Reinventing Australia:

Lucky Country? Ian Lowe, 2016-03-23 Can we reinvent the Lucky Country Fifty years ago author Donald Horne described Australia as a lucky country run by second rate people adding that our leaders are mostly unaware of events that surround them The good fortune continued when our wide brown land proved to contain bountiful resources of saleable minerals allowing successive generations of second rate leaders to create an illusion of economic progress by liquidating those assets But a crisis is approaching driven by irresponsible encouragement of population growth rates typical of poor developing countries In this polemic work Ian Lowe will assess the state of Australia and whether we can retain our status of the Lucky Country

Reinventing Anglicanism Bruce Kaye, 2004-09-01 Anglicanism world wide faces many problems in the post Empire era Churches that were originally founded as colonial and missionary outposts by Great Britain and the United States have now become autonomous Anglican provinces and what used to be a predominantly white Anglo Saxon group of churches in the northern hemisphere has become a truly global community most of whose members live in Africa Asia Latin America and the Pacific Using the experience of the Anglican Church in Australia Bruce Kaye tracks the modern story of Australian Anglicanism and reconsiders key elements of the New Testament the English Reformation and the ongoing theological traditions that relate to this story

Australia Reimagined Hugh Mackay, 2018-04-24 When it comes to our future misplaced optimism is as dangerous as blind faith What is needed is the courage to face the way things are and the wisdom and imagination to work out how to make things better Australia's unprecedented run of economic growth has failed to deliver a more stable or harmonious society Individualism is rampant Income inequality is growing Public education is under resourced The gender revolution is stalling We no longer trust our major institutions or our political leaders We are more socially fragmented more anxious more depressed more overweight more medicated deeper in debt and increasingly addicted whether to our digital devices drugs pornography or stuff Yet esteemed social researcher Hugh Mackay remains optimistic Twenty five years ago he revolutionised Australian social analysis with the publication of *Reinventing Australia* Now he takes another unflinching look at us and offers some compelling proposals for a more compassionate and socially cohesive Australia You might not agree with everything he suggests but you'll find it hard to get some of his ideas out of your head Argued with intelligence and passion this book is essential reading for everyone who loves Australia enough to want to make it a better place for us all

Australia Under Construction John Butcher, 2008-04-01 The Australian nation is a work in progress So conclude the authors whose views are represented in this most recent offering in the ANZSOG monograph series AUSTRALIA UNDER CONSTRUCTION NATION BUILDING PAST PRESENT AND FUTURE From its beginnings as a settler society through to present day concerns about broadbanding the nation the nation building narrative has resonated with Australians The very idea of nation building has both excited the popular imagination about what we might achieve as a society and a nation and has occasioned despair about missed opportunities The eleven authors contributing to this

monograph reflect on these and other themes from a variety of perspectives They challenge our understanding of the term nation building reflect on its contemporary relevance as a framework for public policy and even re appraise the contribution of past iconic nation building endeavours To this subject the authors bring intelligence wit and a healthy disdain for sacred cows A stimulating read for anyone interested in the history challenges and prospects of nation building in Australia

The Story of Australia Louise Johnson,Tanja Luckins,David Walker,2021-09-02 The Story of Australia provides a fresh engaging and comprehensive introduction to Australia s history and geography An island continent with distinct physical features Australia is home to the most enduring Indigenous cultures on the planet In the late eighteenth century newcomers from distant worlds brought great change Since that time Australia has been shaped by many peoples with competing visions of what the future might hold This new history of Australia integrates a rich body of scholarship from many disciplines drawing upon maps novels poetry art music diaries and letters government and scientific reports newspapers architecture and the land itself engaging with Australia in its historical geographical national and global contexts It pays particular attention to women and Indigenous Australians as well as exploring key themes including invasion colonisation land use urbanisation war migration suburbia and social movements for change Elegantly written readers will enjoy Australia s story from its origins to the present as the nation seeks to resolve tensions between Indigenous dispossession British tradition and multicultural diversity while finding its place in an Asian region and dealing with global challenges like climate change It is an ideal text for students academics and general readers with an interest in Australian history geography politics and culture

The Lucky Country? Ian Lowe,2016-04-04 Can we reinvent the Lucky Country In 1964 Donald Horne described Australia as a lucky country run mainly by second rate people who share its luck in his iconic book Now more than five decades later internationally respected scientist and environmentalist Ian Lowe shows that little has changed after generations of short sighted leadership In his frank and fearless way Lowe assesses the state of Australia in four key areas our environment population and society geographical position and unrelenting pursuit of economic growth Highlighting that the global economy and the environment are in crisis Lowe illustrates the need and the opportunity to transform Australia into the world leading model of sustainable development that we have the potential to become A must read The Lucky Country Reinventing Australia challenges us all to consider the kind of future we want for our country and communities

Adult Education Sérgio Haddad,1997-11-30 The studies contained in this volume present a sampling of policy and legislation relating to adult learning in various parts of the world They were produced in the context of a more complete survey under the auspices of the UNESCO Institute for Education VIE in cooperation with the University of

Florence which sought to identify tendencies in this field over the past few years The international research project under which these national studies were made was developed under the direction of Paul Belanger Director of UIE and Paolo Federighi Professor at the University of Florence An international publication by the two project directors due to appear at the beginning of 1997 will report on the findings of the project which involves 26 countries The contributions presented here reflect a broad geographical spectrum as well as a wide range of policy models From an analysis of these studies it is apparent that this is a field in which there has been much innovation and which encompasses markedly varying approaches in response to different national conditions

A Concise History of Australia Stuart Macintyre, 2009-06-29 Australia is the last continent to be settled by Europeans but it also sustains a people and a culture tens of thousands years old For much of the past 200 years the newcomers have sought to replace the old with the new This book tells how they imposed themselves on the land and brought technology institutions and ideas to make it their own It relates the advance from penal colony to a prosperous free nation and illustrates how as a nation created by waves of newcomers the search for binding traditions was long frustrated by the feeling of rootlessness until it came to terms with its origins The third edition of this acclaimed book recounts the key factors social economic and political that have shaped modern day Australia It covers the rise and fall of the Howard government the 2007 election and the apology to the stolen generation More than ever before Australians draw on the past to understand their future *Australia, 1996 Post Report*, 1996 [Rural Change in Australia](#)

John Connell, 2016-04-08 New twenty first century economic social and environmental changes have challenged and reshaped rural Australia They range from ageing populations youth out migration immigration policies that seek to place skilled migrants in rural Australia tree changers agricultural restructuring and new relationships with indigenous populations Challenges also exist around the patchwork economy and the wealth that the mining boom offers some areas while threatening regional economic decline in others Rural Australia is increasingly not simply a place of production of agriculture and minerals but an idea that individuals seek and are encouraged to consume The socio economic implications of drought water rights and changing farming practices have prefaced new social cultural and economic reforms This book provides a contemporary perspective on rapidly evolving population economic and environmental changes in rural and regional Australia itself a significant concept Bringing together a range of empirical studies the book builds on established rural studies themes such as population change economic restructuring and globalisation in agriculture but links such changes to environmental change culture class gender and ethnic diversity Presenting original and in depth interventions on these issues and their intersections this book assembles the best of contemporary research on rural Australia [Land Of Plenty](#)

Mark Davis, 2008-09-01 There is an Australian dream that is collective It goes to the roots of what it means to be Australian since it s imprinted in Australia s history the collective acts of its peoples their attitudes their gestures what and how they eat how they spend their leisure time and the way such things reflect upon and derive from who they are In *The Land of Plenty*

Mark Davis argues that this dream has been forsaken Over the past few decades Australians have felt the ground shift beneath their feet Many people are asking why Australia is no longer the egalitarian place it once was While the airwaves sing and newspaper front pages burst with news of how prosperous Australians are many people wonder why they are working harder and longer for so little while important social agendas have fallen by the wayside The Land of Plenty is at once a devastating record of the changes that have taken place in Australian society since the 1980s and a goldmine of ideas for change Insightful provocative and thoroughly original The Land of Plenty is a manifesto for our times ... *it's just politics* Malcolm Wood,2022-12-20 it s just politics analyses weak governance unethical policy and misconduct in the Commonwealth of Australia over fifty years At root is failure of leadership whose foremost element is integrity But compromise expediency and ruthlessness are necessary to gain and retain political office and wield power parties govern to benefit or appease constituencies and governments naturally seek to hide their vulnerabilities and avoid accountability for their mistakes Moreover the public s low trust in politicians suggests low expectations How far is integrity in democratic political leadership a practical nonsense *Shame, Blame, and Culpability* Judith Rowbotham,Marianna Muravyeva,David Nash,2013-06-03 This ground breaking collection of research based chapters addresses the themes of shame blame and culpability in their historical perspective in the broad area of crime violence and the modern state drawing on less familiar territories such as Russia and Greece not just on material from familiar locations in western Europe Ranging from the early modern to the late twentieth century the collection has implications for how we understand punishments imposed by states or the community today Shame blame and culpability is divided into three sections with a crucial case study part complementing two theoretical parts on shame and on blame and culpability exploring the continuance of shaming strategies and examining their interaction with and challenge to modern state sponsored blaming mechanisms including allocations of culpability The collection includes chapters on the deviant body capital punishment and of particular interest Russian case studies which demonstrate the extent to which the Russian like the Greek experience need to be seen as part of a wider European whole when examining ideas and themes The volume challenges ideas that shame strategies were largely eradicated in post Enlightenment western states and societies showing their survival into the twentieth century as a challenge to state dominance over identification of what constituted crime and also over punishment practices Shame blame and culpability will be a key text for students and academics in the fields of criminology and crime gender or European history **The Destiny and Passion of Philip Nigel Warrington Strong** Jonathan Holland,2019-05-04 In June 1914 a boy not yet 15 years old made a promise to God To make it binding he wrote it down while alone in a class room at school That promise brought him a life time of adventure He served as a signaller in the mud of France in the First World War as an Anglican priest among the stricken poor of northern England as a bishop in the wilds of Papua New Guinea and as an archbishop among the economically secure of Brisbane This is the intriguing and fascinating story of Philip Nigel Warrington

Strong and the promise he made as a boy and the motto that sustained him and the road less travelled that beckoned and chose him **Australians and Globalisation** Brian Galligan, Winsome Roberts, Gabriella Trifiletti, 2001-11-05 From colony to federation to the present it analyses the development of globalisation in Australia **Developments in Australian Politics** Judith Brett, James A. Gillespie, Murray Goot, 1994 Written for university students and the general reader An examination of Australian politics in the last 15 years and the changes in ideology executive and political institutions and policies in all areas including economic ethnic immigration unions social welfare foreign affairs media the environment censorship and sexual politics The editors are lecturers in politics at La Trobe and Macquarie Universities and the 17 contributors include John Ravenhill Uldis Ozolin and Tim Rowse With subject and author indexes and 38 page bibliography

Power Of Speech James Curran, 2014-07-18 The subjects of this book are five fascinating prime ministers Gough Whitlam Malcolm Fraser Bob Hawke Paul Keating and John Howard and how they view Australia Until the 1960s our nation believed itself to be British Then during a decade of momentous change this concept of our national identity collapsed It was buried by the forces of cultural and political renewal by disturbing and exciting developments in Asia and by a dawning recognition that the global era of colonial power was over The result was a crisis of national meaning reflected in public debates about multiculturalism Australia's relationships with its Asian neighbours the dispossession of indigenous Australians and the nation's involvement in war In recent years our political leaders have played a conspicuous role in the controversy In *The Power of Speech* James Curran explores the end of the idea of British Australia and how successive prime ministers have attempted to assert personal and often competing visions of Australian nationalism in its place This highly original study of prime ministerial rhetoric exposes the sources of our most powerful leaders' beliefs about Australia

Australian Foreign Policy in Asia Allan Patience, 2017-12-12 This book sets out to discuss what kind of middle power Australia is and whether its identity as a middle power negatively influences its relationship with Asia It looks at the history of the middle power concept develops three concepts of middle power status and examines Australia's relationships with China Japan and Indonesia as a focus It argues that Australia is an awkward partner in its relations with Asia due to both its historical colonial and discriminatory past as well its current dependence upon the United States for a security alliance It argues this should be changed by adopting a new middle power concept in Australian foreign policy [Facing North Volume 2](#) David Goldsworthy, Peter Edwards, 2015-03-02 *Facing North* is the first substantial history of Australia's relations with Asia since Federation Volume 1 2001 chronicles Australian Asian relations from 1901 to the 1970s Volume 2 now carries the story through the last decades of the century Both make extensive use of official government sources and of the private collections of ministers and public servants This volume discusses the changing relations between Australia and Asia in the period from the 1970s to 2000 Over this time integration became a dominant theme as Australia looked increasingly to its near neighbours to form political social and economic alliances An important driving force behind this direction was the economic

opportunities presented by Asia At the same time Australia championed the rights of Asian countries to self determination economic development and an independent role in international affairs The book combines the discussion of broad policy themes with detailed analysis of policy making in relation to particular issues such as human rights and episodes such as the crisis in East Timor At home a key concern was the question of difference between Australian and Asian values As Australia began accepting significant numbers of immigrants from the region the country s national identity and the extent to which it identified with Asia became matters of intense debate Australian society itself has changed as a result Facing North is essential reading for anyone who wants to better understand Australia s present relations with Asian countries and our future choices
