Russias Democratic Moment Defining Us:

Russian-American Dialogue on the History of U.S. Political Parties Joel H. Silbey, 2000 Russian American Dialogue on the History of U S Political Parties is the fourth volume in the Russian American Dialogues series a series that brings together scholars in the former Soviet Union and the United States who share an interest in the study of America s heritage and its importance to contemporary Russia In this valuable work Russian scholars such as N V Sivachev Alexander S Manykin and Vladimir V Sogrin examine the history of American political parties and the role they played across two centuries The Russians draw their own conclusions about the durability of the two party system giving careful consideration to historical crises the secessionist movement and the Civil War the reform era of the Populists and Progressives at the turn of the twentieth century the Great Depression and the New Deal in which the two party structure was tested Russian perspectives are also applied in analyzing the evolution of particular parties from the rise and fall of the nineteenth century Whigs to the shifting balance between twentieth century Democrats and Republicans The dialogue is then developed through commentaries by American historians such as Allan G Bogue and Theodore J Lowi and through counter responses often strongly expressed by the Russian authors This lively exchange of ideas helps advance an understanding of key aspects of American party history and offers thought provoking discussions of comparative international studies and historiography Because the book provides unique perspectives on the American partisan experience by non American specialists it will be welcomed by all historians as well as by anyone with an interest in the American Russian connection

Monthly Catalog of United States Government Publications ,1995

Russia's Identity in International Relations Ray Taras, 2012 Bringing together leading scholars from Russia and outside experts on Russia this book looks at the difference between the image Russia has of itself and the way it is viewed in the West It discusses the historical cultural and political foundations that these images are built upon and goes on to analyse how contested these images are and their impact on Russian identity The book questions whether differing images explain fractiousness in Western Russian relations in the new century or whether distinct imaginary solitudes offer a better platform from which to negotiate differences Providing an innovative comparative study of contemporary images of the country and their impact the book is a significant contribution to studies of globalisation and international relations

The Troubled Birth of Russian Democracy: Parties, Personalities, and Programs ,1993 The demise of communism in the Soviet Union could not have occurred without the activism of dissident anticommunist leaders who created and nourished a climate in which ordinary Russians gained the courage to stand up to and defeat communist control But with communism ousted what new form of government and what new leaders will emerge in Russia a society that has never known democracy Michael McFaul a research associate at Stanford University s Center for International Security and Arms Control and Sergei Markov an assistant professor at Moscow State University interviewed anti communist leaders and collected the documents of anticommunist parties in the months preceding and immediately

following the August 1991 attempted coup d'etat To examine the range of the political spectrum in Russia they also talked to procommunist leaders who emerged to oppose Mikhail Gorbachev's reforms nationalist and anti-Semitic leaders of movements such as Pamyat labor unions Christian movements and organizations opposed to the division of the Soviet Union What emerges is a kaleidoscope of leaders with distinct ideas on key issues facing Russia how to reform the economy what role the market should play in a new economic system how to respond to growing demands from non-Russian republics for independence what leaders can be trusted what Russia's relations with the West should be and what form of government would be best for Russia Gathered here are essays offering historical background on the parties selected interviews with prominent members of these groups and important party documents Whether democracy will flourish in Russia remains in question The parties profiled here actively involved in the debate over Russia's future offer readers an insider's look into contemporary Russian politics

Monthly Catalogue, United States Public Documents, 1995 The Rhetorical Rise and Demise of "Democracy" in Russian Political Discourse, Volume 3 David Cratis Williams, Marilyn J. Young, Michael K. Launer, 2024-02-20 In Volume Three of this four volume series we examine the rhetorical development that occurred during the first two terms of Vladimir Putin's tenure as president of the Russian Federation Initially Putin appeared to follow in the path set by his predecessor Boris Yeltsin vowing that Russia was at heart a European nation and would be a westward facing democracy going forward He even mentioned partnering with the EU and NATO Eight years later at the 2007 Munich Security Conference Putin excoriated the West for in his words attempting to create a unipolar world in which NATO expansion threatened Russia's security the United States acted as the world's sole hegemon and Europe simply followed orders relinquishing any sense of agency in its own affairs

Russian Critics on the Cinema of Glasnost Michael Brashinsky, Andrew Horton, 1994-09-30 Russian Critics on the Cinema of Glasnost gathers together 23 essays written by some of Russia's most astute commentators of film and culture Written during the 1980s and published in English for the first time this collection includes reviews of films such as Little Vera and Taxi Blues which were critically hailed in the West Their comments not only illuminate important aspects of Russian filmmaking during this decade as importantly they capture a sense of a society in flux during the waning years of Communism as well as the larger context within which Glasnost cinema and culture developed This collection provides insight into the successes and shortcomings of Glasnost as captured in film for a Western audience

The Middle East, Abstracts and Index, 2006 **The Chechen Conflict and Russian Democratic Development** United States. Congress. Commission on Security and Cooperation in Europe, 1996 **Agonies of Empire** Michael Cox, 2022-03-08 Michael Cox outlines the ways in which five American Presidents from Clinton to Biden have addressed their predecessors' legacies while dealing with an empire under increasing stress He sets out a critical framework for US foreign policy the US's relationship with its enemies and rivals and whether it is now in long term decline (vol. III-IV) Constructive movements and measures in America New York (State). Legislature. Joint Legislative Committee to

Investigate Seditious Activities,1921 *Cambridge Magazine* ,1916 *Revolutionary Radicalism: (vol. III-IV) Constructive movements and measures in America* New York (State). Legislature. Joint Legislative Committee to Investigate Seditious Activities,1920 **The Cambridge Magazine** ,1916 **Russia and the West from Alexander to Putin** Andrei P. Tsygankov,2012-06-28 Covering two centuries of Russian history this book shows how a sense of honor has affected Russia s foreign policy decision making **History Teacher's Magazine** ,1918 **The Advocate of Peace** ,1919 Leading Russia: Putin in Perspective Alex Pravda,2005-05-26 Leaders and leadership continue to dominate Russia s political development Like his predecessors in the Kremlin Vladimir Putin has made a crucial impact on the substance and style of Russian politics His efforts to use traditional tools of state power to manage democracy and market capitalism have had mixed effects on both Leading Russia investigates the ambiguities and contradictions of Putin s rule from four perspectives The volume first considers his leadership in the context of Russia s convulsive historical cycle of revolutionary transformation breakdown consolidation and stagnation The study then analyses how normative and institutional components of democracy have fared under Putin s regime of stronger executive control It proceeds to examine the strengths and weaknesses of presidential power vis vis bureaucratic regional and corporate groups The volume concludes with two assessments of the strategic direction in which Putin is taking Russia They explore the tensions between bureaucratic authoritarian trends and Putin s apparent commitment to electoral democracy market capitalism and alignment with the West The book helps to deepen our understanding of the cultural and institutional factors shaping Putin s leadership approach and policy priorities More widely it sheds light on the complexity of the relationship between post communist leadership democracy and economic modernization **Amateur and Proletarian Theatre in Post-Revolutionary Russia** Stefan Aquilina,2021-04-08 This is the first collection of primary sources that addresses the amateur theatre produced by the workers in the first decade after the Russian Revolution Newly translated from the Russian the essays capture both theoretical articulations on the scene by luminaries such as Alexander Bogdanov Platon Kerzhentsev Valerian Pletnev Alexander Mgebrov and Valentin Smyshliaev and the more fleeting descriptions and first hand accounts of the productions staged accounts and voices which are typically harder to capture The essays tell a story of unabashed optimism in the creativity of the working classes They speak of the use of theatre to carve a public and political role in the construction of a new world The sources however also exhibit the flipside of the scene or the sombre difficulties faced by the amateur actors and the incessant calls to raise standards through professional help The narrative developed is that of an amateur theatre which began as an autonomous and heterogeneous activity but which by the mid to late 1920s was transformed into a regulated practice and a space for cultural programming The collection makes an important contribution to our understanding of modern theatre scholarship conventionally tackles the canonical names from the professional world but gives little attention to the more down to earth forms of performance taking place in factories clubs and amateur circles An introductory essay also highlights the range and significance of the

collection and draws links between the essays

Advocate of Peace and Universal Brotherhood, 1920
