

Immigrants, Baptists, and the Protestant Mind in America. By LAWRENCE B. DAVIS. Urbana: University of Illinois Press, 1973. 230 pp. \$8.95.

Assuming that the Baptists "reflected . . . the Protestant mind", especially with regard to a vision of a Christian America, Professor Davis explores their responses as "typical white American Protestants to one of the major issues of the era." In the attempt to describe and explain changing Baptist attitudes toward immigration, he traces their reactions to key developments in that movement, beginning with the Chinese Exclusion Act (1882) and concluding with the National Origins Act (1924).

In 1882 northern Baptists appear to have had little inclination to favor restricted immigration, but by 1924 they generally approved a restrictive policy, although deploring the racial discrimination implicit in the National Origins Act. The gist of the story is as follows: Discouraged by inability to convert the flood of Roman Catholics from southern and eastern Europe, Baptists gradually lost hope for the realization of a homogeneous Christian America. Therefore they were moved to support legislation which would limit the influx of undesirable immigrants (that is, those not susceptible to Protestant evangelistic appeals and to cultural assimilation).

The author believes that religious convictions did affect Baptist attitudes toward ethnic groups, and that the story does illustrate "the possibility that human attitudes can and do change for the better." Many Baptists had more humane and positive views of ethnic groups than were prevalent in the wider society. An effort is made to draw conclusions from the data, and the book offers some new interpretations while it challenges some older viewpoints. There is a tendency at some points to move too easily from statements of leaders to inferences about northern Baptists in general. On the whole, however, this is an illuminating study.

Using materials hitherto neglected for the study of the role of religion in forming social attitudes, the author is to be commended for his painstaking research. His chief sources have been the publications of the American Baptist Home Mission Societies, books about home missions activities, and five independent weekly papers. The reports, articles, addresses and resolutions contained in such documents have proved a rich mine of information, which has been carefully worked to discover a wealth of fact and opinion pertinent to the subject.

Religion among the Unitarian Universalists: Converts in the Stepfathers' House. By ROBERT B. TAPP. New York: Seminar Press, 1973. xii + 268. \$10.00.

This book is addressed to the question of what postraditionality in religion might look like. The author conceives the Unitarian Universalist Association to be one of the outcomes of a "very widespread religious deconversion in Western culture." The UUA cannot be considered comprehensive of all that postraditional religion might be in the future. Yet, by virtue of its being an already known outcome, an examination of the UUA can afford now some insight into what part of the religious spectrum of the future will be like.

The inquiry is pursued using the results of a questionnaire survey conducted in 1968, which produced 12,146 responses from Unitarian Universalists in the U. S. and Canada. These respondents are divided early in the book into three groups: a postraditional group comprising those who have departed furthest from a commitment to traditional Christianity, an intermediate group which is on its way but still maintains some connections with traditional religion, and a traditional group whose members continue to see themselves as Christian and the UUA as a

volume humanism is viewed as being misunderstood by both traditionalists and the humanists themselves Radest does not wish to disparage traditional beliefs but he emphasizes that humanism is a legitimate philosophical ideological and religious alternative a party to the current struggle for a postmodern life philosophy The Devil and Secular Humanism examines humanism in a more comprehensive way than most current literature and it includes an assessment of the prospects for humanism in the years ahead It will be of great use to a literate but nontechnical audience who are engaged in philosophy religion law and politics

The Unbounded Community Kenneth A. Scherzer, 2014-12-01 Stick ball stoop sitting pickle barrel colloquys The neighborhood occupies a warm place in our cultural memory a place that Kenneth A Scherzer contends may have more to do with ideology and nostalgia than with historical accuracy In this remarkably detailed analysis of neighborhood life in New York City between 1830 and 1875 Scherzer gives the neighborhood its due as a complex richly textured social phenomenon and helps to clarify its role in the evolution of cities After a critical examination of recent historical renderings of neighborhood life Scherzer focuses on the ecological symbolic and social aspects of nineteenth century community life in New York City Employing a wide array of sources from census reports and church records to police blotters and brothel guides he documents the complex composition of neighborhoods that defy simple categorization by class or ethnicity From his account the New York City neighborhood emerges as a community in flux born out of the chaos of May Day the traditional moving day The fluid geography and heterogeneity of these neighborhoods kept most city residents from developing strong local attachments Scherzer shows how such weak spatial consciousness along with the fast pace of residential change diminished the community function of the neighborhood New Yorkers he suggests relied instead upon the unbounded community a collection of friends and social relations that extended throughout the city With pointed argument and weighty evidence The Unbounded Community replaces the neighborhood of nostalgia with a broader multifaceted conception of community life Depicting the neighborhood in its full scope and diversity the book will enhance future forays into urban history
