The Impact of Shared Vision on Leadership, Engagement, and Organizational Citizenship Richard Eleftherios Boyatzis, Kylie Rochford, Scott N. Taylor, 2015-10-28 According to management and psychology courses as well as legions of consultants in organizational psychology shared vision in dyads teams and organizations can fill us with hope and

inspire new possibilities or delude us into following false prophets However few research studies have empirically examined the impact of shared vision on key organizational outcomes such as leadership effectiveness employee engagement organizational citizenship coaching and organizational change As a result the field of organizational psychology has not yet established a causal pattern of whether if and how shared vision helps dyads teams and organizations function more effectively The lack of empirical work around shared vision is surprising given its long standing history in the literature Bennis and Nanus 1982 showed that distinctive leaders managed attention through vision The practitioner literature has long proclaimed that vision is a key to change while Conger and Kanungo 1998 discussed its link to charismatic leadership Around the same time positive psychology appeared in the forms of Appreciative Inquiry Cooperrider Sorensen Whitney Yaeger 2000 and Positive Organizational Scholarship Cameron Dutton Quinn 2003 In this context a shared vision or dream became a legitimate antecedent to sustainable change But again empirical measurement has been elusive More recently shared vision has been the focus of a number of dissertations and quantitative studies building on Intentional Change Theory ICT Boyatzis 2008 at dyad team and organization levels of social systems These studies are beginning to lay the foundations for a systematic body of empirical knowledge about the role of shared vision in an organizational context For example we now know that shared vision can activate neural networks that arouse endocrine systems and allow a person to consider the possibilities of a better future Jack Boyatzis Leckie Passarelli Khawaja 2013 Additionally Boyatzis Akrivou 2006 have discussed the role of a shared vision as the result of a well developed set of factors that produce a desired image of the future Outside of the organizational context positive visioning has been known to help guide future behavior in sports psychology Loehr Schwartz 2003 medical treatment Roffe Schmidt Ernst 2005 musical performance Meister Krings Foltys Borojerdi Muller Topper Thron 2004 and academic performance Curry Snyder Cook Ruby Rehm 1997 This Research Topic for Frontiers in Psychology is a collection of 14 original papers examining the role of vision and shared vision on a wide variety of desired dependent variables from leadership effectiveness and executive performance to organizational engagement citizenship and corporate social responsibility and how to develop it through coaching

Spiritual Leadership Bill Vincent, 2023-03-31 What makes one a great leader Is it being charismatic confident and having high emotional intelligence Is it being able to reach out to people you lead as well as transform their lives Is it being able to delegate functions effectively While all the above are some aspects that make someone a great leader when it comes to spiritual leadership being a leader is much more than just being charismatic and being able to influence and transform Furthermore with the world becoming wicked as leaders we may feel that we need to change the standards of God to conform to what is around us The truth is that the word of God never changes and as Christians if we want to live a holy life that is pleasing to God we need to remain true to his word Furthermore as a leader in the church you don't take your examples from worldly leaders but rather from the great example of Jesus Christ How then do you lead as Christ led This book Spiritual Leadership will teach you how to be a great leader and above all an amazing Christian by following some basic foundational principles Here is what you will learn Why you need to arm yourself with the word of God and be ready to suffer and be obedient even in the suffering The importance of humility as a Christian leader How to embrace humility How as a Christian you are to provide solutions to the people in need around you An understanding of how church leaders are at greater risk To understand that the devil will try to destroy a ministry from inside and what you need to do to deal with this The need to focus on building the community and not just the Church How and why having a vision is important in leadership How we need to seek the father in spirit and in truth The importance of co operation and collaboration with the Holy spirit and those in leadership Some hindrances that may prevent us from moving in the fullness of a prophetic ministry How to remove torment from ministry And so much more The book breaks down the seemingly complex topic using beginner friendly language to help you to start applying what you learn right away
