Long Tusk Mammoth:

Longtusk Stephen Baxter,2002-04-02 Longtusk one of the few remaining woolly mammoths on the planet is taken prisoner by two legged creatures he thinks of as the Fireheads but never forgets the feeling of freedom or his Clan

Adventure ,1922 *The Cycle of Cosmic Catastrophes* Richard Firestone,Allen West,Simon Warwick-Smith,2006-06-05 Scientific proof validating the legends and myths of ancient floods fires and weather extremes Presents scientific evidence revealing the cause of the end of the last ice age and the cycles of geological events and species extinctions that followed Connects physical data to the dramatic earth changes recounted in oral traditions around the world Describes the impending danger from a continuing cycle of catastrophes and extinctions There are a number of puzzling mysteries in the history of Earth that have yet to be satisfactorily explained by mainstream science the extinction of the dinosaurs the vanishing of ancient Indian tribes the formation of the mysterious Carolina Bays the disappearance of the mammoths the sudden ending of the last Ice Age and the cause of huge underwater landslides that sent massive tsunamis racing across the oceans millennia ago Eyewitness accounts of these events are chronicled in rich oral traditions handed down through generations of native peoples The authors recent scientific discoveries link all these events to a single cause In *The Cycle of Cosmic Catastrophes* Richard Firestone Allen West and Simon Warwick Smith present scientific evidence about a series of prehistoric cosmic events that explains why the last Ice Age ended so abruptly Their findings validate the ubiquitous legends and myths of floods fires and weather extremes passed down by our ancestors and show how these legendary events relate to each other Their findings also support the idea that we are entering a thousand year cycle of increasing danger and possibly a new cycle of extinctions Elom William H. Drinkard,2009-09-23 Fire from the Goddess and the meat and furs of the mammoth are all that the People need to live It is a harsh life but a good one and it is one that all cherish Young Geerna knows that the time has come for her to become a woman and take up the tasks to keep her people safe She waits in the Awakening Place fearful and hopeful as her ordeals come to an end Then on the eve of her Womanhood a shining light descends upon her and her world is torn asunder And she embarks on a journey that none of her people could ever envision Eons have passed Cycle upon cycle the Way of the People have remain unchanged women are artists men are hunters Geerna s Law is the covenant by which humans live in harmony and peace But all is about to change A call has come for The People to choose their champions and a summons to meet the mysterious creatures who selected Geerna so long ago All is unknown As the brave souls who are chosen venture forth they will come to discover just how much that pact that Geerna made so long ago has cost them And they will have to confront the choices that might help them to finally know true freedom At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied **Antarctica and the Arctic Circle** Andrew J. Hund,2014-10-14 This one stop reference is a perfect resource for anyone interested in the North and South Poles whether their interest relates to history wildlife or the geography of these regions in the news today
