Russia's Future Consolidation Or Disintegration:

Russia's Future Douglas W. Blum, 1994-01-01 **Russia's Politics of Uncertainty** Mary McAuley, 1997-08-28 Explores the political reactions of elites and society in the Russian Federation after the collapse of communist party rule and the break up of the USSR

Capitalism with a Human Face William Gay, T. A. Alekseeva, 1996 Combining the theoretical perspectives of a leading Russian political scientist and an American political philosopher who have collaborated for years *Capitalism with a Human Face* analyzes the relation between economics and politics in Russia as it moves toward modernization Throughout the book the authors contrast Western media accounts of the Russian situation with less accessible but more relevant data gathered in Russia since 1991 They advocate a new notion of centrism for Russia one that combines democratic politics and a market economy without abandoning the social guarantees on which many Russians have long relied and without which their political and economic life is likely to remain in turmoil This will be an important work for scholars and students of social and political philosophy international relations comparative politics and economics

Ukraine under Kuchma Taras Kuzio, 2016-07-27 *Ukraine under Kuchma* is the first survey of recent developments in post soviet Ukraine The book covers in an in depth manner the entire range of key developments since the 1994 parliamentary and presidential elections the first elections held in post soviet Ukraine The new era ushered in by these elections led to Ukraine's launch of radical economic and political reforms which aim to domestically dismantle soviet power within Ukraine stabilise relations with the separatist Crimean region and normalise relations with Russia and the West

Russia's Bitter Path to Modernity Alexander Chubarov, 2001-01-01 Will it follow the model of the Western capitalist democracies as those who applied the economic shock therapy of the early 90s hoped or will it chose its own distinct path of development In this history of Russia from 1917 to the present Alexander Chubarov teases out certain themes developed in his previous book on tsarist Russia *The Fragile Empire* One of the key factors to Russia's distinctiveness is its halfway location in the center of the Eurasian landmass This lends an inevitability to the traditional cultural schism between Westernizing reformers and Slavophiles Neither approach says Chubarov will work on its own Chubarov offers a balanced view abstaining from narrow ideologically biased assessments and examines the triumphs yes and failures of Russia's Soviet development within Russia's own cultural and historical context Without ever minimizing the brutalities of the Soviet period the state terror the collectivizations the labor camps the deportations of whole peoples Chubarov demonstrates much continuity between tsarist and Soviet Russia with the latter often repeating the former's mistakes Russia says Chubarov cannot turn its back on its Soviet experience Far from being a blind alley or aberrant phase the Soviet period was an organic part of Russia history and was largely successful in turning Russia and most of the other Soviet republics into modern states

After the Breakup of a Multi-Ethnic Empire Susanne M. Birgerson, 2001-12-30 The relationship between the Russian Federation and the 14 non Russian successor states is unequal with Russia the dominant power This power imbalance is a

hold over from the Soviet era in which the RSFSR was first among equals Empires like the Soviet one are specific types of political systems that differed from modern states The centralized multi ethnic and non democratic character of empires explains the continued dominance of the Russian Federation It also explains the absence of alternative economic arrangements and political contacts between the former republics The Soviet system was structured so as to establish Russian control over non Russian republics The political structure was centralized so that all decisions including investment production and distribution decisions were made in Moscow Economic planning dictated a complex network of production and distribution that rendered the former republics dependent on Russia in a variety of ways Soviet patterns of government administration and economic management are still evident in all the former republics Continued dependency on Russia has compromised the state building efforts of the former republics Political rhetoric trumpeting new foreign investment the expansion of diplomatic relations the signing of trade agreements and the imminent entrance into international organizations masks the fact that none of these new contacts have been able to replace the old Soviet production and distribution networks Scholars and students involved with comparative politics and Russian post Communist Studies will find the work of particular value Russian Politics and Society Richard Sakwa, 2008-04-10 Having been fully revised and updated to reflect the considerable changes in Russia over the last decade the fourth edition of this classic text builds on the strengths of the previous editions to provide a comprehensive and sophisticated analysis on Russian politics and society New to this edition extended coverage of electoral laws party development and regional politics new chapter on the phoney democracy period 1991-93 historical evaluation of Yeltsin's leadership full coverage of Putin's presidency discussion of the development of civil society and the problems of democratic consolidation latest developments in the Chechnya conflict more on foreign policy issues the re introduction of the Russian Constitution as an appendix an updated Select Bibliography more focus on the challenges facing Russia in the twenty first century Written in an accessible and lively style this book is packed with detailed information on the central debates and issues in Russia's difficult transformation This makes it the best available textbook on the subject and is essential reading for all those concerned with the fate of Russia and with the future of international society

After Communism: Perspectives on Democracy (p) Donald R. Kelley, 2003 In this collection top scholars of Soviet and post Soviet studies convene to explore communism's aftermath They consider state building and constitutionalism the transition to market capitalism and democracy across Eastern Europe the political development of Muslim states the complex and differential developments of electoral systems the risks and opportunities of nationalism and new political and economic activities in Russia from corruption to contracts Editor Donald Kelley introduces the volume with a synthesis of the theoretical and empirical findings of the volume and his brief chapter introductions place each contribution in relation to the other essays and to larger debates on democratization The End of Empire? Karen Dawisha, Bruce Parrott, 1997 First Published in 1997 Routledge is an imprint of Taylor Francis an Informa company **The International Politics of**

Eurasia: v. 9: The End of Empire? Comparative Perspectives on the Soviet Collapse S. Frederick Starr, Karen Dawisha, 2016-09-16 First Published in 1997 This book is the ninth in a series of ten volumes produced by the Russian Littoral Project The project shares the conviction that the transformation of the former Soviet republics into independent states demands systematic analysis of the determinants of the domestic and foreign policies of the new countries The series of volumes is intended to provide a basis for comprehensive scholarly study of these issues This volume was shaped by the author's view that future scholarship about the post Soviet world requires both specialized research and broad gauge studies that carefully juxtapose the breakup of the Soviet empire with the transformation of other multinational empires

Economic Development in Tatarstan Leo McCann, 2004-08-02 Based on extensive original research in the Republic of Tatarstan in the Central Volga region of Russia this book examines the economic development path followed by Tatarstan since the collapse of the Soviet Union and the Russian financial crash of 1998 It argues that the roles of global capitalism and globalisation are somewhat exaggerated in much contemporary academic literature In the case of Tatarstan a strong state role tightly knit local elite networks and the inheritance of the Soviet political and industrial systems are the most important socio economic formations in explaining the region's development

The Territories of the Russian Federation 2004 Imogen Gladman, 2004 This survey includes individual territory surveys and provides geographical historical economic and directory data as well as some 100 current maps

Uncertain Europe Martin Smith, Graham Timmins, 2002-04-12 This timely book considers the topical issue of the enlargement processes of the European Union and NATO The contributors examine issues including the dual enlargement process and German and Russian relationships with it NATO and the pan European security agenda East European reactions to enlargement and concepts of security in the new Europe This book provides a cohesive overview of the pan European security debate and is an essential resource for students and academics interested in the development of the European Union

National Identity and Foreign Policy Ilya Prizel, 1998-08-13 This book is based on the premise that the foreign policy of any country is heavily influenced by a society's evolving notions of itself Applying his analysis to Russia Poland and Ukraine the author argues that national identity is an ever changing concept influenced by internal and external events and by the manipulation of a polity's collective memory The interaction of the narrative of a society and its foreign policy is therefore paramount This is especially the case in East Central Europe where political institutions are weak and social coherence remains subject to the vagaries of the concept of nationhood Ilya Prizel's study will be of interest to students of nationalism as well as of foreign policy and politics in East Central Europe

The International Politics of East Central Europe Adrian G. V. Hyde-Price, 1996 Established in the belief that imperialism as a cultural phenomenon had as significant an effect on the dominant as it did on the subordinate societies the Studies in Imperialism series seeks to develop the new socio cultural approach which has emerged through cross disciplinary work on popular culture media studies art history the study of education and religion sports history and children's literature The

cultural emphasis embraces studies of migration and race while the older political and constitutional economic and military concerns are never far away It incorporates comparative work on European and American empire building with the chronological focus primarily though not exclusively on the 19th and 20th centuries when these cultural exchanges were most powerfully at work This work explores the sexual attitudes and activities of those who ran the British Empire The study explains the pervasive importance of sexuality in the Victorian Empire both for individuals and as a general dynamic in the working of the system Among the topics included in the book are prostitution the manners and mores of missionaries and aspects of race in sexual behaviour

The Territories of the Russian Federation 2003 Europa Publications,2003 Presents a distinctive collection of political geographical and economic information on the 89 constituent units of the Russian Federation

The Rebirth of Politics in Russia Michael E. Urban,Vyacheslav Igrunov,1997-03-28 Blending first hand accounts of grassroots politics with an original theory of social relations under communism this 1997 book seeks to explain one of the seminal events of this century the rebirth of politics in Russia amid the collapse of the USSR The authors trace the process from the pre political period of dissident activity through perestroika and the appearance of political groups and publications elections the formation of political parties and mass movements counter revolution and coup d tat the victory of democratic forces and the organization of a Russian state to the struggle of power in the post communist epoch the violent end of the first republic and the contentious relations engulfing its successor By focusing on the popular forces which accomplished Russia s political rebirth rather than the reforms of the Soviet establishment this book offers an original perspective on this critical period

The Territories of the Russian Federation 2002 ,2002 Presents a distinctive collection of political geographical and economic information on the 89 constituent units of the Russian Federation This survey offers an insight into the often neglected regional dimension of the politics and economy of the Federation It includes Individual territory surveys Geographical historical economic and directory data Some 100 current maps Background to the Federation An essay covering the region as a whole analyzes the relationship between the territories and the Federation A chronology of Russia from the 9th century to the end of 2001 Statistics of major demographic and economic indicators Details of the Government of the Russian Federation Territorial Surveys Each territorial chapter includes A map plus geographical and demographic information Historical details followed by a description of the current political situation An economic survey presenting the latest available statistics A directory of names and addresses of the leading political and administrative officials

Perestroika and the Party Francesco Di Palma,2019-08-01 Countless studies have assessed the dramatic reforms of Mikhail Gorbachev but their analysis of the impact on European communism has focused overwhelmingly on the Soviet Union and Eastern bloc nations This ambitious collection takes a much broader view reconstructing and evaluating the historical trajectories of glasnost and perestroika on both sides of the Iron Curtain Moving beyond domestic politics and foreign relations narrowly defined the research gathered here constitutes a transnational survey of these reforms collective impact

showing how they were variably received and implemented and how they shaped the prospects for proletarian internationalism in diverse political contexts Central Asia, Security, and Strategic Imperatives Tabassum Firdous, 2002

The present study offers an assessment of security concerns in Central Asia after the collapse of Soviet Union in 1991. It deals with the transition period for the five Central Asian States from the communist system to a democratic and pluralistic one. Essentially the focus of the writer is on bilateral, multilateral and international commitments of these States to ensure peace and security in the region. The withdrawal of nuclear warheads from Kazakhstan, collective security formula, bilateral agreements and the role of the big powers all make an interesting study. The author has discussed these concerns in the context of the stance of neighbouring States vis a vis Central Asia. Economic interests also figure wherever necessary. This work is highly useful to those who would like to concentrate on any aspect of history in Central Asia and adjoining regions in the post Soviet period.
