Russias Post Communist Economy:

Russia's Post-communist Economy Brigitte Granville, Peter Oppenheimer, 2001 The Russian economy is an enigma to the West Is it a sleeping giant or on the point of break up and collapse This collection of papers offers a broad based overview of all aspects of Russian economic experience in the 1990s

Building Business in Post-Communist Russia, Eastern Europe, and Eurasia Dinissa Duvanova, 2013-02-18 Prior to 1989 the communist countries of Eastern Europe and the USSR lacked genuine employer and industry associations After the collapse of communism industry associations mushroomed throughout the region Duvanova argues that abusive regulatory regimes discourage the formation of business associations and poor regulatory enforcement tends to encourage associational membership growth Academic research often treats special interest groups as vehicles of protectionism and non productive collusion This book challenges this perspective with evidence of market friendly activities by industry associations and their benign influence on patterns of public governance Careful analysis of cross national quantitative data spanning more than 25 countries and qualitative examination of business associations in Russia Ukraine Kazakhstan and Croatia shows that postcommunist business associations function as substitutes for state and private mechanisms of economic governance These arguments and empirical findings put the long standing issues of economic regulations public goods and collective action in a new theoretical perspective

Hegemony, International Political Economy and Post-Communist Russia Owen Worth, 2017-07-05 This illuminating book explores the neo Gramscian school of international political economy and their conceptualization of global hegemony and furthers these by looking at how the often fragmented society of post Communist Russia can provide insight into the nature and workings of neo liberal global hegemony The volume illustrates how historically Russia has been a unique case in rejecting Western inspired hegemonic projects It outlines how successive governments since the fall of the Soviet Union have attempted often unsuccessfully to integrate Russia into the global economy and identifies the multitude of ideological contestation within Russia It will prove a useful addition to the literature on both post Communist Russian studies and international political economy

[The Political Economy of Post-Soviet Russia](#) V. Tikhomirov, 2000-05-15 This book deals with general political and economic developments that took place in Russia since the collapse of the Soviet Union The major aim of the book is to analyse successes and failures of Russian reform attempts as well as their effect on the development of Russian regions particularly from the point of view of interrelation between socio economic tendencies and political developments Analysis concentrates on both national dynamics and dynamics of development in three main groups of regions mining agricultural and manufacturing

Russia's Market Economy Stefan Hedlund, 2002-11-01 Russia s Market Economy is a seminal account of Russia s transition to the market its tortuous development as a fledgling market economy through the 1990s right through to its spectacular collapse in August 1998 Rather than beginning with the economic collapse the book traces the historical mismanagement of Russian wealth through to the Soviet command economy

and on to Gorbachev Stefan Hedlund finally discusses what lessons should be learned from the damage inflicted on the Russian economy as well as its social legal and political infrastructure by the race of reform

The Political Economy of Russia Neil Robinson, 2012-07-13 This timely book explores Russia's political development since the collapse of the USSR and how inextricably it has been bound up with economic change Tracing the evolution of Russia's political economy leading scholars consider how it may continue to develop going forward They assess the historical legacies of the Soviet period showing how despite policies implemented after the USSR dissolved in 1991 there are ongoing bitter battles over property and state revenues over land and over welfare The book puts these domestic issues in international and comparative perspective by considering Russia's position in the global economy and its growing role as a major energy producer Focusing especially on the nature and future of Russian capitalism the contributors weigh the political problems that confront Russia in its ongoing struggle to modernize and develop its economy Contributions by Andrew Barnes Paul T Christensen Linda J Cook Gerald M Easter Neil Robinson Richard Sakwa and Stephen K Wegren

The International Economic Crisis and the Post-Soviet States Valentina Feklyunina, Stephen White, 2014-06-11 At first it seemed as if the international financial crisis that broke out in 2008 would have little effect in Russia and the other post Soviet states But by the end of the year growth was slowing banks were reluctant to lend share values had collapsed and unemployment was rising inexorably The stability of the Putin leadership it appeared had been built on the turnaround in economic performance that it had managed to achieve over more than a decade How would it cope with a sudden reversal In Ukraine living standards fell even more sharply In Belarus there were fewer obvious signs of economic difficulty but it could hardly be unaffected by the performance of its major trading partners Drawing on a wide range of evidence an international group of scholars address the impact of the international financial crisis in the post Soviet states and the continuing implications of the crisis for these countries themselves and for the wider world This book was published as a special issue of the Journal of Communist Studies and Transition Politics now known as East European Politics

Small-Town Russia Anne White,2004-08-12 This book examines a number of key questions about social change in contemporary Russia issues such as how people survive when they are not paid for months on end the New Poor the falling birth rate why so many Russian men die in middle age whether regional identities are becoming stronger and how people s sense of Russianness has developed since the creation of the Russian Federation in 1992 It examines these issues by looking at actual experiences in three small Russian towns It includes a great deal of original ethnographic research and by looking at real places overall provides a good sense of how different aspects of social change are interlinked and how they actually affect real people s lives

Culture, Political Economy and Civilisation in a Multipolar World Order Ray Silvius,2016-10-04 This book seeks to understand how Russia s multifaceted rejection of American unipolarity and de territorialised neo liberal capitalism has contributed to the gestation of the present multipolar moment in the global political economy Analysing Western world order precepts via the actions of a powerful albeit precarious national political economy and state structure situated on the periphery of Western world order Silvius explores the manner in which culture and ideas are mobilised for the purposes of national regional and

Economic and Political Reforms in Russia, 1985-2000 Vladimir Gel'man,Dmitry Travin,Otar Marganiya,2014-06-25

Reexamining Economic and Political Reforms in Russia 1985 2000 Generations Ideas and Changes analyzes the impact of generational changes and ideational changes on major political and economic reforms conducted in Russia during the late twentieth century This book examines how the policy agenda was shaped by the ideas of the generations representatives for the sixtiers and seventiers Representatives of the generation of sixtiers conducted reforms from 1985 to 1991 and invested major efforts in political liberalization but did not pay enough attention to economic reforms On the other hand the reformers from the generation of seventiers who were in charge of policy making from 1991 to 1998 were genuinely oriented toward market building but rather insensitive to the democratization of the political regime This book explores how these differences in ideational agendas produced inconsistent and controversial outcomes from both stages of reforms **Reforging the**
