The textbook puts together ideas relating to crime, crime prevention and criminal psychology as it occurs in the Singaporean context. While leveraging on psychology as an anchor, the book adopts a multidisciplinary perspective and examines the forensic sciences, legal issues and the investigative perspectives of crimes. The chapters cover criminal justice agencies in Singapore, theories of crime, deception and lying, behaviors, sex crimes, violent crimes, crime prevention, terrorism and psychology applied in legal settings. Each chapter contains case studies of actual cases and ends with questions for discussion and research, making this a valuable text for courses in university and in law enforcement settings. Comparative and International Criminal Justice Systems Obi N. I. Ebbe, 2013-05-13 Comparative and International Criminal Justice Systems: Policing, Judiciary and Corrections, Third Edition examines the history, dynamics, structure, organization and processes in the criminal justice systems in a number of selected countries. Designed for courses in comparative criminal justice systems, comparative criminology and international criminal law, it explores systems in the United States, Ireland, Israel, Argentina, Sierra Leone, China, Russia and Poland. A descriptive and quantitative analysis of criminal justice processes, this text goes beyond a mere analysis of individual systems. Instead, the book compares these criminal justice models with each other and contrasts them with United Nations conventions, World Courts of Justice, International Court of Justice, International Military Tribunal, International Criminal Tribunal, International Criminal Court. Understanding these comparisons is crucial for a proper grasp of transnational crimes. The book shows how the national criminal justice systems and the United Nations judicial systems complement each other when adjudicating transnational crimes in the international community. It analyzes the nature of crime and criminal law, explores basic theories of crime and discusses the various sources of international law. It also examines the inherent pitfalls in comparing international crime rates and discusses terrorism and its control. Unique to this edition is a thorough, unbiased study of the Islamic justice system. Each chapter focuses on a select region and includes crime data and arrest, prosecution and conviction rates where appropriate. This allows readers looking for information on the criminal justice systems of any part of the world to easily find the relevant section. A sound approach to understanding the laws of various nations and international criminal and humanitarian laws, this volume provides sage insight into the sociological explanations of criminal law and crime.
