Lost Mines And Treasures Of The Pacific Northwest:

Lost Mines and Treasures of the Pacific Northwest Ruby El Hult, 1957 Where to look for lost gold mines and treasure in Oregon Washington and Idaho *Buried Treasures of the Pacific Northwest* W. C. Jameson, 2006-01-30 Do Indians living today know the location of the supposedly cursed Lost Gold of Devil's Sink Did Sir Francis Drake bury millions of dollars worth of ancient Incan treasures Has anyone found the box of gold coins buried by a reputed giant in the Washington rain forest Is there a noble family's fortune buried near an old log cabin in the Cascades **Treasure Hunter** W.C. Jameson, 2014-11-05 W C Jameson was an active treasure hunter for more than fifty years He has fallen from cliffs had ropes break during climbs been caught in mine shaft cave ins contended with flash floods been shot at watched men die and had to deal with rattlesnakes water moccasins scorpions and poisonous centipedes He has fled for his life from park rangers policemen landowners competitors corporate mercenaries and drug runners He has also discovered enough treasure to pay for his own house and finance his and his children's education With his enigmatic treasure hunter partners Slade Stanley and Poet Jameson's stories are worthy of an Indiana Jones film except that they are all true **Lost Mines and Buried Treasures of the West** Thomas Probert, 1977 This large easy to use volume lists the works of more than eleven hundred different authors covering thousands of stories of lost mines and buried treasures supposedly located in fifteen Western and Southwestern states and in Mexico In addition to being a boon to those adventurers who are tempted to search for lost mines and buried treasures it will be an important basic research tool for historians geologists geographers anthropologists archaeologists and folklorists and it will be useful in identifying the man treasure hoards and mining claims all the way from the Lost Adams Diggings in Arizona to the Stagecoach in Wyoming The information given in this important bibliography was acquired through perusal of an unusually large number of books newspapers magazines unpublished manuscripts deposits in private and public libraries holdings of various historical foundations and governmental records and archives The task took Mr Probert three full years of steady patient work Many of these stories of lost mines and buried treasures have resulted in the discovery of some that are rarely acknowledged largely because as Mr Probert points out those who have been so fortunate as to find the pot of gold at the end of the rainbow have deemed it wiser and much safer to keep their own counsel Book jacket The Silver Madonna and Other Tales of America's Greatest Lost Treasures W.C. Jameson, 2013-07-12 The twenty four tales in this book are of the most famous lost treasures in America from a two foot statue reportedly made entirely of silver the Madonna to a cache of gold silver and jewelry that was rumored to also contain the first Bible in the Americas What makes these tales even more compelling is that none of these known to be lost treasures have been discovered although modern detecting technology has made them eminently discoverable **Bibliography and Index of the Geology and Mineral Resources of Washington, 1963-1980** Connie Manson, Debbie Burnetti, 1983 **The Lost Canyon of Gold** W.C. Jameson, 2017-09 The legend of the Lost Adams Diggings is one of the most mythologized tales of lost

treasure on the continent This true story starts with the discovery of the rich deposit of gold in a remote mountain range and ends with the author s own story of search and discovery in the twentieth century

Formation Processes of Maritime Archaeological Landscapes Alicia Caporaso,2017-01-05 Research into the anthropogenic and taphonomic processes that affect the formation of maritime archaeological resources has grown significantly over the last decade in both theory and the analysis of specific sites and associated material culture The addition of interdisciplinary inquiry investigative techniques and analytical modeling from fields such as engineering oceanography and marine biology have increased our ability to trace the unique pathways through which archaeological sites progress from initial deposition to the present yet can also link individual sites

into an integrated socio environmental maritime landscape This edited volume presents a global perspective of current research in maritime archaeological landscape formation processes In addition to classically considered submerged material culture and geography or those that can be accessed by traditional underwater methodology case studies include less often considered sites and landscapes These landscapes for example require archaeologists to use geophysical marine survey equipment to characterize extensive areas of the seafloor or go above the surface to access maritime archaeological resources that have received less scholarly attention [Catalog of Copyright Entries.
