**Middle Class Shanghai** Cheng Li, 2021-05-11 The United States may be headed toward a disastrous conflict with China unless Washington updates its understanding of contemporary Chinese society After four decades of engagement the United States and China now appear to be locked on a collision course that has already fomented a trade war seems likely to produce a new cold war and could even result in dangerous military conflict The current deterioration of the bilateral relationship is the culmination of years of disputes disillusionment disappointment and distrust between the two countries Washington has legitimate concerns about Beijing s excessive domestic political control and aggressive foreign policy stances just as Chinese leaders believe the United States still has futile designs on blocking their country s inevitable rise to great power status Cheng Li s Middle Class Shanghai argues that American policymakers must not lose sight of the expansive dynamism and diversity in present day China The caricature of the PRC as a monolithic Communist apparatus set on exporting its ideology and development model is simplistic and misguided Drawing on empirical research in the realms of higher education avant garde art architecture and law this unique study highlights the strong constructive impact of bilateral exchanges Combining eclectic human stories with striking new data analysis this book addresses the possibility that the development of China s class structure and cosmopolitan culture exemplified and led by Shanghai could provide a force for reshaping U S China engagement Both countries should build upon the deep cultural and educational exchanges that have bound them together for decades The author concludes that U S policymakers should neither underestimate the role and strength of the Chinese middle class nor ostracize or alienate this force with policies that push it toward jingoistic nationalism to the detriment of both countries and the global community With its unique focus this book will enlighten policymakers scholars business leaders and anyone interested in China and its increasingly fraught relations with the United

Anderson,1991-11-04 Anderson charts the construction of Chinatown in the minds and streets of the white community of Vancouver over a hundred year period She shows that Chinatown from the negative stereotyping of the late nineteenth and early twentieth centuries to its current

status as an ethnic neighbourhood has been stamped by changing European ideologies of race and the hegemonic policies those ideas have shaped. The very existence of the district is the result of a regime of cultural domination that continues to exist today. Anderson clearly rejects the concept of race as a means of distinguishing between groups of human beings. She points out that because the implicit acceptance of public beliefs about race affects the types of questions asked by researchers, the issue of the ontological status of race is as critical for commentators on society as it is for scientists studying human variation. Anderson applies this fresh approach toward the concept of race to a critical examination of popular media and academic treatments of the Chinatown in Vancouver.

*Yi Fao* Jim Wolf, Patricia Owen, 2008 This is the fascinating and complex story of the Chinese Canadian community in New Westminster British Columbia told in text and photographs that relate a range of individual experiences and stories. Yi Fao is the city's Chinese name; it means second port, a reference to New West's place as the second port of entry to British Columbia after Victoria. The book documents the history of Yi Fao and preserves and celebrates the voices and personalities of the Chinese immigrants who contributed so much to the city's development, focusing on four key families of settlers: Law, Lee, Quan, and Shiu. In each family's story, children, siblings, grandchildren, grandparents, and in-laws recount their memories of life in New Westminster. While the historical narrative helps place the stories in a broader context, the personal reminiscences offer a history not just of facts and dates but of personal experiences and emotions. This intimate glimpse into daily life and the city's old Chinatown is compelling and poignant, revealing a story of struggle, adventure, and achievement.

*Saltwater City* Paul Yee, 2009-12-01 Saltwater City pays tribute to those who went through the hard times, to those who swallowed their pride, to those who were powerless and humiliated but who still carried on. They all had faith that things would be better for future generations. They have been proven correct. Canada's first Chinese arrived in British Columbia in 1858 from California. Almost all were merchants, peasants, and laborers, and almost all from eight rural counties in the Pearl River delta in what is now Guangdong province. They came in search of gold and better fortune, escaping the rebellions, flood, and drought of their homeland. By 1863, over 4,000 Chinese lived in B.C., filling jobs shunned by whites: miners, road builders, teamsters, laundry men, restaurateurs, domestic servants, and cannery workers. Between 1881 and 1885, thousands more arrived, most imported to build the transcontinental railway. They were to create in Vancouver Canada's largest and most dynamic Chinese Community, known to its original inhabitants as Saltwater City.
