Modernism Today Sjef Houppermans, Pete Liebrechts, Jan Baetens, Otto Boele, 2013-10-25 This book manifests at least four recent shifts and tendencies within Modernist studies in general that point at the expansion of this increasingly interdisciplinary field First Modernist studies has seen a temporal expansion to the extent that scholars in the field have come to turn to both the pre and posterior history of Modernism Second the field has witnessed a spatial expansion in that increasingly so researchers have also come to scrutinize the Modernisms of regions at the fringes of Europe and beyond Thirdly a vertical expansion too has marked Modernist studies in recent decades not only by further expanding the canon of women writers and exploring the continuum between high and lowbrow but also by looking at the artistic and mediatized hierarchies and cross fertilizations operative in the period A fourth conceptual expansion of the field shows that whereas concepts such as middlebrow *arri re garde* and to some extent even *avant garde* were once exotic notions of at best marginal importance in European Modernist studies they now form part and parcel of the field complicating and expanding it
