The Lever of Riches Joel Mokyr, 1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation's creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned

large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential

Bielawa, Mel Marmer, Rory Costello, 2014-04-07. You talk about destiny well, you can't rule that out. We were hard-nosed and that showed up in 1957. Braves catcher Del Crandall to editor Gregory H. Wolf. Few teams in baseball history have captured the hearts of their fans like the Milwaukee Braves of the 1950s. During the Braves' 13-year tenure in Milwaukee, 1953-1965, they had a winning record every season, won two consecutive NL pennants in 1957 and 1958, lost two more in the final week of the season in 1956 and 1959, and set big league attendance records along the way. This book celebrates the Milwaukee Braves' historic 1957 World Series championship season. Led by the bats of National League Most Valuable Player Henry Aaron and slugging third baseman Eddie Mathews and the Big Three pitching trio Cy Young Award winner Warren Spahn, Lew Burdette, and Bob Feller, the Braves won 95 games. The team enjoyed standout seasons by shortstop Johnny Logan, outfielder Wes Covington, and catcher Del Crandall. And GM John Quinn pulled off the biggest trade of the summer, acquiring All-Star second baseman Red Schoendienst from the New York Giants. The Braves cemented their place in history by defeating the New York Yankees in the World Series. In one of the greatest performances in the history of the fall classic, Red Schoendienst tossed his second consecutive shutout and third complete game to defeat the Bronx Bombers in Game Seven in Yankee Stadium. A collaborative effort of 32 members of the Society for American Baseball Research (SABR), *Thar's Joy in Braveland: The 1957 Milwaukee Braves* portrays that memorable team with life stories of all of the roster players, the manager, and coaching staff. The owner, the general manager, and sportswriters and radio announcers' summaries of the regular season and World Series re-create the magic of that unforgettable season.
