media and genres on which it is brought to bear as its efficacy depends on the recipient's generic expectations omission is frequently characterized by a high degree of meta discursiveness This volume investigates the various strategies with which the phenomenon of omission is employed across a range of textual forms and in different cultures to conclusively argue for its status as a highly effective and near universal form of artistic signification     *National Union Catalog* ,1980     *The Publishers' Trade List Annual* ,1979     **Sir Philip Sidney** Donald V.
