A Time for the Province George Z. Gasyna,2025-04-15 Within discourses on Polish provincial or marginal literature the eastern borderlands are a richly symbolic region that inspires much fascination and study Through close readings surveys and analyses of transborder narratives by seven modern writers who hailed from the Polish borderlands or set their works there A Time for the Province demonstrates how the region has come to represent a palimpsest of cultural identities and myths as each new generation unearths and rediscovers them George Gasyna explores

and theorizes the province as a space of grand utopian visions and dystopic gestures about both the Polish past and a Polish future Offering a novel literary and cultural history of modern Polish writing he paves the way toward productive new modes of conceptualizing the cultural and literary forms that have come from Central Europe over the last century challenging many basic assumptions about what this literature can offer its readership in Poland and around the world Through engagement with the theoretical apparatuses of postmemory studies and border studies *A Time for the Province* redefines Polish cultural identity in the current moment of postsocialist transition and globalized citizenship **The Bookman**, 1918 *The Soft Power of the Russian Language* Arto Mustajoki, Ekaterina Protassova, Maria Yelenevskaya, 2019-06-12 Exploring Russian as a pluricentric language this book provides a panoramic view of its use within and outside the nation and discusses the connections between language politics ideologies and cultural contacts Russian is widely used across the former Soviet republics and in the diaspora but speakers outside Russia deviate from the metropolis in their use of the language and their attitudes towards it Using country case studies from across the former Soviet Union and beyond the contributors analyze the unifying role of the Russian language for developing transnational connections and show its value in the knowledge economy They demonstrate that centrifugal developments of Russian and its pluricentricity are grounded in the language and education policies of their host countries as well as the goals and functions of cultural institutions such as schools media travel agencies and others created by migrants for their co-ethnics This book also reveals the tensions between Russia's attempts to homogenize the Russian world and the divergence of regional versions of Russian reflecting cultural hybridity of the diaspora Interdisciplinary in its approach this book will prove useful to researchers of Russian and post-Soviet politics Russian studies Russian language and culture linguistics and immigration studies Those studying multilingualism and heritage language teaching may also find it interesting *The Providence Athenaeum Bulletin* Providence Athenaeum, 1895
