including the traditional approach of local and regional planning initiatives developed within the context of national goals the current decline of bi polar political and ideological blocs political decentralization and concurrent economic centralization including the growth of multi national corporations devolution of centralized planning powers to regions and localities and the rise and acceptance of sustainable development concepts The book is divided into five parts addressing 1 adjustments to political economic and social change 2 the problems of urban housing and housing and health 3 adjustments to environmental change development policies and sustainability 4 the problem of rapid urban growth and mega cities 5 adjustments of changing urban networks The contributors are from several countries worldwide and the chapters examine the issues at a global level *Handbook of Regional Growth and Development Theories* Roberta Capello, Peter Nijkamp, 2019 Regional economics an established discipline for several decades has undergone a period of rapid change in the last ten years resulting in the emergence of several new perspectives At the same time the methodology of regional economics has also experienced some surprising developments This fully revised and updated Handbook brings together contributions looking at new pathways in regional economics written by many well known international scholars The aim is to present the most cutting edge theories explaining regional growth and local development The authors highlight the recent advances in theories the normative potentialities of these theories and the cross fertilization of ideas between regional and mainstream economists It will be an essential source of reference and information for both scholars and students in the field Protected Areas and Regional Development in Europe Ingo Mose, 2012-11-28 While originally created as reserves for beautiful landscapes and endangered species protected areas in Europe were subsequently used as a means to preserve whole ecosystems with restrictions on human activities and impacts More recently protected areas are also being considered as instruments for regional development particularly in marginal regions facing severe economic and socio cultural problems Contrary to previous conservation focused policies new approaches aim to blend conservation and development functions making protected areas real living landscapes and integrating activities such as agriculture forestry handicrafts tourism and education with the conservation and sustainability aspects The past decade has seen a marked increase in these innovative and dynamic types of protected areas However the policies of individual European countries are very varied This volume provides a comprehensive overview of the relationship between protected areas and regional development policies both in theory and practice Illustrated with a wide range of case studies from across Europe it compares the different concepts strategies and instruments being used In conclusion it suggests the most innovative and successful ways to use protected areas for regeneration and sustainable regional development **Strategic Planning for Regional Development in the UK** , Regional Development Planning and Practice Mukunda Mishra, R. B.

Singh, Andrews José de Lucena, Soumendu Chatterjee, 2021-11-16 This book through a bunch of systematic and analytical notes and scientific commentaries acquaints the readers with the innovative methods of regional development measurement of the development in regional scale regional development models and policy prescriptions Conceptualizing development as a regional process is a geographer's brainchild and the sense of region has long been rooted deeply in the fundamental research practices that geographers are accustomed to The geographical perspective of regions entails conceptualizing them nested horizontally as the formal region and hierarchical relationships in space with spatial flows or interactions as the functional region In geographical research the region works as a tool by serving as a statistical unit of analysis More importantly however regions serve as the fundamental spatial units of management and planning by specifying a territory or a part of it for which a certain spatial development or regulatory plan is sought This book addresses the complex processes in different regions of the world particularly South Asia to perceive the regional development planning involved and the sustainable management practiced there The book is a useful resource for socio economic planners policymakers and policy researchers

Humanitarian Local and Regional Development Mustafa Dinc, 2020-12-25 Critically reviewing major factors that disrupt local and regional development Mustafa Dinc provides a transparent interpretation of the circular and cumulative relationship between these disruptions and development highlighting ways to help interrupt this cycle The book emphasizes the role and responsibility of individuals in the development process by exploring a humanist approach to local and regional development

Regional Development and Its Spatial Structure Dadao Lu, 2024-02-20 This book describes the progress and prominent theories of regional development research in the past decades especially in the past decade discusses the industrial structure spatial structure resources and environment as well as a series of practical issues and reveals the general characteristics of spatial structure evolution in the process of regional development The research on the issues of regional development has become the frontier of relevant disciplines since the 1950s and much progress has been made in the process of solving practical problems in social and economic development This book provides an in depth and systematic demonstration of the point axis system theory of regional exploitation and development as well as the T shaped structure of China's regional economic action in theory and practice and discusses the impact of location differential rent restricted accessibility technological innovation etc on regional development theoretically This book is used as a reference for planning scientific research and teaching personnel in territorial expansion regional economy human geography etc

Regional Development and Economic Growth in China Yanrui Wu, 2013 China has enjoyed unprecedented high economic growth for three decades This growth has however been unbalanced and has led to some serious consequences which Chinese policy makers are now trying to rectify One of the consequences is the deterioration of regional disparity which is threatening the stability of the Chinese society and hence the sustainability of current high economic growth in the country This edited volume on China's regional development and economic growth is hence timely and contains a collection of the

latest research reports in this field The authors represent a distinguished group of economists in Australia China Japan and Vietnam who are actively engaged in research of the Chinese economy The topics addressed in the chapters cover important regional issues such as inequality distribution of the creative class FDI and industrial policies Specifically this volume aims to examine selected issues associated with China s regional development economic growth and FDI and China and its neighboring economies The findings will contribute to current economic policy debates Regional Development and Plan Evaluation United States. Department of Agriculture. Economics, Statistics, and Cooperatives Service,1978 Regional Development George Demko,2017-08-31 Originally published in 1984 This volume brings together papers concerned with the problems of regional development in both Eastern and Western Europe These include regional economic and social inequalities lagging and backward regions and constricted flows of labour This book provides identification comparison analysis and discussion of regional development problems in Eastern and Western Europe It discusses the latest trends in regional policy assesses their effectiveness and puts forward innovative thinking on the various issues and how they should be tackled in future **Entrepreneurship, Innovation and Regional Development** Jay Mitra,2013-03 Entrepreneurship Innovation and Regional Development is unique in that it addresses the central factors in economic development entrepreneurship innovation and organizational learning as regional phenomena This definitive text focuses on different types of organizations to illustrate the value of entrepreneurship and innovation both for businesses and for regional development Establishing a firm link between entrepreneurship innovation and economic regeneration the book also examines the factors contributing to their success Replete with international case studies empirical evidence of concepts and practical examples this is an ideal text to support postgraduate teaching and research related to entrepreneurship innovation management and regional economic development *New Firms and Regional Development in Europe* David Keeble,Egbert Wever,2016-07-15 When originally published in 1986 this book was one of the first to deal solely with the urban and regional incidence and development implications of new firm formation in particular EU countries It reviews the extent of and reasons for geographical variation in numbers of new firms examines the nature of such firms and assesses the regional impact and policy implications in various EC countries
