Autonomy and Self-Respect Thomas E. Arguments and Fists Mika LaVaque Manty, 2002-03-22 Many theorists have addressed a central concern of current political theory by contending that the dithering intellectualism of left politics prevents genuine political action *Arguments and Fists* confronts this concern by refuting these arguments and reconciling philosophical debates with the realities of current activism By looking at theorists such as Montesquieu Kant Rousseau the book contradicts current academic debates and also goes against contemporary theory s image of the liberal political agent as a narrowly rational abstraction Mika LaVaque Manty also argues that progressive political philosophy and political action go hand in hand He then ventures past Kant and Rousseau to talk about specific environmental activism finding middle ground between the two while asserting that the liberal urge for political reform stems from sound philosophical considerations

about the nature of politics and isn't the cowardly afterthoughts some theorists have called it Arguments and Fists then puts these theoretical insights to use examining environmental justice movements and varieties of environmental radicalism showing how liberal theory illuminates concrete contemporary political practices *Windows 7 All-in-One For Dummies* Woody Leonhard, 2009-08-19 Eight references in one fully revised to include all the new features and updates to Windows 7 As the 1 operating system in the world Windows provides the platform upon which all essential computing activities occur This much anticipated version of the popular operating system offers an improved user experience with an enhanced interface to allow for greater user control This All in One reference is packed with valuable information from eight minibooks making it the ultimate resource You'll discover the improved ways in which Windows 7 interacts with other devices including mobile and home theater Windows 7 boasts numerous exciting new features and this reference is one stop shopping for discovering them all Eight minibooks cover Windows 7 basics security customizing the Internet searching and sharing hardware multimedia Windows media center and wired and wireless networking Addresses the new multi touch feature that will allow you to control movement on the screen with your fingers With this comprehensive guide at your fingertips you'll quickly start taking advantages of all the exciting new features of Windows 7 *The Decline of Mercy in Public Life* Alex Tuckness, John M. Parrish, 2014-04-21 Mercy is a marginalized virtue in contemporary public life but understanding its complex conceptual history suggests how that might change **Basic Equality and Discrimination** Dr Nicholas Mark Smith, 2013-02-28 The focus of this book is the idea of equality as a moral political and jurisprudential concept The author is motivated primarily by a concern to better understand conundrums in the justification interpretation and application of discrimination law Nicholas Smith aims to provide a clearer understanding of the nature of the value that the law is trying to uphold equality He rejects the notion that the concept of equality is vacuous and defends the idea as the proper range of moral concern After discussing the general characteristics of the denial of equality and some types of discrimination Smith considers prominent views on the point of equality law He argues that human rights lawyers should step back from the business of trying to steer courts towards vague equality goals informed by conceptions of equality that are either empty or even more abstract than the notion of equality itself If they do Smith thinks that the meaning of equality will be apparent though abstract and our difficulties will be shown to be in the first instance moral ones These moral issues will require more rigorous attention before we can draft discrimination law which gives clear effect to a widely legitimate understanding of what it means to uphold and promote equality This book will be a valuable resource for students and researchers working in the areas of legal philosophy political theory public law and human rights law **The Wood-worker**, 1908
