Ethics in a Cocoon V. David Schwantes,2007-09 Cocoon demonstrates in easy to understand language that ethics is about trust and happiness Trust is the essential ingredient to mutually supportive and durable relationships focused on reducing life s imperfections Such relationships are the key to happiness But we cannot live deep inside protective cocoons and still build trust and relationships Instead we must develop all the dimensions of what makes us human intellectual truth spiritual unity moral goodness and aesthetic beauty Above all we have to know ourselves and be able to pass the mirror test every day Our most important relationship after all being with ourself and we don t discover our spiritual unity without a Personal Strategic Plan Nor can we become ethically fit without enthusiasm equanimity and a commitment to excellence traits not found in cocoons Only ethical fitness can help us find the resolution to the fundamental ethical dilemmas we all face truth versus loyalty short term versus long term individual versus community and justice versus mercy This book suggests we use a variety of lenses to look at the world today power wealth prestige status We use the lenses of economics politics and

technology We do not use nearly enough the lens of ethics relationships happiness decency and the golden mean Once we re ethically fit the result of continuous practice we re able to recognize ethical dilemmas approach them skillfully and resolve them successfully This book shows the way to such fitness which is useful in any context or relationship personal local or global Cocoon is a self improvement book of the first order with real life macro illustrations of the ethical dilemmas we face in a complex and crowded world in which too many of us pursue the dictates of false gods It includes over 500 practice questions and was developed as a textbook in the ethics courses the author taught to seniors at Ramapo College from 2002

vacation or save money for your children's education Should you protect the endangered owl or maintain jobs for loggers How do you handle questions such as these We frequently face ethical dilemmas in our daily lives and few have trouble with the right vs wrong choices However the right vs right dilemmas in which neither choice is clearly or widely accepted as wrong many times present obstacles that call for value based decisions and that's where we often need help Kidder the founder of the Institute for Global Ethics teaches us how to think for ourselves in order to resolve any ethical dilemma from the personal to the philosophical Unique in its approach and full of illustrative anecdotes How Good People Make Tough Choices is an indispensable resource for arriving at sound conclusions when facing tough choices **Ganga, a Water**

Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
