assistance in formulating policy Also available in English ISBN 0 8213 3816 1 Stock no 13816 **Russian Enterprise Reform** Harry G. Broadman, 1998-01-01 To enhance and sustain economic prosperity Russian authorities must improve the business climate so that firms restructure and the private sector thrives within a market environment Meeting this challenge requires actions on several fronts The Russian government asked the World Bank to write policy papers to address this issue This volume contains those policy papers which were then presented at a high level workshop in Moscow The topics include removing impediments to robust interfirm competition such as structural concentration arbitrary regulatory practices and entry barriers strengthening corporate governance incentive systems enhancing the nascent institutional framework for the exercise of creditor rights and implementation of enterprise bankruptcy procedures reducing barter and other nonmonetary forms of business transactions and fostering enterprise restructuring The volume also contains formal comments on these papers presented by senior Russian officials at the workshop *Economic Growth with Equity* K. J. Langford, Christine L. Forster, Duncan M. Malcolm, 1999 Latin America and the Caribbean Region Viewpoints Many articles have been written about the causes of financial crises in emerging market Much less attention has been devoted to the effectiveness of alternative policy responses and the ensuing process of recovery of the real economy This paper analyzes the adjustment process in the aftermath of speculative attacks in six countries Argentina Brazil Mexico Indonesia Korea and Thailand As implied by the title the main question to be addressed is whether the tales of adjustment in these Latin American and Asian economies were similar This comparison is interesting for several reasons The six countries came under the aegis of adjustment programs supported by international financial institutions and the associated policy prescriptions have been at the center of attention Of the six cases one is an example of a successful defense of the currency while another exemplifies a temporarily successful defense followed by an incomplete adjustment program The others experienced dramatic currency devaluations This small sample of episodes of adjustment also offers variety in the magnitude of the ensuing economic decline While the Mexican and Argentine crises of 1995 and even the Brazilian adjustment after the October 1997 attack against its currency were certainly costly the Asian crises have been deeper and the recovery of the real economy has been slower The paper draws policy implications for reducing the costs of the macroeconomic adjustment after currency crises Also available English edition 1999 52 pages Stock no 14541 ISBN 0 8213 4541 9 **Land Reform in Ukraine** Csaba Csáki, Zvi Lerman, 1997-01-01 This study summarizes the first five years 1991-96 of agrarian reforms in Ukraine presenting the results of a farm level survey conducted in 11 provinces between January and March 1996 The findings show that the growth of private farming has slowed do **Sri Lanka's Rubber Industry** Yusuf Choudhry, Douglas W. Lister, 1997 World Bank Technical Paper No 359 As the telecommunications sector evolves toward a more competitive environment in which the private actors become the main players it is essential to develop policies that will reduce the disparities between urban and rural telecommunications services This report provides a comprehensive analysis of the technical and financial parameters that have to be considered

in formulating such policies It presents an array of options for commercial operation of rural telecommunications and challenges the general perception that rural telecommunications services are unprofitable It demonstrates that services can be economically delivered to rural areas at affordable prices while simultaneously providing reasonable financial returns to investors A planning tool kit is included that assists in the design of the various options

FINANCIAL DISINTERMEDIATION Grace Mingyan Du, 2023-01-02 With historical and comparative method this book explores financial disintermediation which besets both the United States and China and extends the

thinking up to the evolutionary trend of capitalism and socialism Different from the previous research this book delves into the first cause which induces financial disintermediation namely the basic deficiency of capitalism liquidity crisis and the countermeasures which various institutional systems have taken for dealing with it The conclusion reveals that the upheaval was initiated from the founding of financial safety net During the Great Depression by adopting financial safety net the previous evolving track of American financial system was ended and a new path launched financial disintermediation The starting point for China was the setout of the reform and opening up In the West financial safety net formulates a dualistic regulatory regime which spurred financial disintermediation Severe financial disintermediation has led up to a series of thorny issues including the resurgence of liquidity crisis the financialization of the economy and too big to fail and debt overhang and widening wealth disparity and so on In China the main difference with its western counterpart should be the replacement of asset quality deterioration in financial system to liquidity crisis The root problem lies in that some matched institutions needed for guaranteeing its positive effects are desperately absent or weak so it is a must to strengthen them and steadfastly arrest financial disintermediation simultaneously For that both regimes should learn from each other

Management and Resolution of Banking Crises Jose de Luna-Martinez,2000-01-01 WBI Learning Resources Series Water is a vital element for agricultural production and for economic development in general However the spatial and temporal distribution of water in Mexico restrains its use Because of this distribution it has been necessary to build a large infrastructure to capture store and allot this element among water users Around the world countries that once promoted more government involvement in irrigation management are adopting new policies that do just the opposite creating incentives for farmers to take over the management of operations and maintenance while government agencies focus on improving the management of water at the main system level Is this just another management fad or will the pendulum that is now swinging toward greater management control by farmers soon swing back the other way toward greater state control This volume reports on four countries where the state s role in irrigation management has undergone fundamental change and where the result has been a much greater management role for farmers These studies address the political antecedents of participatory irrigation management PIM policies the process of implementing the policies and the second generation challenges of sustaining PIM These experiences will prove useful to policymakers and irrigation professionals who are facing similar challenges in their own countries From Transnational Relations to Transnational Laws Shaheen Sardar Ali,Anne Griffiths,2016-04-15 This book approaches law as a process embedded in transnational personal religious communicative and economic relationships that mediate between international national and local practices norms and values It uses the concept living law to describe the multiplicity of norms manifest in transnational moral social or economic practices that transgress the territorial and legal boundaries of the nation state Focusing on transnational legal encounters located in family life diasporic religious institutions and media events in countries like Norway Sweden Britain and Scotland it demonstrates the

multiple challenges that accelerated mobility and increased cultural and normative diversity is posing for Northern European law. For in this part of the world as elsewhere national law is challenged by a mixture of expanding human rights obligations and unprecedented cultural and normative pluralism enhanced by expanding global communication and market relations. As a consequence transnationalization of law appears to create homogeneity, fragmentation and ambiguity, expanding space for some actors while silencing others. Through the lens of a variety of important contemporary subjects the authors thus engage with the nature of power and how it is accommodated, ignored or resisted by various actors when transnational practices encounter national and local law.
