Superintendent of Documents,1968 **Family Group Conferencing** Gale Burford,Joe Hudson, Family Group Conferencing indicates a large scale shift in assumptions about the way child welfare services are planned and delivered away from models that emphasize pathology and toward those seeking an ecological understanding of the families and social networks involved The contributors also present a wealth of information on related approaches such as community conferences circles and wraparound services The British Journal of Social Work noted that there are issues relating to both process and outcome This
