

MORAL RELATIVISM

Moral relativism is a view that rejects the existence of any objective, absolute or universal moral truths that govern our morality.

EXAMPLE: TAX AVOIDANCE

Tax avoidance isn't technically illegal. So here, we have a moral relativist debate:

- Some people believe that we all need to pay taxes in good faith for the good of society.
- Other people look at the government as the people who are engaging in morally outrageous behavior. How dare they take 40% of my income every week!

EXAMPLE: WEALTH

During the reformation, the Catholics and Protestants had competing views on whether it's moral to pursue personal wealth:

- The Catholics believed that the pursuit of wealth was a sign of worshiping money over God.
- The protestants believed working hard was good and becoming wealthy was a sign of blessings from God for your hard work.

Relativism, Cognitive and Moral Jack W. Meiland, Michael Krausz, 1982 **Moral Relativism, Moral Diversity, and Human Relationships** James Kellenberger, 2010-11-01 This book aims to clarify the debate between moral relativists and moral absolutists by showing what is right and what is wrong about each of these positions by revealing how the phenomenon of moral diversity is connected with moral relativism and by arguing for the importance of relationships between persons as key to reaching a satisfactory understanding of the issues involved in the debate Relativism Cognitive and Moral Jack Meiland, 1992-07-31 **Aspects of Relativism** James E. Bayley, 1992 In this book nine philosophers and one literary critic address aspects of the relativism issue currently of philosophic interest Contents Relativism in Literature and Literary Criticism The Case of Frankenstein Paul Sherwin The Relativity of Interpretation Charles Evans Relativity and Justification Michael Levin Reality Relativism Michael Levin The Relativism of Objectivity Anthony M Ungar Externalism and Rationality Robert G Meyers Aristotle on Protagorean Relativism Josiah B Gould Feminist Epistemology and the Question of Relativism Claudia Murphy Relativism and Diversity Kenneth Stern and Formulating the Moral Relativism Issue James E Bayley *The Psychological Basis of Moral Judgments* John Park, 2021-07-18 This volume examines the psychological basis of moral judgments and asks what theories of concepts apply to moral concepts By combining philosophical reasoning and empirical insights from the fields of moral psychology cognitive science evolutionary psychology and neuroscience it considers what mental states not only influence but also constitute our moral concepts and judgments On this basis Park proposes a novel pluralistic theory of moral concepts which includes three different cognitive structures and emotions Thus our moral judgments are shown to be a hybrid that express both cognitive and conative states In part through analysis of new empirical data on moral semantic intuitions gathered via cross cultural experimental research Park reveals that the referents of individuals moral judgments and concepts vary across time contexts and groups On this basis he contends for moral relativism where moral judgments cannot be universally true across time and location but only relative to groups This powerfully argued text will be of interest to researchers academics and educators with an interest in cognitive science moral theory philosophy of psychology and moral psychology more broadly Those interested in ethics applied social psychology and moral development will also benefit from the volume Controversy in Marketing Theory: For Reason, Realism, Truth and Objectivity Shelby D. Universalism Saral Jhingran,2001-01-01 The present work addresses itself to one of the most hotly debated issues in contemporary ethics relativism Relativism has become a formidable argument in Western socio moral thought under the impact of postmodern writings The author presents a detailed critique of various relativist and postmodernist theses without rejecting some of their empirically justified observations She underscores the fact that the intercultural communication which has been going on since time immemorial puts a question mark to the postmodernist theories of indeterminacy of translation incommensurability of various conceptual frameworks etc The author supports cognitivism in ethics according to which the moral properties of the object of moral judgement do in some way determine or cause that judgment This view is not to be confused with any realist ontological commitment She asserts that universalizability is the necessary condition of all rational judgments including the moral ones The author also discusses the relationship between self and others and in this context she draws upon the insights of ancient Indian thinkers She proposes that minimum moral principles and maxims can be agreed upon through reasoning and intercultural discourse **Moral Relativism** Steven Lukes,2011-05-26 Do we as

humans have no shared standards by which we can understand each other Do we truly have divergent views about what constitutes good and evil harm and welfare dignity and humiliation or is there some underlying commonality that wins out These questions show up everywhere from the debate over female circumcision to the UN Declaration of Human Rights They become ever more pressing in an age of mass immigration religious extremism and the rise of identity politics So by what right do we judge particular practices as barbaric Who are the real barbarians This provocative book takes an enlightening look at what we believe why we believe it and whether there really is an irreparable moral discord between us and them

The Oxford Handbook of the History of Ethics Roger Crisp,2013-01-31 Philosophical ethics consists in the human endeavour to answer rationally the fundamental question of how we should live The Oxford Handbook of the History of Ethics explores the history of philosophical ethics in the western tradition from Homer until the present day It provides a broad overview of the views of many of the main thinkers schools and periods and includes in addition essays on topics such as autonomy and impartiality The authors are international leaders in their field and use their expertise and specialist knowledge to illuminate the relevance of their work to discussions in contemporary ethics The essays are specially written for this volume and in each case introduce the reader to the main lines of interpretation and criticism that have arisen in the professional history of philosophy over the past two or three decades **Relativism** Jack W. Rationalism, Realism, and Relativism Robert L. Arrington, 2019-05-15 During the 1970s and 1980s the field of ethics underwent a profound change in perspective from noncognitivism to cognitivism regarding moral judgments and reasoning Although metaethical noncognitivism had been the predominant point of view during the previous three decades a series of attacks had undermined its authority by the 1970s and it gave way to the cognitivist belief that moral judgments have truth values This book provides a descriptive and critical guide to the often bewildering scene that resulted from these controversies in contemporary moral epistemology

Rationality, Relativism and the Human Sciences Joseph Margolis, A.S. Krausz, R. Burian, 2012-12-06 The Greater Philadelphia Philosophy Consortium was launched in the early eighties It began during a particularly lean period in the American economy But its success is linked as much to the need to be in touch with the rapidly changing currents of the philosophical climate as with the need to insure an adequately stocked professional community in the Philadelphia area faced perhaps permanently with the threat of increasing attrition The member schools of the Consortium now include Bryn Mawr College the University of Pennsylvania Temple University and Villanova University that is the schools of the area that offer advanced degrees in philosophy The philosophy faculties of these schools form the core of the Consortium which offers graduate students the instructional and library facilities of each member school The Consortium is also supported by the associated faculties of other regional schools that do not offer advanced degrees notably those at Drexel University Haverford College La Salle University and Swarthmore College both philosophers and members of other departments as well as interested and professionally qualified persons from the entire region The affiliated and core professionals now number several hundreds and the Consortium's various ventures have been received most enthusiastically by the academic community At this moment the Consortium is planning its fifth year of what it calls the Conferences on the Philosophy of the Human Studies

Relativism-Relativity Marin Cileá, Maria-Ana Tupan, 2013-07-26 Relativism Relativity An Interdisciplinary Perspective on a Modern Concept is a revisionary and historicist approach to an issue which cuts across the disciplinary borders of science philosophy ethics and art Sceptical of stereotypes including those of the totalising fictions of the Enlightenment supposedly steeped in absolutism and substantialism the authors endeavour to bring to light an alternative mode of cognitive mapping which runs from the seventeenth century to the age of complexity Current notions of fractal geometry rhizomatic linking of open structures hypertextuality the superposition of symbolic systems and nonlinear reality of chance and determinism are traced back to the work of Leibniz Laurence Sterne and D'Alembert Similarly to Heidegger who documented the dark side of the Renaissance in *Les Philosophies de la Renaissance* 1971 the essayists here see the issue of the absolutism relativism polarity as the focal point in the construction of a new eighteenth century whose ground breaking ideas first launched in the tentative

The Social Philosophy of Ernest Gellner ,2023-12-28 Does the Law Morally Bind the Poor? R. George Wright,1996-04-01 Consider the horror we feel when we learn of a crime such as that committed by Robert Alton Harris who commandeered a car killed the two teenage boys in it and then finished what was left of their lunch What we don t consider in our reaction to the depravity of this act is that whether we morally blame him or not Robert Alton Harris has led a life almost unimaginably different from our own in crucial respects In Does Law Morally Bind the Poor or What Good s the Constitution When You Can t Buy a Loaf of Bread author R George Wright argues that while the poor live in the same world as the rest of us their world is crucially different The law does not recognize this difference however and proves to be inconsistent by excusing the trespasses of persons fleeing unexpected storms but not those of the involuntarily homeless He persuasively concludes that we can reject crude environmental determinism without holding the most deprived to unreasonable standards *Ethics: The Basics, 2nd Edition* John Mizzoni,2017-03-27 Updated and revised *Ethics The Basics Second Edition* introduces students to fundamental ethical concepts principles theories and traditions while providing them with the conceptual tools necessary to think critically about ethical issues Introduces students to core philosophical problems in ethics in a uniquely reader friendly manner Lays out clearly and simply a rich collection of ethical concepts principles theories and traditions that are prevalent in today s society Considers western and non western viewpoints and religious interpretations of ethical principles Offers a framework for students to think about and navigate through an array of philosophical questions about ethics

'Philosophy' - After the End of Philosophy Nader N. Chokr,2014-10-16 The essays included in this collection deal with a wide and diverse range of problems and issues namely Cultural Complexity

Globalization Glocalization Relativism Bullshit Embodied and Situated Cognition Capabilities Approach Moral Universalism Solidarity Cosmopolitanism Pluralism Human Rights Justice and Philosophy after the end of Philosophy This work takes its main title from the last essay in which the author makes an effort to rethink the nature and purpose of philosophy for our times sketching a proposal for a new beginning for philosophy as critical philosophy Such a philosophy would have a clear and compelling emancipatory thrust At this point in human history it would have to be underwritten by an ethical universalism that is pluralistic historically enlightened and non ethnocentric In addition it would take seriously the consequences of complexity in a world that is increasingly interconnected and interdependent yet still so far apart and would be prepared to draw the full implications of the embodied and situated cognition paradigm shift which has taken place in the past few decades It would furthermore take aim at the bullshit in all of its manifestations that is so pervasive in various quarters throughout the whole of culture and society Finally it would effectively contribute to the articulation and elaboration of the kinds of concepts frameworks narratives and practices generally speaking which could somehow enable humans to rise to the next level in their understanding of the globalizing and glocalizing world in which they live and which is as is common knowledge dramatically confronted by a number of serious challenges grave risks and threats dismal shortcomings and failures This work offers compelling analyses and diagnostics and makes some sketch proposals to urgently grapple with them
