Russias Shortcut To Fame:

Russia's Role in World Politics Elias Götz, Neil MacFarlane, 2022-12-09 This book explores Russia's role in world politics. In recent years, Moscow has played an increasingly active and assertive role in geopolitics. Examples include Russia's takeover of Crimea and meddling in eastern Ukraine, Russia's military intervention in Syria and support for the Assad government, the Kremlin's alleged interference in the 2016 US presidential race, the pursuit of closer economic and diplomatic ties with China, and Russia's ambitious military reforms and nuclear brinkmanship. Not surprisingly, Russia's role in world politics has become the object of a spirited debate among Western policymakers, think tank analysts, and academics. Much of this debate focuses on one central question: What are the main drivers or causes of Moscow's recent assertiveness? The contributions gathered here address this question by focusing on the interplay of power, ideas, and domestic influences. Previously published in *International Politics* Volume 56 issue 6 December 2019

Eleven Months to Freedom Dwight R. Messimer, 2016-11-15 *Eleven Months to Freedom* recounts the daring World War I escape of German midshipman Erich Killinger. Falsely accused of bombing a railway station after crashing his plane at sea, he was sentenced to life in the Sakhalin coal mines. Shipped by rail with several other POWs across Russia, Killinger was determined to return home. In order to do this, though, he needed to jump from the train, cross Siberia, and make it to a German-run escape pipeline in China, all while braving bandits, subzero temperatures, threats of starvation, the risk of capture by Japanese and Russian troops, and possible internment by the Chinese. Once he made it to China, Killinger used money and fake identity papers to survive along the 800 miles to Shanghai. Improbably playing the role of a dashing French blade, Killinger lived the high life on one ship, then later served as a humble deckhand on another. Risking discovery by the British, he made a bold and risky move as his final destination neared.

Institutions, Ideas and Leadership in Russian Politics Julie Newton, William Tompson, 2010-06-23 A stimulating and thought-provoking collection that challenges some of the emerging conventional wisdom about contemporary Russia. It examines the role of leadership, institutions, and ideas and the interactions among them in shaping Russia's post-Soviet transformation.

Russia's Shortcut to Fame Robert J. Morrison, 1987-01-01 Account of investigations into airplane flights in 1937 from the Soviet Union to the United States, including Vancouver, Wash., which were claimed by the Russians as the first transpolar flights and which the author claims to be hoaxes.

No Shortcuts Max Smeets, 2022-08-01 Over the past decade, numerous states have declared cyberspace as a new domain of warfare, sought to develop a military cyber strategy, and establish a cyber command. These developments have led to much policy talk and concern about the future of warfare as well as the digital vulnerability of society. *No Shortcuts* provides a level-headed view of where we are in the militarization of cyberspace. In this book, Max Smeets bridges the divide between technology and policy to assess the necessary building blocks for states to develop a military cyber capacity. Smeets argues that for many states, the barriers to entry into conflict in cyberspace are currently too high. Accompanied by a wide range of empirical examples, Smeets shows why governments

abilities to develop military cyber capabilities might change over time and explains the limits of capability transfer by states and private actors

Arctic Fever Anastasia Likhacheva, 2022-08-22 This book explores the Arctic as a rapidly evolving phenomenon in international affairs of a rising number of stakeholders For decades Arctic studies used to be an affair of a relatively narrow group of experts from northern countries This time is over due to a new Chinese Arctic policy as well as growing regional interests from South Korea Singapore India and Japan Contributors reflect on new roles for the Arctic region both as a playground for the old school nation state competition and even confrontation and a new source for international cooperation in energy logistics and natural sciences Climate change political tensions and economic competition make Arctic a hotter venue of international relations This new Arctic fever studied through a comparative analysis of different regional agendas especially with a focus on the US China Russia triangle represents the main subject of our book which will be of interest to scholars of geopolitics of climate change and of 21st century energy economics

Shortcuts Through Time TOM REIDY, *Shortcuts Through Time* is my second anthology of Twilight Zone genre science fiction stories Operation Chronos is about a university physicist that befriends an elderly German janitor who had smuggled plans for a time machine out of Germany at the end of World War II The professor is able to construct a time machine from the plans resulting in an alternate universe where professor and janitor reverse roles A Change of Plans is based on the true life experience of the author's mother that had this event not happened the author would most likely never have been born A time warp enables a man to go back to the past and prevent his grandmother's killing at the hands of his grandfather But what will become of this man as a result of the change

AUTHOR'S NOTE The names place and dates have been altered or changed

Winners and Losers recounts what happens to a community college instructor who can visualize tomorrow's winning lottery numbers The outcome is embedded in the title of the story Back and Forth reveals the unintended consequences of an early 20th century time traveler's attempt to alter the course of the later 20th century by arranging the deaths of Lenin and Hitler before they come to power The Second Shooter tells about a man who is approached by a mysterious stranger with a plan to travel back in time to prevent the assassination of President Kennedy in 1963 The plan succeeds and the assassination is averted however it becomes necessary to go back in time once again this time to ensure that Kennedy is assassinated in order to re-align two parallel universes Hotel Retro is about a couple looking for a certain restaurant in Alton Illinois and getting caught up in a heavy rainstorm as they are entering Alton They take refuge at a hotel with a distinct mid 19th century motif When the hotel catches fire they rescue the man in the adjoining room who bears an uncanny resemblance to Abraham Lincoln When they leave the hotel they are in the 21st century Did they somehow slip through a time warp Maybe but then again maybe not based on a phone call to the hotel after they return home The Tiara is about a man who agrees to steal an ancient papal tiara originally from Persia and turn it over to Iranian agents In doing so he gets trapped in an endless temporal paradox loop The Promotion tells how George Armstrong Custer was mistakenly promoted to

Brigadier General In the original reality he was promoted to the rank of Major but a college professor and his student have to create the mistake that will result in the creation of our universe which is parallel to the original universe Operation Northern Lights is the tale of an expedition sent to the North Pole by the United States Government to determine if there is a Hollow Earth civilization as detailed in Admiral Byrd's Secret Diary The exact motivation for this government expedition and what happens to the crew on this mission is not quite clear Are they what they seem to be or is it something else *Russia and Ukraine* Maria Popova, Oxana Shevel, 2023-11-08 In February 2022 Russian missiles rained on Ukrainian cities and tanks rolled towards Kyiv to end Ukrainian independent statehood President Zelensky declined a Western evacuation offer and Ukrainians rallied to defend their country What are the roots of this war which has upended the international legal order and brought back the spectre of nuclear escalation How did these supposedly brotherly peoples become each other's worst nightmare In *Russia and Ukraine Entangled Histories Diverging States* Maria Popova and Oxana Shevel explain how since 1991 Russia and Ukraine diverged politically ending up on a collision course Russia slid back into authoritarianism and imperialism while Ukraine consolidated a competitive political system and pro European identity As Ukraine built a democratic nation state Russia refused to accept it and came to see it as an anti Russia project After political and economic pressure proved ineffective and even counterproductive Putin went to war to force Ukraine back into the fold of the Russian world Ukraine resisted determined to pursue European integration as a sovereign state These irreconcilable goals rather than geopolitical wrangling between Russia and the West over NATO expansion are the authors argue essential to understanding Russia's war on Ukraine *No Shortcuts to the Top* Ed Viesturs, David Roberts, 2007-11-27 NATIONAL BESTSELLER This gripping and triumphant memoir from the author of *The Mountain* follows a living legend of extreme mountaineering as he makes his assault on history one 8 000 meter summit at a time From the drama of the peaks to the struggle of making a living as a professional climber to the basics of life at 26 000 feet *No Shortcuts to the Top* is fascinating reading Aron Ralston author of *Between a Rock and a Hard Place* and subject of the film *127 Hours* For eighteen years Ed Viesturs pursued climbing's holy grail to stand atop the world's fourteen 8 000 meter peaks without the aid of bottled oxygen But *No Shortcuts to the Top* is as much about the man who would become the first American to achieve that goal as it is about his stunning quest As Viesturs recounts the stories of his most harrowing climbs he reveals a man torn between the flat safe world he and his loved ones share and the majestic and deadly places where only he can go A preternaturally cautious climber who once turned back 300 feet from the top of Everest but who would not shrink from a peak Annapurna known to claim the life of one climber for every two who reached its summit Viesturs lives by an unyielding motto Reaching the summit is optional Getting down is mandatory It is with this philosophy that he vividly describes fatal errors in judgment made by his fellow climbers as well as a few of his own close calls and gallant rescues And for the first time he details his own pivotal and heroic role in the 1996 Everest disaster made famous in Jon Krakauer's *Into Thin Air* In

addition to the raw excitement of Viesturs's odyssey No Shortcuts to the Top is leavened with many funny moments revealing the camaraderie between climbers It is more than the first full account of one of the staggering accomplishments of our time it is a portrait of a brave and devoted family man and his beliefs that shaped this most perilous and magnificent pursuit

Russia's Foreign Policy Andrei P. Tsygankov, 2013-02-14 Now fully updated and revised this clear and comprehensive text explores the past quarter century of Soviet Russian international relations comparing foreign policy formation under Gorbachev Yeltsin Putin and Medvedev Drawing on an impressive mastery of both Russian and Western sources Andrei P Tsygankov shows how Moscow's policies have shifted with each leader's vision of Russia's national interests He evaluates the successes and failures of Russia's foreign policies explaining its many turns as Russia's identity and interaction with the West have evolved The book concludes with reflections on the emergence of the post Western world and the challenges it presents to Russia's enduring quest for great power status along with its desire for a special relationship with Western nations

Russian Foreign Policy toward Missile Defense Bilyana Lilly, 2014-08-21 This book is devoted to one of the central issues in U S Russian and NATO Russian relations ballistic missile defense Drawing on more than 2 000 primary sources interviews with Russian and NATO officials and a variety of Russian and Western publications this book offers an unparalleled in depth analysis of the reasons behind Russia's policy towards the construction of a U S ballistic missile defense in Europe It provides a critical assessment of the decision making mechanisms that shape Russia's position on ballistic missile defense as well as Russia's strategic relations with the United States and Russia's interaction with European and non European powers Lilly argues that contrary to Moscow's official claims during the Putin era Russian objections to the construction of ballistic missile defense in Europe have not been wholly dictated by security concerns To Russia missile defense is not purely an issue in and of itself but rather a symbol and instrument of broader political considerations At the international level the factors that have shaped Russia's response include Moscow's perception of the overall state of U S Russian relations the Kremlin's capacity to project influence and power abroad and NATO's behavior in the post Soviet space Domestically the issue of missile defense has been a facilitating instrument for strengthening Putin's regime and justifying military modernization Taken together these instrumental considerations and their fluctuating intensity in different periods prompt the Russian leadership to pursue

contradictory policy approaches simultaneously On the one hand the Kremlin seeks U S cooperation while on the other hand it threatens retaliation and reinforces Russian offensive capabilities The result is Moscow s incoherence inconsistency and double speak over the issue of missile defense [Learn to speak and write Russian in 30 days](#) YouGuide Ltd, [Political History of Russia](#) ,1996

Ultra-Modernism Edward Denison,Guangyu Ren,2016-12-01 The first half of the twentieth century was fraught with global tensions and political machinations However for all the destruction in that period these geopolitical conditions in Manchuria cultivated an extraordinary variety of architecture and urban planning which has completely escaped international attention until now With over forty carefully chosen images Ultra Modernism Architecture and Modernity in Manchuria is the first book in English that illustrates Manchuria s encounter with modernity through its built environment Edward Denison and Guangyu Ren take readers through Russia s early territorial claims Japan s construction of the South Manchuria Railway SMR and the establishment of Manchukuo in 1932 The book examines in detail the creation of modern cities along the SMR and focuses on three of the most important modern urban centres in Manchuria the Russian dominated city of Harbin the port of Dalian and the new capital of Manchukuo Hsinking Changchun Like so much of the world outside the West during the twentieth century Manchuria s encounter with modernity is merely a faint whisper drowned out by the deafening master narrative of Western centric modernism This book attempts to redress an imbalance in the modern history of China by studying the impact of Japan on architecture and planning beyond the depredations of the Sino Japanese War Ultra Modernism Architecture and Modernity in Manchuria is a concise fascinating reminder of northeast China s transformation a century ago when it was known as Manchuria Denison and Ren show how Dalian Shenyang Changchun and Harbin went from a sleepy port a decaying imperial seat and small agricultural settlements to sleek manicured metropolises linked by the world s longest railway to Europe This is an excellent addition to both syllabus and bookshelf Michael Meyer author of In Manchuria A Village Called Wasteland and the Transformation of Rural China and The Last Days of Old Beijing

Life in the Vanishing Backstreets of a City Transformed Manchuria today conjures up images of rusting heavy industry and a hostile environment But beneath the coal dust is a built environment that was once at the cutting edge of what was meant to be modern This creative and comprehensive book takes readers back to a time when the region was an outdoor laboratory for modernity and cosmopolitanism James Carter author of Creating a Chinese Harbin Nationalism in an International City 1916 1932 *External Research. ER List* United States. Department of State. External Research Division,1952 **External Research** United States. Department of State. External Research Division,1954 *Protecting the Arctic Mark* Nuttall,2005-10-05 Protecting the Arctic explores some of the ways in which indigenous peoples have taken political action regarding Arctic environmental and sustainable development issues and investigates the involvement of indigenous peoples in international environmental policy making Nuttall illustrates how indigenous peoples make claims that their own forms of resource management not only have relevance in an Arctic regional context but provide models for the inclusion of indigenous values and environmental knowledge in the design negotiation and implementation of global environmental policy
