## **Reliable Partners How Democracies Have Made A Separate Peace:**

Reliable Partners Charles Lipson, 2013 Democracies often go to war but almost never against each other Indeed the democratic peace has become a catchphrase among scholars and even U S Presidents But why do democracies avoid fighting each other Reliable Partners offers the first systematic and definitive explanation Examining decades of research and speculation on the subject and testing this against the history of relations between democracies over the last two centuries Charles Lipson concludes that constitutional democracies have a contracting advantage a unique ability to settle conflicts with each other by durable agreements In so doing he forcefully counters realist claims that a regime s character is irrelevant to war and peace Lipson argues that because democracies are confident their bargains will stick they can negotiate effective settlements with each other rather than incur the great costs of war Why are democracies more reliable partners Because their politics are uniquely open to outside scrutiny and facilitate long term commitments They cannot easily bluff deceive or launch surprise attacks While this transparency weakens their bargaining position it also makes their promises more credible and more durable for democracies are generally stable Their leaders are constrained by constitutional rules independent officials and the political costs of abandoning public commitments All this allows for solid bargains between democracies When democracies contemplate breaking their agreements their open debate gives partners advance notice and a chance to protect themselves Hence agreements among democracies are less risky than those with nondemocratic states Setting rigorous analysis in friendly vigorous prose Reliable Partners resolves longstanding questions about the democratic peace and highlights important new findings about democracies in world politics from rivalries to alliances Above all it shows conclusively that democracies are uniquely adapted to seal enduring bargains with each other and thus avoid the blight of war

**Cite Right, Second Edition** Charles Lipson, 2011-05-15 In his bestselling guide Doing Honest Work in College How to Prepare Citations Avoid Plagiarism and Achieve Real Academic Success veteran teacher Charles Lipson brought welcome clarity to the principles of academic honesty as well as to the often murky issues surrounding plagiarism in the digital age Thousands of students have turned to Lipson for no nonsense advice on how to cite sources properly and avoid plagiarism when writing their research papers With his latest book Cite Right Lipson once again provides much needed counsel in a concise and affordable handbook for students and researchers Building on Doing Honest Work in College Lipson s new book offers a wealth of information on an even greater range of citation styles and details the intricacies of many additional kinds of sources Lipson s introductory essay Why Cite explains the reasons it is so important to use citations and to present them accurately in research writing In subsequent chapters Lipson explains the main citation styles students and researchers are likely to encounter in their academic work Chicago MLA APA CSE biological sciences AMA medical sciences ACS chemistry mathematics and computer science physics astrophysics and astronomy Bluebook and ALWD law and AAA anthropology and ethnography His discussions of these styles are presented simply and clearly with

examples drawn from a wide range of source types crossing all disciplines from the arts and humanities to science law and medicine Based on deep experience in the academic trenches Cite Right is an accessible one stop resource a must have guide for students and researchers alike who need to prepare citations in any of the major disciplines and professional studies

**Doing Honest Work in College, Third Edition** Charles Lipson,2019-01-25 Doing Honest Work in College stands on three principles do the work you say you do give others credit and present your research fairly These are straightforward concepts but the abundance of questionable online sources and temptation of a quick copy paste can cause confusion as to what s considered citing and what s considered cheating This guide starts out by clearly defining plagiarism and other forms of academic dishonesty and then gives students the tools they need to avoid those pitfalls This edition addresses the acceptable use of mobile devices on tests the proper approach to sources such as podcasts or social media posts and the limitations of citation management software Governance, Development and Conflict Manas Chatterji,Darvesh

Gopal,Savita Singh,2011-08-17 A considerable amount of work has been conducted in the field of peace studies conflict management peace science in economics sociology anthropology and management This title presents research with an emphasis on theoretical and mathematical constructs in the area of peace economics peace science **Hegemony and Democracy** Bruce Russett,2011-03-10 Hegemony and Democracy is constructed around the question of whether hegemony is sustainable especially when the hegemon is a democratic state The book draws on earlier publications over Bruce Russett s long career and features new chapters that show the continuing relevance of his scholarship In examining hegemony during and after the Cold War it addresses The importance of domestic politics in the formulation of foreign policy The benefits and costs of seeking security through military power at the expense of expanding networks of shared national and transnational institutions The incentives of other states to bandwagon with a strong but unthreatening hegemon and free ride on benefits it may provide rather than to balance against a powerful hegemon The degree to which hegemony and democracy undermine or support each other By applying theories of collective action and foreign policy Russett explores the development of American hegemony and the prospects for a democratic hegemon to retain its influence during the coming decades This collection is an essential volume for students and scholars of International Relations American Politics and US Foreign Policy

*Perspectives on International Relations* Henry R. Nau,2018-01-03 Perspectives on International Relations Power Institutions and Ideas shows students new to the field how theories perspectives of international affairs realism liberalism constructivism identity and critical theory play a decisive role in explaining every day debates about world affairs Why for example do politicians and political scientists disagree about the causes of the ongoing conflict in Syria even though they all have the same facts Or why do policymakers disagree about how to deal with North Korea when they are all equally well informed The new Sixth Edition of this best seller includes updates on Brexit the rise of Donald Trump and other populist leaders and continuing developments for ISIS Syria and Russia **War on Hate** Henry Kopel,2021-07-12 The UN outlawed

genocide in 1948 and the United States launched a war on terror in 2001 yet still today neither genocide nor terrorism shows any sign of abating This book explains why those efforts have fallen short and identifies policies that can prevent such carnage The key is getting the causation analysis right Conventional wisdom emphasizes ancient hatreds poverty and the impact of Western colonialism as drivers of mass violence But far more important is the inciting power of mass ideological hate propaganda this is what activates the drive to commit mass atrocities and creates the multitude of perpetrators needed to conduct a genocide or sustain a terror campaign A secondary causal factor is illiberal dualistic political culture this is the breeding ground for the extremist us vs them ideologies that always precipitate episodes of mass hate incitement A two tiered policy response naturally follows from this analysis in the short term several targeted interventions to curtail outbreaks of such incitement and in the long term support for indigenous agents of liberalization in venues most at risk for ideologically driven violence

Winning the War on War Joshua S. Goldstein, 2012-07-31 The most important political book of the year Gregg Easterbrook author of *The Progress Paradox* Everyone knows wars are getting worse more civilians are dying and peacemaking achieves nothing right Wrong Despite all the bad news headlines peacekeeping is working Fewer wars are starting more are ending and those that remain are smaller and more localized But peace doesn't just happen it needs to be put into effect Moreover understanding the global decline in armed conflict is crucial as America shifts to an era of lower military budgets and operations Preeminent scholar of international relations Joshua Goldstein definitively illustrates how decades of effort by humanitarian aid agencies popular movements and especially the United Nations have made a measureable difference in reducing violence in our times Goldstein shows how we can continue building on these inspiring achievements to keep winning the war on war This updated and revised edition includes more information on a post 9 11 world and is a perfect compendium for those wishing to learn more about the United States armed conflicts in Iraq and Afghanistan

*Theories of International Relations* Siegfried Schieder, Manuela Spindler, 2014-05-23 This book is a comprehensive guide to theories of International Relations IR Given the limitations of a paradigm based approach it sheds light on eighteen theories and new theoretical perspectives in IR by examining the work of key reference theorists The chapters are all written to a common template The introductory section provides readers with a basic understanding of the theory's genesis by locating it within an intellectual tradition paying particular attention to the historical and political context The second section elaborates on the theory as formulated by the selected reference theorist After this account of the theory's core elements the third section turns to theoretical variations examining conceptual subdivisions and overlaps further developments and internal critique The fourth section scrutinizes the main criticisms emanating from other theoretical perspectives and highlights points of contact with recent research in IR The fifth and final section consists of a bibliography carefully compiled to aid students further learning Encompassing a broad range of mainstream traditional theories as well as emerging and critical perspectives this is an original and ground breaking textbook for students of International Relations

The German edition of the book won the Geisteswissenschaften International Prize collectively awarded by the Fritz Thyssen Foundation the German Federal Foreign Office and the German Publishers Booksellers Association     Explaining Foreign Policy in Post-Colonial Africa Stephen M. Magu, 2021-01-02 This book explores foreign policy developments in post colonial Africa A continental foreign policy is a tenuous proposition yet new African states emerged out of armed resistance and advocacy from regional allies such as the Bandung Conference and the League of Arab States Ghana was the first Sub Saharan African country to gain independence in 1957 Fourteen more countries gained independence in 1960 alone and by May 1963 when the Organisation of African Unity OAU was formed 30 countries were independent An early OAU committee was the African Liberation Committee ALC tasked to work in the Frontline States FLS to support independence in Southern Africa Pan Africanists in alliance with Brazzaville Casablanca and Monrovia groups approached continental unity differently and regionalism continued to be a major feature Africa s challenges were often magnified by the capitalist democratic versus communist socialist bloc rivalry but through Africa s use and leveraging of IGOs the UN UNDP UNECA GATT NIEO and others to advance development the formation of the African Economic Community OAU s evolution into the AU and other alliances belied collective actions even as Africa implemented decisions that required cooperation uti possidetis maintaining colonial borders containing secession intra and inter state conflicts rebellions and building RECs and a united Africa as envisioned by Pan Africanists worked better collectively     Robert Pickus, Pacifist Warrior Robert Woito, 2020-11-30 Pacifist Warrior introduces Robert Pickus his leadership role in the pacifist community 1951 2016 and his thoughtful work to constructively engage the United States in world politics He called for leadership by the United States to move a conflict filled world towards peace through non military initiatives designed to gain the reciprocation of allies and dedicated adversaries alike Robert Pickus earned the title Pacifist Warrior because he not only believed pacifism in a nuclear age was a moral imperative it was also a more effective strategy towards a world without war Pickus career lasted from 1951 to 2016 As Director of the World Without War Council office in Berkeley he engaged civic labor business and religious organizations to work for a world without war He worked at the juncture where advocates of war as a last resort met community peace advocates to develop non military alternatives to war His signature contribution was a compendium of American Peace Initiatives developed with other key leaders including George Weigel Harold Guetzkow Sidney Hook and Ted Sorensen During his tenure the WWWC developed a strategy of American peace initiatives to get from here to a world without war The ideas of reciprocation universal participation and non violent change apply to both arms control and disarmament as well as climate change     Contested Peace in Mozambique Manuel Francisco Sambo, 2025-09-01 This book explores the complexity of peacebuilding in Mozambique following its devastating 16 year war While international efforts aimed to establish a stable market democracy this book reveals how the country s post war journey has been marred by recurring violence and the rise of authoritarian governance Drawing on extensive qualitative research of historical and contemporary challenges the book

transcends traditional critiques of liberal peacebuilding by navigating the intersection of liberal ideals and authoritarian practices It meticulously examines how Mozambique's leadership has outwardly embraced liberal strategies such as dialogue decentralisation and entrepreneurship while simultaneously deploying authoritarian tactics to maintain control Through this dual approach the book argues Mozambique has developed a form of contested peace marked by violence instability and unpredictability This book offers theoretical contributions and empirical insights to scholars students and practitioners It sheds light on the delicate balance between liberal and authoritarian governance and provides a fresh perspective on how peace can be achieved and lost in post conflict nations

Research Handbook on the Politics of International Law Wayne Sandholtz, Christopher A. Whytock, 2017-02-24 What is the relationship between politics and international law Inspired by comparative politics and socio legal studies this Research Handbook develops a novel framework for comparative analysis of politics and international law at different stages of governance and in different governance systems It applies the framework in a wide range of fields from human rights and environmental standards to cyber conflict and intellectual property to show how the relationship between politics and international law varies depending on the sites where it unfolds **Routledge**

**Handbook of Peace, Security and Development** Fen Osler Hampson, Alpaslan Özerdem, Jonathan Kent, 2020-06-04 This Handbook offers a comprehensive examination of the peace security and development nexus from a global perspective and investigates the interfaces of these issues in a context characterised by many new challenges By bringing together more than 40 leading experts and commentators from across the world the Handbook maps the various research agendas related to these three themes taking stock of existing work and debates while outlining areas for further engagement In doing so the chapters may serve as a primer for new researchers while also informing the wider scholarly community about the latest research trends and innovations The volume is split into three thematic parts Concepts and approaches New drivers of conflict insecurity and developmental challenges Actors institutions and processes For ease of use and organisational consistency each chapter provides readers with an overview of each research area a review of the state of the literature a summary of the major debates and promising directions for future research This Handbook will be of much interest to students of peace and conflict studies development studies security studies and International Relations **The Oxford**

**Handbook of International Security** Alexandra Gheciu, William Curti Wohlforth, 2018 This Oxford Handbook is the definitive volume on the state of international security and the academic field of security studies It provides a tour of the most innovative and exciting new areas of research as well as major developments in established lines of inquiry It presents a comprehensive portrait of an exciting field with a distinctively forward looking theme focusing on the question what does it mean to think about the future of international security The key assumption underpinning this volume is that all scholarly claims about international security both normative and positive have implications for the future By examining international security to extract implications for the future the volume provides clarity about the real meaning and practical implications

for those involved in this field Yet contributions to this volume are not exclusively forecasts or prognostications and the volume reflects the fact that within the field of security studies there are diverse views on how to think about the future Readers will find in this volume some of the most influential mainstream positivist voices in the field of international security as well as some of the best known scholars representing various branches of critical thinking about security The topics covered in the Handbook range from conventional international security themes such as arms control alliances and Great Power politics to new security issues such as global health the roles of non state actors cyber security and the power of visual representations in international security The Oxford Handbooks of International Relations is a twelve volume set of reference books offering authoritative and innovative engagements with the principal sub fields of International Relations The series as a whole is under the General Editorship of Christian Reus Smith of the University of Queensland and Duncan Snidal of the University of Oxford with each volume edited by a distinguished pair of specialists in their respective fields The series both surveys the broad terrain of International Relations scholarship and reshapes it pushing each sub field in challenging new directions Following the example of the original Reus Smit and Snidal The Oxford Handbook of International Relations each volume is organized around a strong central thematic by a pair of scholars drawn from alternative perspectives reading its sub field in an entirely new way and pushing scholarship in challenging new directions

Assessing the Capitalist Peace  
Gerald Schneider,Nils Petter Gleditsch,2013-10-18 Researchers have recently reinvigorated the idea that key features associated with a capitalist organization of the economy render nation states internally and externally more peaceful According to this adage the contract intensity of capitalist societies and the openness of the economy are among the main attributes that drive these empirical relationships Studies on the Capitalist Peace supplement the broadly received examinations on the role that economic integration in the form of trade and foreign direct investment play in the pacification of states Some proponents of the peace through capitalism thesis controversially contend that this relationship supersedes prominent explanations like Democratic Peace according to which democratic pairs of states face a reduced risk of conflict This volume takes stock of this debate Authors also evaluate the theoretical underpinnings of the relationship and offer an up to date idea history and classification of current research Leading scholars comment on these theoretical propositions and empirical findings This book is an extended and revised version of a special issue of International Interactions

*How to Write a BA Thesis, Second Edition* Charles Lipson,2018-12-05 How to Write a BA Thesis is the only book that directly addresses the needs of undergraduate students writing a major paper This book offers step by step advice on how to move from early ideas to finished paper It covers choosing a topic selecting an advisor writing a proposal conducting research developing an argument writing and editing the thesis and making through a defense Lipson also acknowledges the challenges that arise when tackling such a project and he offers advice for breaking through writer s block and juggling school life demands This is a must read for anyone writing a BA thesis or for anyone who advises these students

**Intentions in Great Power Politics** Sebastian Rosato, 2021-04-20 Why the future of great power politics is likely to resemble its dismal past Can great powers be confident that their peers have benign intentions States that trust each other can live at peace those that mistrust each other are doomed to compete for arms and allies and may even go to war Sebastian Rosato explains that states routinely lack the kind of information they need to be convinced that their rivals mean them no harm Even in cases that supposedly involved mutual trust Germany and Russia in the Bismarck era Britain and the United States during the great rapprochement France and Germany and Japan and the United States in the early interwar period and the Soviet Union and United States at the end of the Cold War the protagonists mistrusted each other and struggled for advantage Rosato argues that the ramifications of his argument for U S China relations are profound the future of great power politics is likely to resemble its dismal past

**U.S. Army War College Guide to National Security Issues: National security policy and strategy** J. Boone Bartholomees, Army War College (U.S.). Strategic Studies Institute, 2012 Volume II continues the analyses and discussion of national security policy and strategy

Promoting Peace with Information Dan Lindley, 2007-05-13 It is normally assumed that international security can reduce the risk of war by increasing transparency among adversarial nations But how is transparency provided how does it actually work and how effective is it in preserving or restoring peace This text provides answer to these questions Publisher s description

Eventually, you will agreed discover a further experience and execution by spending more cash. nevertheless when? pull off you say you will that you require to get those all needs subsequently having significantly cash?
