Sharing And Helping:

Sharing ,1981 **Intergroup Helping** Esther van Leeuwen,Hanna Zagefka,2017-05-17 The aim of this volume is to provide an overview of research from different psychological domains with regards to intergroup helping arguing for intergroup helping as a research area in and of itself Historically research on intergroup relations has largely overlooked helping between groups which combined with the fact that most of the research on altruism and helping has focused on individuals meant that intergroup helping was primarily looked at as deriving from negative intergroup interactions such as ingroup bias or discrimination However over the last decade a small but growing group of researchers started to investigate intergroup helping as a positive social act occurring between and amongst groups With contributions from these expert researchers this volume makes the case that intergroup helping should be studied as a phenomenon in and of itself not as a mere expression of negative intergroup behaviour To advance this argument the first section covers traditional research approaches in which the willingness to help other groups is construed as a form of discrimination Then the second section looks at the reasons why people may be motivated to help other groups Finally the last section explores intergroup helping in real world settings looking at natural disaster responses and the role of morality among other topics demonstrating that intergroup relations can be truly positive Thus *Intergroup Helping The Positive Side of Intergroup Behavior* informs researchers in positive and group relations psychology about the current state of affairs of research on intergroup cooperation and helping and sets out an agenda for further exploration Tapping into a current trend towards positive psychology it moves away from the traditional view within intergroup relations research of the group as a source of trouble and instead focuses on truly positive intergroup relations with the ultimate goal of promoting real positive behaviour that breaches the intergroup divide *Sugar and Spice, and Everything Nice: Exploring Prosocial Development Through Infancy and Early Childhood* Chris Moore, Markus Paulus,Amanda Williams,2015-05-18 Prosocial behaviors such as sharing helping and comforting begin to emerge early in development The presence of these prosocial behaviors is important not only in childhood but throughout one s lifetime as behaving prosocially is important for social functioning and maintaining social relationships For many years researchers have been interested in how and when these behaviors develop as well as how these behaviors are influenced by a variety of factors Recently however exciting new research has shown novel and surprising findings particularly on the early development and ontogenetic origins of prosocial behavior Research in this area is important as by understanding what influences prosocial behavior we may be better able to sustain and support the development of prosociality Further a richer understanding may help us to be better able to mediate factors that impede or negatively influence positive social behaviors as well as negate triggers that may lead to negative social behaviors Many theoretical views guide different streams of developmental research in this field Here we will bring together scholars from various theoretical backgrounds to collectively explore the development of early prosocial behaviors from early infancy to

early school aged children Contributors will offer insights using a variety of methodologies from various resource allocation paradigms derived from economist game theorists to looking time paradigms and more Together we seek to broadly explore questions pertaining to prosocial development for example at what age do prosocial behaviors moral understanding or social selectivity emerge Contributors will individually address unique research questions across a spectrum of topics For example how prosocial behaviors are influenced by underlying mechanisms such as moral emotions e g guilt and sympathy will be explored as will how children s expectations may shape their behaviors and how they come to care about others Questions surrounding different contexts will also be investigated For example how does empathy influence prosociality Do children treat partners differently depending on their past behaviors wealth or other characteristics Does whether there is a cost associated with behaving prosocially influence decision making By incorporating the work of numerous researchers in the field of prosocial development who contribute comprehensive reviews of past research unique theoretical perspectives and empirical approaches the proposed research topic endeavors to provide new insights into a breadth of prosocial behaviors In sum the proposed research topic will contribute to our understanding of prosocial development in the early years by highlighting the relevant factors and contexts under which prosocial behavior emerges

Sharing Experience, Strength & Hope (SESH) Nar-Anon Family Groups,2009-06-09 Nar Anon members share their experience strength and hope in writing This daily reader carries the message of Nar Anon recovery to those who suffer the effects of another s addiction The Nar Anon Family Groups are a worldwide fellowship for those affected by someone else s addiction As a Twelve Step Program we offer our help by sharing our experience strength and hope

Behavior Genetics of Temperament and Personality Kimberly J. Saudino,Jody M. Ganiban,2021-03-17 This volume examines behavioral genetic research on temperament and personality from a number of perspectives It takes a developmental perspective on a number of issues across the lifespan focusing on personality and temperament The first section focuses on the development of temperament and personality Typically this has involved exploring genetic and environmental contributions to phenotypic stability and instability but more recently there has been research that examines the etiology of intra individual change growth trajectories The second section examines genetic and environmental contributions to the association between temperament and personality and other behaviors The third and fourth sections discuss genotype environment correlations and interactions and introduces the reader to molecular genetics research on temperament and personality Chapter 11 will discuss the significance of this type of research and Chapter 12 will provide an example of specific line of research exploring genes associated with temperament

Food Saving and Sharing United States Food Administration,Eva March Tappan,1918 *Successful Group Care* Martin Wolins,2017-07-12 Edited by one of the leading authorities in international child care this sourcebook provides valuable insights from international experiments in group child care The selections written by distinguished international child care experts explore a broad range of successful group care settings in Austria Great Britain Israel Mexico Poland the Soviet

Union the United States and Yugoslavia Much of the material was previously unknown to American professionals at the time of the original publication who for the most part held group care in disrepute Today there is a growing interest in group programs for children of various ages and in settings ranging from day care programs to institutions and schools of various types Successful Group Care is divided into six major parts The first of which is a general review of successful group care drawing upon material that appears later in the book Subsequent sections present historical and philosophical issues in group care including boarding schools in the former Soviet Union and the Israeli Kibbutz Research studies analyzing the negative and positive effects of group care for young children and several teenage group environments are discussed particularly with regard to their peer effect on values and moral character The project also deals with group care of disturbed children The book ends with the most complete bibliography on the subject including some of the most significant works in Polish Russian German and Hebrew This book will be invaluable to all those interested in and involved in group child care social workers particularly in child welfare developmental child psychologists early childhood educators child psychiatrists family sociologists child care workers day care personnel and students in social work courses in childhood and adolescence early childhood education developmental psychology and in training courses for day care personnel and child care work

All Learning Is Social and Emotional Nancy Frey,Douglas Fisher,Dominique Smith,2019-01-17 While social and emotional learning SEL is most familiar as compartmentalized programs separate from academics the truth is all learning is social and emotional What teachers say the values we express the materials and activities we choose and the skills we prioritize all influence how students think see themselves and interact with content and with others If you teach kids rather than standards and if you want all kids to get what they need to thrive Nancy Frey Douglas Fisher and Dominique Smith offer a solution a comprehensive five part model of SEL that s easy to integrate into everyday content instruction no matter what subject or grade level you teach You ll learn the hows and whys of Building students sense of identity and confidence in their ability to learn overcome challenge and influence the world around them Helping students identify describe and regulate their emotional responses Promoting the cognitive regulation skills critical to decision making and problem solving Fostering students social skills including teamwork and sharing and their ability to establish and repair relationships Equipping students to becoming informed and involved citizens Along with a toolbox of strategies for addressing 33 essential competencies you ll find real life examples highlighting the many opportunities for social and emotional learning within the K 12 academic curriculum Children s social and emotional development is too important to be an add on or an afterthought too important to be left to chance Use this books integrated SEL approach to help your students build essential skills that will serve them in the classroom and throughout their lives

Counseling the Nursing Mother Judith Lauwers,Anna Swisher,2015-07-13 Written from a teaching perspective Counseling the Nursing Mother A Lactation Consultant s Guide Sixth Edition presents topics within a counseling framework with practical suggestions and evidence

based information interwoven throughout Completely updated and revised it includes new research on milk composition the importance of the gut microbiome and skin to skin care Affordable Care Act changes and the latest guidelines from the World Health Organization for breastfeeding with HIV Also explored and expanded are discussions on cultural competence working effectively and sensitively with LGBTQ families addressing disparities in health equity milk banking issues and social media trends for lactation information and support Additionally the Sixth Edition also serves as a significant teaching tool for students interns and other healthcare professionals Important Notice The digital edition of this book is missing some of the images or content found in the physical edition *Doctor Josephine: a Love Story of Profit-sharing* Willis Barnes,1901

Elizabeth C. Manvell,2012-01-31 We expect schools to be a safe haven but after more than a decade of targeted school violence prevention laws and safety plans students are still marginalized and bullied to the point of despondence retaliation and even suicide This thoughtful exploration of what makes a school a safe place is based on the understanding that violence is a continuum of acts and attitudes subtle to overt that have a negative effect on how students feel and learn A school s climate how it feels to be a member of the learning community depends on how each student is treated We are challenged to recognize the often overlooked yet pervasive forms of emotional and physical violence that students face every day After conducting an honest assessment of our own school s climate we learn how to nurture supportive relationships between students and adults and embed pro social skills and respect for diversity in everything we do When done we are equipped with the understandings tools and commitment necessary to create a safe positive school climate that is systemic and lasting
