Twenge, 2014-09-30 Born in the 1980s and 1990s Millennials are reshaping schools colleges and businesses all over the country They are tolerant confident open minded and ambitious but also disengaged narcissistic distrustful and anxious And these children of the Baby Boomers are now feeling the effects of the changing job market even as they are affect change the world over Back cover *Generation Me* Jean M. Twenge, 2006 Noted researcher Dr Twenge uses 14 years of research and its data from 1 3 million respondents to reveal how profoundly different today s young adults are from previous generations and makes controversial predictions about what the future holds The Quick Fix Jesse Singal, 2025-10-16 An investigative journalist exposes the many holes in today s bestselling behavioral science and argues that the trendy TED Talk friendly psychological interventions that are so in vogue at the moment will never be enough to truly address social injustice and inequality With their viral TED talks bestselling books and counter intuitive remedies for complicated problems psychologists and other social scientists have become the reigning thinkers of our time Grit and power posing promised to help overcome entrenched inequalities in schools and the workplace the Army spent hundreds of millions of dollars on a positive psychology intervention geared at preventing PTSD in its combat soldiers and the implicit association test swept the nation on the strength of the claim that it can reveal unconscious biases and reduce racism in police departments and human resources departments But what if much of the science underlying these blockbuster ideas is dubious or fallacious What if Americans longstanding preference for simplistic self help platitudes is exerting a pernicious influence on the way behavioral science is communicated and even funded leading respected academics and the media astray In *The Quick Fix* Jesse Singal examines the most influential ideas of recent decades and the shaky science that supports them He begins with the California legislator who introduced self esteem into classrooms around the country in the 1980s and the Princeton political scientist who warned of an epidemic of youthful superpredators in the 1990s In both cases a much touted idea had little basis in reality but had a massive impact Turning toward the explosive popularity of 21st century social
