with friends or at church it is reasonable that workers will have spiritual demands as well as economic needs from their work lives Unfortunately this is a task managers are not prepared to meet Real Leadership How Spiritual Values Give Leadership Meaning argues that values based i e spiritual leadership is the only way to do leadership in today s globalized multi differentiated world The author traces the development of real leadership through five generations of theory then builds a strong case for the values leadership strategy because of its ability to unify workers and because it allows them to find personal meaning in the workplace task at hand
