Sharing The Children:

Sharing Child Care in Early Parenthood Malcolm Hill, 2023-02-13 Originally published in 1987 Malcolm Hill examines the different ways in which parents share responsibility for looking after their pre school children with other people whether members of their social networks formal groups or paid carers He also looks at the reasons parents give for choosing and changing their particular arrangements In this way he provides insights into a range of ideas which ordinary members of the public have about children s needs the rights and responsibilities of mothers and fathers and how children think and feel Marked differences are described in the social relationships of families and in notions about who is acceptable as a substitute carer for children in what circumstances and for what purpose Several of these contrasts are linked to attitudes and life conditions which are affected by social class The book identifies possible consequences for individual children s social adaptability resulting from these patterns of care It suggests that people working with the under fives could profit from adapting their activities and services to children s previous experiences of shared care and families differing expectations about groups for children

Fostering Children's Faith Jeanne Hall, 2012-03-29 Fostering faith in children is a shared privilege and responsibility of parents godparents and the church community We promise our children at baptism that we will support them in their faith formation in the formation of their relationship with God We need to take this promise seriously This book is intended to be an accessible and helpful resource for parents and other adults who seek to foster children s faith This book succinctly explores many ways we can support children s faith formation including our day to day interactions with children the images of God we share with them how we pray together the rituals we create service opportunities we provide music we share together the stories we tell and listen to our celebration of the sacraments and more While this book has a distinctly Roman Catholic orientation much of the content will be relevant for a wider Christian audience Lastly but perhaps most importantly this book is rooted in the conviction that the God we seek relationship with and that we hope to foster our children s relationship with is one who is infinitely loving welcoming and always yearning for deeper connection with us

Reasonable Children Michael S. Pritchard, 1996 The public outcry for a return to moral education in our schools has raised more dust than it s dispelled Building upon his provocative ideas in *On Becoming Responsible* Michael Pritchard clears the air with a sensible plan for promoting our children s moral education through the teaching of reasonableness Pritchard contends that children have a definite but frequently untapped capacity for reasonableness and that schools in a democratic society must make the nurturing of that capacity one of their primary aims as fundamental to learning as the development of reading writing and math skills Reasonableness itself he shows can be best cultivated through the practice of philosophical inquiry within a classroom community In such an environment children learn to work together to listen to one another to build on one another s ideas to probe assumptions and different perspectives and

ultimately to think for themselves Advocating approaches to moral education that avoid mindless indoctrination and timid relativism Pritchard neither preaches nor hides behind abstractions He makes liberal use of actual classroom dialogues to illustrate children s remarkable capacity to engage in reasonable conversation about moral concepts involving fairness cheating loyalty truth-telling lying making and keeping promises obedience character and responsibility He also links such discussions to fundamental concerns over law and moral authority the roles of teachers and parents and the relationship between church and state Pritchard draws broadly and deeply from the fields of philosophy and psychology as well as from his own extensive personal experience working with children and teachers The result is a rich and insightful work that provides real hope for the future of our children and their moral education [The Joy of Children's Literature](#) Denise

The Secret of Toddler Sharing Elizabeth Crary, 2013-09 Offering parents realistic expectations about toddler behavior this guide provides detailed how to advice for teaching kids to share and for intervening when toddlers have difficulty sharing It reviews children s temperament and development and the roles they play in the willingness to share while also explaining how to handle the child who never complains about giving up a possession Relating personal experiences as real life examples of the teaching process this parenting reference includes scenarios and suggests dialogs to use Three factors that encourage children to share are introduced along with five strategies that specify how to teach sharing Whether sharing issues come up with toddlers on play dates or in public places parents will be armed with the knowledge of how to handle and teach their child

Mirror Neuron Systems Jaime A. Pineda, 2009-03-01 The aim of this book is to bring together social scientists cognitive scientists psychologists neuroscientists neuropsychologists and others to promote a dialogue about the variety of processes involved in social cognition as well as the relevance of mirroring neural systems to those processes

Social cognition is a broad discipline that encompasses many issues not yet adequately addressed by neurobiologists Yet it is a strong belief that framing these issues in terms of the neural basis of social cognition especially within an evolutionary perspective can be a very fruitful strategy This book includes some of the leading thinkers in the nascent field of mirroring processes and reflects the authors attempts to till common ground from a variety of perspectives The book raises contrary views and addresses some of the most vexing yet core questions in the field providing the basis for extended discussion among interested readers and laying down guidelines for future research It has been argued that interaction with members of one s own social group enhances cognitive development in primates and especially humans Barrett Henzi 2005 Byrne and Whiten 1988 Donald 1991 and others have speculated that abilities such as cooperation deception and imitation led to increasingly complex social interactions among primates resulting in a tremendous expansion of the cerebral cortex The evolutionary significance of an imitation capability in primates is matched by its ontological consequences **Narratives in**

Early Childhood Education Susanne Garvis,Niklas Pramling,2017-05-08 Over the past few decades a growing body of literature has developed which examines children s perspectives of their own lives viewing them as social actors and experts in their understanding of the world Focusing specifically on narratives this unique and timely book provides an analysis of these new directions in contemporary research approaches to explore the lived experiences of children and teachers in early childhood education in addition to presenting original research on children s narratives The book brings together a variety of well regarded international researchers in the field to highlight the importance of narrative in young children s development from local and global perspectives While narrative is clearly understood within different countries this is one of the first texts to build an international understanding acknowledging the importance of culture and context It presents up to date research on the latest research methods and analysis techniques using a variety of different approaches in order to critically reflect on the future for narrative research and its insights into early childhood education Narratives in Early Childhood Education will be of interest to postgraduate students academics and researchers in early childhood education as well as early childhood professionals government policy makers and early childhood organisations and associations [Handbook of Race, Racism,](#)
