Memoirs of a Courtesan in Nineteenth-century Paris comtesse Căleste Vănard de Chabrilan,2001-01-01 When Căleste Mogador's memoirs were first published in 1854 and again in 1858 they were immediately seized and condemned as immoral and unsuitable for public consumption For a reader in our more forgiving times this extraordinary document offers not only a portrait of the early life of an intelligent courageous and infinitely intriguing Frenchwoman but also an exceedingly rare inside look at the world of the courtesans and prostitutes of nineteenth century France Writing to conciliate judges and creditors Mogador born Căleste Vănard in 1824 explains how with tenacity wit and audacity she managed to escape a difficult childhood and subsequent life of prostitution to become successively a darling of the dance halls a circus rider and an actress all the while attracting wealthy young men who vied for her favor Although her account gives readers a peek into the rakish demimonde made famous by Verdi's opera *La Traviata* its greatest value lies in its candid picture of a spunky self educated woman who doggedly transformed herself into an esteemed and prolific novelist and playwright who fell in love with a count and married him and who made her name synonymous with the bohemian life of the 1840s and 1850s in Paris **The**

Dolan, 2016-12-05 Arguing that vision was the dominant mode for understanding suffering in the Romantic era Elizabeth A Dolan shows that Mary Wollstonecraft Charlotte Smith and Mary Shelley experimented with aesthetic and scientific visual methods in order to expose the social structures underlying suffering Dolan's exploration of illness healing and social justice in the writings of these three authors depends on two major questions How do women writers innovations in literary form make visible previously unseen suffering And how do women authors portray embodied vision to claim literary authority Dolan's research encompasses a wide range of primary sources in science and medicine including nosology health travel botany and ophthalmology allowing her to map the resonances and disjunctions between medical theory and literature This in turn points towards a revisioning of enduring themes in Romanticism such as the figure of the Romantic poet the relationship between the mind and nature sensibility and sympathy solitude and sociability landscape aesthetics the reform novel and Romantic era science Dolan's book is distinguished by its deep engagement with several disciplines and genres making it a key text for understanding Romanticism the history of medicine and the position of the woman writer during the period Love in the Moment Karen Chien, 2020-03-01 The inspiring story of how a courageous mother's dedication and unconditional love for her son an artist on the autism spectrum helped him become an internationally renowned artist and double medal swimming champion at the Special Olympics Littell's Living Age, 1854
Common Threads Adele Flood, 2014-10-16 Common Threads explores ideas of artistic identity and memory contained

within the narrated stories of ten textile artists It reveals how individuals bring a sense of linearity to fragments of memory and create a cohesive sense of self through telling their life s story By employing a systems model the author constructs new ideas of interrogating identity and art practice The model Constructing Personal Narratives brings into focus the hermeneutic circle of learning and identifies the importance and need to provide opportunities for lifelong learning The stories told by the participants who returned to the formal education sector later in life reveal the profound effects adult learning had upon their lives The writer reveals how the model generated the interview questions that provided the rich biographical content that emerged within dialogues The common threads of experience and feelings of the ten participants and the author are revealed and from these emerge deepened understandings of both the place of stories within our lives and how stories can further an understanding of what it means to be an artist Emerging from these stories are implications for teaching practice these are presented as observations and questions in terms of how educators should be part of the learning experience with those they educate
