Sharing Grandmas Gift:

Grandma's Gift Eric Velasquez, 2013-10-08 This prequel to Eric Velasquez's biographical picture book *Grandma's Records* is the story of a Christmas holiday that young Eric spends with his grandmother. After they prepare their traditional Puerto Rican Christmas celebration, Eric and Grandma visit the Metropolitan Museum of Art for a school project where he sees a painting by Diego Velasquez and realizes for the first time that he could be an artist when he grows up. Grandma witnesses his fascination and presents Eric with the perfect Christmas gift: a set of paints to use in his first steps toward becoming an artist. A heartwarming story of self-discovery, *Grandma's Gift* is a celebration of the special bond between a grandparent and grandchild.

Sharing Grandma's Gift Shelley Berlin Parrish, 2000 A young girl and her mother remember Grandma as they work together on a quilt.

Fair Share Isaac Elishakoff, 2024-05-03 Kofi Annan, former Secretary General of the United Nations, argued that "We need to create a world that is equitable, that is stable, and a world where we bear in mind the needs of others and not only what we need immediately. We are all in the same boat." American businessman John Landgraf stated, "I hope that most of us believe that we actually would all benefit from living in a more equitable society. If that's not happening, we're squandering human potential. For the world to be fair, one needs to know how to divide. Without the mathematics of division, humankind cannot function." Marie Antoinette, Queen of France, famously said, "If people have no bread, let them eat cake," and while Ahmes, the scribe of the Rhind Mathematical Papyrus, dealt with loaves of bread, prosperous people in the twentieth century dealt with cake division, although bread is also uniformly available. You'll be surprised but there are at least four books and over 200 scientific and gastronomic papers on cake division. Those authors were not overly concerned with obesity; one can guess, but whether distributing loaves, cakes, chores, or dividends, one needs to master division. This book deals with a wide spectrum of division problems and provides the historical background, giving a sense of how pervasive division is in our lives. In particular, the second part focuses on a problem that remained open until 1985 when Professor Robert John Aumann, Nobel laureate in Economics (2005), and Professor Michael Maschler solved it using game-theoretic techniques. Simple alternative solutions are given, which are suitable for high schools and other educational institutions.

Grandmother's Gift Bob Hawkes, 2004-04 Eddie is the recipient of a gift handed down through the ages in his family. Though this gift is usually handed from grandmother to granddaughter, it once again has fallen into the hands of a grandson. The gift is as precious as the family it is handed down through. It is an essential part of grandmother's life. She needs to school Eddie in not only the power of the gift but also the need to help others when called upon. It is all a part of the gift. Eddie must learn and control. Edith, the grandmother, needs to not only educate her grandson on the powers of the gift but also needs to continue assisting her friends with her own form of it. Friends she has been with for years. They are dependent on her and her ability to use the gift in assisting them. She will not let them down. Her enlisting Eddie to assist her in satisfying the needs of her friends is the tale that unfolds. It is the two of these wonderful people assisting those needing

their help that leads to understanding the importance of such a gift and the need to use it in its most precious form There have always been those with these abilities among us Through these two it is hoped you gain some understanding and the need we have for them to continue their work
