**The Oxford Handbook of Health Care Management** Ewan Ferlie, Kathleen Montgomery, Anne Reff Pedersen, 2016-04-07. This Handbook provides an authoritative overview of current issues and debates in the field of health care management. It contains over twenty chapters from well-known and eminent academic authors who were carefully selected for their expertise and asked to provide a broad and critical overview of developments in their particular topic area. The development of an international perspective and body of knowledge is a key feature of the book. The Handbook secondly makes a case for bringing back a social science perspective into the study of the field of health care management. It therefore contains a number of contrasting and theoretically orientated chapters, e.g. on institutionalism, critical management studies. This social science-based approach is a refreshing alternative to much existing work in this domain and offers a good way into current academic debates in this field. The Handbook thirdly explores a variety of important policy and organizational developments apparent within the current health care field, e.g. new organizational forms, growth of management consulting in health care organizations. It therefore explores and comments on major contemporary trends apparent in the practice field.

Co-Leadership in the Arts and Culture Wendy Reid, Hilde Fjellvæ, 2022-12-26. This book is about co-leadership. A leadership practice and structure often found in arts organizations that consist of two or three executives who bridge the art and business divide at the top. Many practitioners recognize this phenomenon but the research on this topic is limited and dispersed. This book assembles a coherent overview and presents new insights of the field. While co-leadership is well institutionalized in the West, it is also criticized for management's constraint of artistic autonomy and for its pluralism that dilutes leadership clarity. However, co-leadership also personifies the strategic objectives of art audiences, organization and community by addressing plural logics navigating the demands of artistic vision and organizational stability. It is an

integrating solution The authors investigate its specifics in the arts including global practice and its interdisciplinary nature The theoretical frame of plural leadership supports their empirical explorations of the dynamics within the co leadership relationship and with organizational stakeholders Data includes the voices of co leaders artists staff and board members from arts organizations in Canada and Norway Their abductive reflection generates a stimulating research experience By viewing co leadership in action not as a study of static theories the book will appeal not only to students and researchers but also resonate with practitioners in arts and cultural management and assist them to work with co leadership and to manage its tensions Chapters 1 and 4 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
