Prehistory of the Rustler Hills Donny L. Hamilton, 2010-07-05 The Northeastern Trans Pecos region of Texas is an unforgiving environment for anyone living off the land yet nomadic hunters and gatherers roamed its deserts and mountains and sheltered in caves and sinkholes from around AD 200 to 1450 This book provides detailed insights into the lifeways of these little known prehistoric peoples It places their occupation of the region in a wider temporal and cultural framework through a comprehensive description and analysis of the archaeological remains excavated by Donny L Hamilton at Granado Cave in 1978 Hamilton begins with a brief overview of the geology and environment of the Granado Cave area and reviews previous archaeological investigations Then he and other researchers present detailed analyses of the burials and other material remains found in the cave as well as the results of radiocarbon dating From these findings he reconstructs the subsistence patterns and burial practices of these Native Americans whom he identifies as a distinct group that was pushed into the environment by surrounding peoples He proposes that they should be represented by a new archaeological phase thus helping to clarify the poorly understood late prehistory of the Trans Pecos *Richard Coke: Texan* Rosser Newton, 2024-10-18 Richard Coke played one of the most crucial roles in Texas history His leadership of his beloved Texas still resonates today 150 years after he became governor Richard Coke Texan weaves a rich mosaic of real people and events
