Religion and Consumer Behaviour Gaurav Gupta, Mandakini Paruthi, Shivinder Nijjer, 2023-02-28 Religion is an important part of individual lives playing a major role in our decision making and purchasing. Understanding the influence of religion on consumer behaviour is therefore an essential practice for business. The COVID 19 pandemic has especially enhanced the influence of consumers' religiosity on their consumption decisions. This book concentrates on understanding the relationship of religiosity with various aspects of consumption and consumer behaviour to improve policy and build on an under-represented topic. In this edited collection, expert contributors, academicians and researchers discuss the influence of religion on consumer behaviour in depth, including the dark side of religion on consumers' consumption behaviour and religious cults. The chapters also explore the ethical issues surrounding consumption and the role of religion on branding and sustainable practices. With a broad perspective, the book draws on examples of practices from Christianity, Islam, Hinduism and Buddhism. This book will be a particularly valuable resource for scholars and upper-level students of marketing, consumer behaviour and consumer psychology. The interdisciplinary perspectives will also appeal to those studying sociology and globalization.

Sacred Natural Sites Bas Verschuuren, Robert Wild, Jeffrey Mcneely, Gonzalo Oviedo, 2012-06-25 Sacred Natural Sites are the world's oldest protected places. This book focuses on a wide spread of both iconic and lesser-known examples such as sacred groves of the Western Ghats, India; Sagarmatha Chomolungma Mt Everest, Nepal; Tibet and China; the Golden Mountains of Altai, Russia; Holy Island of Lindisfarne, UK; and the sacred lakes of the Niger Delta, Nigeria. The book illustrates that sacred natural sites, although often under threat, exist within and outside formally recognised protected areas, heritage sites. Sacred natural sites may well be some of the last strongholds for building resilient networks of connected landscapes. They also form important nodes for maintaining a dynamic socio-cultural fabric in the face of global change. The diverse authors bridge the gap between approaches to the conservation of cultural and biological diversity by taking into account cultural and spiritual values together with the socio-economic interests of the custodian communities and other relevant stakeholders.

The Bloomsbury Handbook of Schools and Religion offers a refreshingly new international perspective.

Religions and Development Emma Tomalin, 2013-07-03 Religion has been excluded from development studies for decades. Religion, Globalization, and Culture Peter Beyer, Lori G. Beaman, 2007-10-30 This volume brings together over 25 articles by many of the most important authors who have worked on

issues directly related to the theme of religion and globalization. An additional emphasis on culture flags the inclusion of the relation of religion to its wider social context and also permits questioning the boundaries of religion so as to avoid a strong bias in favour of the analysis of institutionalized religion. The key emphasis of the book however is the focus specifically on religion, a topic that is still largely ignored in the burgeoning literature on globalization. The articles are divided into five subthemes: theoretical issues, historical approaches to religion and globalization, forms and boundaries of religion, key issues such as ecology and gender, and regional perspectives.

Gottlieb analyzes the growing synthesis of the movement's religious, social and political aspects as well as the challenges it faces in consumerism, fundamentalism and globalization.

Religious Tourism and the Environment Kiran A. Shinde, Daniel H. Olsen, 2020-09-30. The remarkable growth in religious tourism across the world has generated considerable interest in the impacts of this type of tourism. Focusing here on environmental issues, this book moves beyond the documentation of environmental impacts to examine in greater depth the intersections between religious tourism and the environment. Beginning with an in depth introduction that highlights the intersections between religion, tourism and the environment, the book then focuses on the environment as a resource or generator for religious tourism and as a recipient of the impacts of religious tourism. Chapters included discuss such important areas as theological views, environmental responsibility and host perspectives.
