Violations of State Department Regulations and Pro-Castro Propaganda Activities in the United States United States. Congress. House. Committee on Un-American Activities, 1963      **Bernard Shaw's Marriages and Misalliances** Robert A. Gaines, 2017-10-25 This book combines the insights of thirteen Shavian scholars as they examine the themes of marriage relationships and partnerships throughout all of Bernard Shaw's major works. It also connects Shaw's own experiences of love and marriage to the themes that emerge in his works showing how his personal relationships in and out of matrimonial bonds change the ways his characters enter and exit marriages and misalliances. While providing a wealth of new analysis, this collection of essays also leaves lingering questions for the reader to spark continuing dialogue in both individual and academic settings.

**Bernard Shaw's Bridges to Chinese Culture** Kay Li, 2016-11-10 This book explores the cultural bridges connecting George Bernard Shaw and his contemporaries such as Charles Dickens and Arthur Miller to China. Analyzing readings, adaptations, and connections of Shaw in China through the lens of Chinese culture, Li details the negotiations between the focused and culturally specific standpoints of eastern and western culture while also investigating the simultaneously diffused, multi-focal, and comprehensive perspectives that create strategic moments that favor cross-cultural readings. With sources ranging from Shaw's connections with his contemporaries in China to contemporary Chinese films and interpretations of Shaw in the digital space, Li relates the global impact of not only what Chinese lenses can reveal about

Shaw's world but how intercultural and interdisciplinary readings can shed new light on familiar and obscure works alike

**Annual Report for the Year ...** United States. Congress. House. Committee on Un-American Activities, 1964      **The Practices of Global Citizenship** Hans Schattle, 2008 What is global citizenship exactly Are we all global citizens In *The Practices of Global Citizenship* Hans Schattle provides a striking account of how global citizenship is taking on much greater significance in everyday life This lively book includes many fascinating conversations with global citizens all around the world Their personal stories and reflections illustrate how global citizenship relates to important concepts such as awareness responsibility participation cross cultural empathy international mobility and achievement Now more than ever global citizenship is being put into practice by schools universities corporations community organizations and government institutions This book is a must read for everyone who participates in global events all of us      **Stalin on Linguistics and Other Essays** P. Gray, 2002-05-21 Piers Gray was one of the most brilliant literary writers of his generation These essays ranging from Oscar Wilde to Levin from Shakespeare to pulp fiction use the full resources of literary and linguistic analysis to produce a reading of European culture and society in the twentieth century In his final posthumous essay *On Linearity* Gray summons all his reading and knowledge to deliver his final judgement on life and death      **Teaching International Relations** Scott, James M., Carter, Ralph G., Jolliff Scott, Brandy, Lantis, Jeffrey S., 2021-08-27 This comprehensive guide captures important trends in international relations IR pedagogy paying particular attention to innovations in active learning and student engagement for the contemporary International Relations IR classroom      *Allen's Indian Mail and Register of Intelligence for British & Foreign India, China, & All Parts of the East*, 1857      **Translation Translation**, 2021-07-26 Translation Translation contributes to current debate on the question of translation dealt with in an interdisciplinary perspective with implications not only of a theoretical order but also of the didactic and the practical orders In the context of globalization the question of translation is fundamental for education and responds to new community needs with reference to Europe and more extensively to the international world In its most obvious sense translation concerns verbal texts and their relations among different languages However to remain within the sphere of verbal signs languages consist of a plurality of different languages that also relate to each other through translation processes Moreover translation occurs between verbal languages and nonverbal languages and among nonverbal languages without necessarily involving verbal languages Thus far the allusion is to translation processes within the sphere of anthroposemiosis But translation occurs among signs and the signs implicated are those of the semiotic sphere in its totality which are not exclusively signs of the linguistic verbal order Beyond anthroposemiosis translation is a fact of life and invests the entire biosphere or biosemiosphere as clearly evidenced by research in biosemiotics for where there is life there are signs and where there are signs or semiotic processes there is translation indeed semiotic processes are translation processes According to this approach reflection on translation obviously cannot be restricted to the domain of linguistics but must necessarily involve

semiotics the general science or theory of signs In this theoretical framework essays have been included not only from major translation experts but also from researchers working in different areas in addition to semiotics and linguistics also philosophy literary criticism cultural studies gender studies biology and the medical sciences All scholars work on problems of translation in the light of their own special competencies and interests *The Literary Digest International Book Review* Clifford Smyth,1923 **American Economist** ,1902 *Tariff League Bulletin* ,1902 **American Economist and Tariff League Bulletin ...** ,1902 **Telling the Story of Translation** Judith Woodsworth,2017-08-10 Scholars have long highlighted the links between translating and re writing increasingly blurring the line between translations and so called original works Less emphasis has been placed on the work of writers who translate and the ways in which they conceptualize or even fictionalize the task of translation This book fills that gap and thus will be of interest to scholars in linguistics translation studies and literary studies Scrutinizing translation through a new lens Judith Woodsworth reveals the sometimes problematic relations between author and translator along with the evolution of the translator s voice and visibility The book investigates the uses and abuses of translation at the hands of George Bernard Shaw Gertrude Stein and Paul Auster prominent writers who bring into play assorted fictions as they tell their stories of translations Each case is interesting in itself because of the new material analysed and the conclusions reached Translation is seen not only as an exercise and fruitful starting point it is also a way of paying tribute repaying a debt and cementing a friendship Taken together the case studies point the way to a teleology of translation and raise the question what is translation for Shaw Stein and Auster adopt an authorial posture that distinguishes them from other translators They stretch the boundaries of the translation proper their words spilling over into the liminal space of the text in some cases they hijack the act of translation to serve their own ends Through their tales of loss counterfeit and hard labour they cast an occasionally bleak glance at what it means to be a translator Yet they also pay homage to translation and provide fresh insights that continue to manifest themselves in current works of literature By engaging with translation as a literary act in its own right these eminent writers confer greater prestige on what has traditionally been viewed as a subservient art **Ritual Remembering** ,2021-11-15 Most of the essays in *Ritual Remembering* History Myth and Politics in Anglo Irish Drama in part or in whole frequently allude or directly concern themselves with the dramatic representation of the opposition or the collusion of myth and history and the uses and abuses of both Equally they celebrate and critically analyse the politics of the social conscience and social consciousness which pervades Irish drama in its rituals of forgetfulness and memory Perhaps myth is above all to be understood as the conscience and consciousness of history and politics is the projection of that myth into present social action on the hustings nowadays more frequently the television hustings at the ballot box in writing and on the stage Most of the articles in this volume revolve around these gravely portentous and ambivalent themes which nobody who is as much concerned with Anglo Irish relations as with Anglo Irish literature can disregard or evade **The Department of State Bulletin** ,1944

Encyclopedia of the History of St. Louis William Hyde, Howard Louis Conard, 1899      **International Index to Periodicals**, 1915 An author and subject index to publications in fields of anthropology archaeology and classical studies economics folklore geography history language and literature music philosophy political science religion and theology sociology and theatre arts
