

Economic Change – Booms & Recessions

- It has been claimed that the capitalist system goes through a series of interconnected cycles of economic change called the Kondratieff Cycles and represent a roughly 50-year sequence of booms and recessions.
- Periods of booms are associated with technological innovation and new industries and opportunities exist for people who have the skills which the new technology requires.
- The geography of this pattern is that technological innovation is not found everywhere. Some places attract investment and develop as centres of economic growth and rising standards of living e.g. Silicon Valley, California; SE England. These are known as “*core regions*” and here the multiplier effect is strong.
- Why some places are able to support technological innovation when others don't is unclear, but possible reasons focus on the role of education and government.
- **In times of recession** (when the technology is no longer new and fewer opportunities exist) different people and places are impacted in different ways. The more educated generally cope more successfully than those with basic qualifications. Places with a diversified economic base tend to retain a good level of wealth creation so that standards of living remain relatively high.

Regions In Recessions And Resurgence:

Regions in Recession and Resurgence Michael Chisholm, 2015-03-27 The world economy has undergone rapid evolution in recent decades along with changes in the importance of industries and their organization and sharp changes in the fortunes of regions There are differences of opinion regarding the mainsprings of change and development and the role of governments in fostering national output In order to show the relevance of these changes to regional economies the book focuses on the different schools of economic thought from the neo classical through Keynesian to Marxist radical ideas and monetarist supply side thinking providing a brief description of their structure in non spatial terms The way these theories map into contrasting ideas regarding the mechanisms of regional economic growth is then explained The book concentrates on developed economies and explicitly seeks to confront theory with fact fact with theory Bringing together non spatial economic theory regional growth theory and relevant empirical data this book is intended for students in geography and regional economics but will also be of interest for those studying politics and government

Regions in Recession and Resurgence Michael Chisholm, 1990-10-01 **Routledge Library Editions: Economic Geography** Various, 2021-06-23

The books in this set originally published between 1968 and 1992 introduce the reader to the many lines of thought in the literature on economic geography and tie these various aspects together within the concept of the economy As well as providing a comprehensive overview of the Western European economy since the Second World War and including specific studies and assessments of the Dutch and Italian economies these volumes examine the economic factors that have shaped cities and patterns of urbanization *Collapse and Revival* Mr. Ayhan Kose, Mr. Marco E. Terrones, 2015-12-16 As the debates about the recent global recession and the subsequent recovery have clearly shown our understanding of these questions has been very limited This comprehensive text puts the latest global recession and ongoing recovery in perspective With the support of a companion website and DVD we have created several multimedia tools to help understand the basics

Legacy of Raúl Prebisch Edgar J. Dosman, Gert Rosenthal, Enrique V. Iglesias, Joseph L. Love, David H. Pollock, Colin I. Bradford, Oscar Godoy Arcaya, José Nun, Hans Singer, Dragoslav Avramovic, Antonio Casas González, John Williamson, Gerald K. Helleiner, Celso Furtado, 1993-01-01 This volume honors Raúl Prebisch's contributions to economic thought and uses his 1970 report *Change and Development Latin America's Great Task* as a point of departure for analyzing trends in the region in the 1970s and 1980s This volume comprises a collection of the papers presented at the seminar *Latin American Thought Past Present and Future* convened by the Inter American Development Bank in Washington D C on November 14 and 15 1991 Several factors influenced the selection of both the topic and the institution that hosted this seminar

The Recession and Beyond David Bailey, Caroline Chapain, 2012-03-29 How has the recession impacted on firms people and places How have

local and regional authorities responded This book aims to answer these questions by offering an overview of the impacts of the recession on people and places and how it has affected local authorities in the UK and other OECD countries The volume makes a fresh contribution to understanding local economic development and governance by providing a unique perspective and original data on the way local authorities have dealt with the recent economic shock across countries

Governing Metropolitan Areas David K. Hamilton, 2014-04-24 Interest and research on regionalism has soared in the last decade Local governments in metropolitan areas and civic organizations are increasingly engaged in cooperative and collaborative public policy efforts to solve problems that stretch across urban centers and their surrounding suburbs Yet there remains scant attention in textbooks to the issues that arise in trying to address metropolitan governance Governing Metropolitan Areas describes and analyzes structure to understand the how and why of regionalism in our global age The book covers governmental institutions and their evolution to governance but with a continual focus on institutions David Hamilton provides the necessary comprehensive in depth description and analysis of how metropolitan areas and governments within metropolitan areas developed efforts to restructure and combine local governments and governance within the polycentric urban region This second edition is a major revision to update the scholarship and current thinking on regional governance While the text still provides background on the historical development and growth of urban areas and governments efforts to accommodate the growth of metropolitan areas this edition also focuses on current efforts to provide governance through cooperative and collaborative solutions There is also now extended treatment of how regional governance outside the United States has evolved and how other countries are approaching regional governance
