## Relationship Strategies:

**BASIC Relationship and Leadership Strategies** Paul E. Heacock, 2014-03 This book is an accurate synthesis of a treasure chest of scholarly work. It is written in an honest and conversational style. It is the product of significant insight. Paul Heacock is indeed a town father who will raise global well-being. Maria Hunt, PhD, Professor of Psychology, Avila University. Paul has a great memory for humorous anecdotes; they bring home the points. Paula Kay W. Kay and Associates. Very well written and extremely easy to understand and implement. To me, this is the BASIC training for life skills and reminds me in many ways of my experience in military basic training. If we wanted to survive basic, all of the trainees in my flight had to work together or suffer the consequences, meaning we had to put our differences aside and make it work. Danny Walker, Chief Master Sergeant, retired Air National Guard. I enjoyed reading this book. It reminded me of concepts I had forgotten, and I also learned some new things. I really liked the examples and good use of humor and anecdotes. Jim Temme, Author, Trainer, Speaker, and Consultant. It was a pleasure reading *BASIC Leadership and Relationship Strategies* and giving thought to the excellent content. The examples and stories really add clarity and color to the material. Dave Wine, President and CEO, MutualAid eXchange. This labor of love is very thought-provoking and right on point. An excellent job capturing the core of leadership development. Bob Gibson, President and CEO, retired Medical Protective. This is a great summary of Paul's life, what he has learned, how he actually lives. Indeed, it's a great reflection on a life well-lived. A good guide for all. Cary Phillips, President and Founder, CP1 Consulting, LCC. Enjoy the read. If you're young, applying these concepts can immediately better your life and relationships. If you are in the middle of your working life, application of these ideas will make the remainder of your career and relationships more fulfilling. Even if you're mature like Paul and me, applying these great ideas to your relationships will significantly enhance the golden years. Dale Hotze, Managing Director, AFM International. *Close Relationships* Clyde Hendrick, 2000. The authors in the volume extend the reach of their comprehensive reviews into theoretically driven and innovating explorations. The scope of coverage across and within chapters is striking. The developmentalist, the methodologist, the feminist, the contextualist, and the cross-culturalist alike will find satisfaction in reading the chapters. Catherine A. Surra, The University of Texas at Austin. The science of close relationships is relatively new and complex. *Close Relationships: A Sourcebook* represents the growing maturity of this multidisciplinary enterprise. The volume offers 26 chapters organized into four thematic areas: relationship methods, forms, processes, and threats, as well as a foreword and an epilogue. The volume provides a panoramic view of close relationship research as it enters the 21st century, offering highlights from current literature, original research, practical applications, and projections for future research. Relationship Methods includes both qualitative and quantitative chapters. Relationship Forms includes many of the stages, types, and roles that characterize intimate relationships. In a developmental fashion, chapters address social networks, children's friendships, adolescent relationships, adult friendships, and friendships in later life. Chapters on multicultural and multiracial

Asian Maritime Strategies Bernard D Cole, 2013-10-15 This book is concerned with both the national security concerns of Asian maritime nations and the security of the Asian maritime commons These are defined as the Pacific and Indian Oceans and associated seas bays and gulfs with their included sea lines of communication SLOCs The most useful geographical designation for maritime Asia is the Indo Pacific Bernard Cole provides both a survey of the maritime strategies of the primary nations of the Indo Pacific region and an evaluation of the domestic and international politics that drive those strategies The United States Canada Russia Japan North Korea South Korea China the Philippines Brunei Indonesia Vietnam Singapore Malaysia Myanmar India Pakistan Iran the smaller Indian Ocean and Persian Gulf states are all surveyed and analyzed The United States Japan China and India not surprisingly draw the most attention given their large modern navies and distant strategic reach The author concludes that the United States remains the dominant maritime power in this huge region stretching from Canada to the Persian Gulf despite its lack of a traditionally strong merchant marine U S maritime power remains paramount

due primarily to its dominant navy The Chinese naval modernization program deservedly receives a good deal of public attention but Cole argues that on a day to day basis the Japanese Maritime Self Defense Force as its navy is named is the most powerful maritime force in Far Eastern waters while the modernizing Indian Navy potentially dominates the Indian Ocean In fact a focus of this work is the exemplary description of all the region s navies with the author noting the naval arms race that is underway particularly in the area of submarine acquisition Cole is careful to couch this phenomenon in the regional concerns about Chinese naval expansion and the desire to ensure a continued massive U S naval presence The current naval developments in the region evince elements of a naval arms race but lack the coherent maritime strategies to make naval developments dangerous to regional peace and security Most telling will be whether United States power and focus remain on the region while adjusting to continued Chinese maritime power in a way acceptable to both nations No other current or recent work provides such a complete description of the Indo Pacific region s navies and maritime strategies while analyzing the current and future impact of those forces
