Reinventing Canada

Raymond B. Blake

Reinventing Canada:

Reinventing Canada Anthony Westell, 1994-10 Reinventing Canada is a contribution to the national debate on Canada's future. The book offers a comprehensive analysis of the political, cultural, and economic trends underlying our crisis of national unity and identity. The ideas are new, controversial, even startling, and Westell explains complex subjects in layman's language. Among the topics are the rise of economic globalism, the decline of social democracy, which has been a defining aspect of Canada's identity, the failure of Canadian federalism and parliamentary government, and the urgent need to reinvent the way we govern ourselves. *Beyond Walls: Re-inventing the Canada-United States Borderlands* Victor Konrad, Heather Nicol, 2016-12-05 September 11, 2001 marked the beginning of a new era of security imperatives for many countries. The border between Canada and the United States suddenly emerged from relative obscurity to become a focus of constant attention by media, federal and state/provincial governments on both sides of the boundary, and the public at large. This book provides a comprehensive examination of the Canada-USA border in its 21st-century form, placing it within the context of border and borderlands theory, globalization, and the changing geopolitical dialogue. It argues that this border has been reinvented as a state-of-the-art technology-steeped crossing system, while the image of the border has been engineered to appear consistent with the friendly border of the past. It shows how a border can evolve to a heightened level of security and yet continue to function well, sustaining the massive flow of trade. It argues whether in doing so, the US-Canada border offers a model for future borderlands. Although this model is still evolving and still aspires toward better management practices, the template may prove useful not only for North America but also in conflict border zones as well as the meshed border regions of the EU, Africa's artificial line boundaries, and other global situations. Reinventing Ourselves as Teachers Claudia Mitchell, Sandra Weber, 1999 Written for teaching professionals, this text helps novice and experienced teachers to reinterpret their working lives. Taking the reader on a personal exploration, the text exceeds standard approaches, leading from the personal to the critical. Canada Samy Appadurai, 2020-09-14 Canada: The Dynamics of Global Immigration is a thoughtful book filled with facts and interesting stories. It is also a refreshing take on the issue of global migration and where Canada fits into this very large and complicated human mosaic. Canada and Competing Indo-Pacific Visions of China and the US Kenneth M. Holland, 2024-12-13 This book describes and analyzes the choices that Canada, as a Middle Power, has regarding the strategic rivalry between the United States and China. The administrations of Republican Donald Trump and his successor Democrat Joe Biden have taken a hardline stance toward Beijing, which in turn has adopted an increasingly belligerent tone toward Washington. The posture of the United States toward China has put traditional American allies in a difficult position. They must choose whether to join the effort to counter China's ambitions, support those ambitions, or take some intermediate stance. As one of America's closest and longest-standing allies, Canada must make decisions that will affect its position in the world for the rest of the twenty-first century. The book argues that Canada's national interests are best served by alignment

with the confrontational posture of the United States while at the same time joining the efforts of U S allies Japan India and South Korea to moderate the thrust of Washington s Indo Pacific Strategy in a direction more consistent with multilateralism and the preservation of the rules based international order The book has important implications for other U S allies including the member states of the European Union Organization of American States and Association of Southeast Asian Nations each of which finds itself caught in the middle between the world s two greatest powers

in Canada Alex Marland,Thierry Giasson,Jennifer Lees-Marshment,2012-02-15 Political parties worldwide are using marketing tools such as targeting and segmentation to win elections Are these strategies making politicians and governments more responsive to voters needs or do they pose a threat to democracy Political Marketing in Canada the first book to ask this question of Canada considers the consequences of political marketing in the realms of public policy leadership and the government citizen relationship Through dynamic case studies that range from the resurrection of the Conservative Party to media accounts of political marketing to Tim Hortons as a political brand the authors trace how political marketing is transforming the old system of brokerage politics into a new distinctly Canadian model Citizens are now viewed as consumers and platforms and promises have been repackaged as products Whether this trend is positive or negative the authors argue depends on how politicians and governments carry out political marketing and its promises in practice **The Strange Demise of British Canada** C.P. Champion,2010-05-01 Examining cases such as the introduction of the Maple Leaf to replace the Canadian Red Ensign and Union Jack as the national flag Champion shows that despite what he calls Canada s crisis of Britishness Pearson and his supporters unwittingly perpetuated a continuing Britishness because they and their ideals were the product of a British world Using a fascinating array of personal papers memoirs and contemporary sources this ground breaking study demonstrates the ongoing influence of Britishness in Canada and showcases the personalities and views of some of the country s most important political and cultural figures An important study that provides a better understanding of Canada The Strange Demise of British Canada also shows the lasting influence Britain has had on its former colonies across the globe **Canada's Prime Ministers and the Shaping of a National Identity** Raymond B. Blake,2024-06-15 Since Confederation Canadian prime ministers have consciously constructed the national story Each created shared narratives formulating and reformulating a series of unifying national ideas that served to keep this geographically large ethnically diverse and regionalized nation together This book is about those narratives and stories Focusing on the post Second World War period Raymond B Blake shows how regardless of political stripe prime ministers worked to build national unity forged a citizenship based on inclusion and defined a place for Canada in the world They created for citizens an ideal image of what the nation stood for and the path it should follow They told a national story of Canada as a modern progressive liberal state with a strong commitment to inclusion a deep respect for diversity and difference and a fundamental belief in universal rights and freedoms Ultimately this innovative history provides readers with a new way to see and understand what Canada is and what holds us together as a nation **The Trans-Pacific Partnership and Canada** Scott Sinclair,Stuart Trew,2016-10-01 The Trans Pacific Partnership with its twelve participating countries on three continents is the largest regional trade and investment agreement that Canada has ever negotiated It is also one of the most controversial for good reason Negotiations ended exactly a year ago in October 2015 and the TPP was signed in New Zealand in February 2016 But there is no guarantee it will ever come into effect Opposition to the TPP is

strongest in the United States where both 2016 presidential nominees vowed to kill or significantly renegotiate the deal. Outgoing President Barack Obama characterized the TPP as a Made in America deal in the hope of getting it passed into law shortly after the November presidential election. But is what is good for corporate America good for Canada? In this book, experts in a dozen policy areas explain what the impact of the TPP agreement would be on Canada. Many of the key issues they explore have received little media coverage, notably the effect of the TPP on environmental protection, health care, and other public services; Canada's cultural industries; the labour market; human rights; and the democratic decision-making process, generally. Perhaps most controversially, the TPP would expand the rights of multinational corporations to sue governments for policies and decisions that interfere with their profits. Most public commentary on the TPP in Canada has come from CEOs and business lobbyists with a vested interest in furthering a free trade model that impoverishes democracy and weakens our ability to shape public interest regulation. The expert contributors to this book, drawn from academia, the labour movement, and the NGO world, offer an independent and nuanced account of the real but underreported costs of the TPP.

Transnational Identities and Practices in Canada Vic Satzewich, Lloyd Wong, 2011-11-01. With contributions from some of Canada's leading historians, political scientists, geographers, anthropologists, and sociologists, this collection examines the transnational practices and identities of immigrant and ethnic communities in Canada. It looks at why members of these groups maintain ties with their homelands, whether real or imagined, and how those connections shape individual identities and community organizations. How does transnationalism establish or transform geographical, social, and ideological borders? Do homeland ties affect what it means to be Canadian? Do they reflect Canada's commitment to multiculturalism? Through analysis of the complex forces driving transnationalism, this comprehensive study focuses attention on an important and arguably growing dimension of Canadian social life. This is the first collection in Canada to provide a comprehensive and interdisciplinary examination of transnationalism. It will appeal to scholars and students interested in issues of immigration, multiculturalism, ethnicity, and settlement.
