Love Object A Gothic Fantasy:

Love Object Jere Cunningham, 1985 **Young Adult Gothic Fiction** Michelle J. Smith, Kristine Moruzi, 2021-06-15
Focus on young adult literature This focus on young adult literature means that this book expands scholarship specifically in this area Focus on the Gothic for young people Gothic texts are very popular in children's and young adult literature but there hasn't been a lot of scholarship on the Gothic for adolescents This book expands our knowledge of how the Gothic intersects with young adult literature Includes coverage of YA fiction from the UK US Canada Australia and New Zealand a range of genres that intersect with the Gothic including historical fiction and fairy tale as well as forms such as the short story and graphic novel **Gothic Shakespeares** John Drakakis, Dale Townshend, 2008-12 In *Gothic Shakespeares* Shakespeare is considered alongside major Gothic texts and writers from Horace Walpole Ann Radcliffe Matthew Lewis and Mary Shelley up to and including contemporary Gothic fiction and horror film This volume offers a highly original and truly provocative account of Gothic reformulations of Shakespeare and Shakespeare's significance to the Gothic **Uninvited** Patricia White, 1999-10-22 Lesbian characters' stories and images were barred from onscreen depiction in Hollywood films from the 1930s to the 1960s together with all forms of sex perversion Through close readings of gothic's ghost films and maternal melodramas addressed to female audiences *Uninvited* argues that viewers are invited to make lesbian inferences Looking at the lure of some of the great female star personae in films such as Rebecca Pinky The Old Maid Queen Christina and The Haunting and at the visual coding of supporting actresses it identifies lesbian spectatorial strategies White's archival research textual analyses and novel theoretical insights make an important contribution to film lesbian and feminist studies Book jacket **The Gothic Fiction of Adelaida García Morales** Abigail Lee Six, 2006 By highlighting features common to the Gothic classics and the works of Adelaida García Morales this monograph aims to put the Gothic on the map in Hispanic Studies The Gothic as a literary mode extending well beyond its first proponents in eighteenth century England is well established in English studies but has been strangely under used by Hispanists Now Abigail Lee Six uses it as the paradigm through which to analyse the novels of Adelaida García Morales while not suggesting that every novel by this author is a classic Gothic text she reveals certain constants in the work that can be related to the Gothic even in novels which one might not classify as such Each of the novels studied is paired with an English language Gothic text such as Dracula Frankenstein and Dr Jekyll and Mr Hyde and then read in the light of it The focus of each chapter ranges from psychological aspects such as fear of decay or otherness or the pressures linked to managing secrets to more concrete elements such as mountains and frightening buildings and to key figures such as vampires ghosts or monsters This approach sheds new light on how García Morales achieves probably the most distinguishing feature of her novels their harrowing atmosphere ABIGAIL LEE SIX is Professor of Hispanic Studies at Royal Holloway University of London *The Cambridge Companion to Gothic Fiction* Jerrold E. Hogle, 2002-08-29 Gothic as a form of fiction making has played a major role in Western culture since the late

eighteenth century In this volume fourteen world class experts on the Gothic provide thorough and revealing accounts of this haunting to horrifying type of fiction from the 1760s the decade of *The Castle of Otranto* the first so called Gothic story to the end of the twentieth century an era haunted by filmed and computerized Gothic simulations Along the way these essays explore the connections of Gothic fictions to political and industrial revolutions the realistic novel the theatre Romantic and post Romantic poetry nationalism and racism from Europe to America colonized and post colonial populations the rise of film and other visual technologies the struggles between high and popular culture changing psychological attitudes towards human identity gender and sexuality and the obscure lines between life and death sanity and madness The volume also includes a chronology and guides to further reading

Fantasy Rosemary Jackson, 2013-10-08 First Published in 2002 It is easy to see that we are living in a time of rapid and radical social change It is much less easy to grasp the fact that such change will inevitably affect the nature of those disciplines that both reflect our society and help to shape it Yet this is nowhere more apparent than in the central field of what may in general terms be called literary studies *New Accents* is intended as a positive response to the initiative offered by such a situation Each volume in the series will seek to encourage rather than resist the process of change To stretch rather than reinforce the boundaries that currently define literature and its academic study

The Psychopathology of the Gothic Romance Ed Cameron, 2014-01-10 This book uses clinical psychoanalytic theory to illustrate how early British Gothic fiction reveals undercurrents of psychopathological behavior It demonstrates that psychological insights gained from Gothic romance anticipate the later scientific findings of psychoanalysis Chapters consider the division of the Gothic novel s critical reception between allegory and romance how the structure of early British Gothic romance parallels Freud s notion of the uncanny the genre s perverse origins in Walpole s *The Castle of Otranto* sexual differentiation and the parallel between development of Gothic romance and development of the psyche Ann Radcliffe and the terror of hysteria Matthew Lewis and obsessional neurosis and the confusion between self and other in Hogg s *The Private Memoirs and Confessions of a Justified Sinner*

assumptions about an autonomous and coherent speaking and or narrating subject The essential argument of the book is that the mid nineteenth century narrating I in its communal voyeuristic and Gothic manifestations emerges as painfully divided lacking unstable ailing and hence unreliable pre figuring at the same time later forms of self conscious narration in fiction Furthermore it is also exposed as performative one that can be seen as a simulacrum without an original and consequently at odds with post Romantic empiricist assumptions about the factuality centrality and rationality of the human subject while at the same time clinging to illusions of autonomy Plagued by its own self awareness the narrating I is alienated both from itself as well as from those it attempts to represent including its own narrated counterpart To this effect it argues that throughout a trajectory of configurations psychic investments and imaginary identifications embedded in and conditioned by the workings of desire and ideology both of which underpin discursive and representational practices narrative subjectivity in Gaskell s first person fiction manifests itself as the product of a misrecognized encounter between the subject who narrates and that which is being narrated Both are essentially unable to see their split character and the alienating chasm opened up between them for the former on the level of narration and for the latter on a thematic level

Postmodernist Fiction

Brian McHale,2003-09-02 In this trenchant and lively study Brian McHale undertakes to construct a version of postmodernist fiction which encompasses forms as wide ranging as North American metafiction Latin American magic realism the French New New Novel concrete prose and science fiction Considering a variety of theoretical approaches including those of Ingarden Eco Dolezel Pavel and Hrushovski McHale shows that the common denominator is postmodernist fiction s ability to thrust its own ontological status into the foreground and to raise questions about the world or worlds in which we live Exploiting various theoretical approaches to literary ontology those of Ingarden Eco Dolezel Pavel Hrushovski and others and ranging widely over contemporary world literature McHale assembles a comprehensive repertoire of postmodernist fiction s strategies of world making and unmaking

The Orphan in Eighteenth-Century Fiction E. König,2014-05-29 The Orphan in Eighteenth Century Fiction explores how the figure of the orphan was shaped by changing social and historical circumstances Analysing sixteen major novels from Defoe to Austen this original study explains the undiminished popularity of literary orphans and reveals their key role in the construction of gendered subjectivity

The Trauma of Gender

Helene Moglen,2001-02-12 The Trauma of Gender is a wonderfully crafted text provocative insightful and imaginative Moglen not only shows us how to read the intrapsychic processes at work in fiction but offers a careful consideration of the social form that loss mourning and desire take in the fictions she considers Along the way she develops a nuanced account of the origin of the novel showing her readers in subtle ways how the beginnings of fiction and the beginnings of fantasy are interwoven Her text exemplifies psychoanalytic literary criticism at its best offering a fine and probing study of the social and psychic dimensions of literary works Judith Butler author of Gender Trouble These extremely powerful and authoritative new readings of important canonical texts will set a new standard for discussions of the novel as a genre Moglen s work as an

interpreter of literary texts and of psychoanalytic theories is superior and her muscular writing style is well suited to the pleasurable pessimistic bent of her critical mind Lisa L Moore author of *Dangerous Intimacies Toward a Sapphic History of the British Novel* In this lucid and perceptive study Helene Moglen looks steadily at the shadow side of canonical eighteenth century fiction and sees the psychic costs of waxing individualism The book is an excellent corrective to the view that the novel is a triumphant expression of bourgeois values Catherine Gallagher author of *Nobody's Story The Vanishing Acts of Women Writers in the Marketplace 1670-1820* **The Lady and the Virgin** Penny Schine Gold, 2010-01-15 Penny Schine Gold provides a bold analysis of key literary and artistic images of women in the Middle Ages and the relationship between these images and the actual experience of women She argues that the complex interactions between men and women as expressed in both image and experience reflect a common pattern of ambivalence and contradiction Thus women are seen as both helpful and harmful powerful and submissive and the actuality of women's experience encompasses women in control and controlled autonomous and dependent Vividly recreating the rich texture of medieval life Gold effectively and eloquently goes beyond a simple equation of social context and representation In the process she challenges equally simple judgments of historical periods as being either good or bad for women The Lady and the Virgin presents its findings in a form that should attract students as well as their instructors The careful and controlled use of so many different kinds of sources offers us a valuable medieval case study in the inner relationship between the segments of society and its ethos or value system Joel T Rosenthal *The History Teacher* Something of a tour de force in an interdisciplinary approach to history Jo Ann McNamara *Speculum* A well written extremely well researched book The Lady and the Virgin is useful readable and well informed R Howard Bloch *Modern Philology* **Lacan and Fantasy Literature** Josephine Sharoni, 2017-07-03 Eschewing the all pervading contextual approach to literary criticism this book takes a Lacanian view of several popular British fantasy texts of the late 19th century such as Bram Stoker's *Dracula* revealing the significance of the historical context the advent of a modern democratic urban society in place of the traditional agrarian one Moreover counter intuitively it turns out that fantasy literature is analogous to modern Galilean science in its manipulation of the symbolic thereby changing our conception of reality It is imaginary devices such as vampires and ape men which in conjunction with Lacanian theory say something additional of the truth about primarily sexual aspects of human subjectivity and culture repressed by the contemporary hegemonic discourses Ethereal Queer Amy Villarejo, 2014-01-20 In *Ethereal Queer* Amy Villarejo offers a historically engaged theoretically sophisticated and often personal account of how TV representations of queer life have changed as the medium has evolved since the 1950s Challenging the widespread view that LGBT characters did not make a sustained appearance on television until the 1980s she draws on innovative readings of TV shows and network archives to reveal queer television's lengthy rich and varied history Villarejo goes beyond concerns about representational accuracy She tracks how changing depictions of queer life in programs from *Our Miss Brooks* to *The L Word* relate to transformations in

business models and technologies including modes of delivery and reception such as cable digital video recording and online streaming In so doing she provides a bold new way to understand the history of television

The Sexual Century Ethel Spector Person, 1999-01-01 Over the course of the past century sexual liberation has transformed the way in which most of us regard our bodies and live our sexual lives Now a preeminent psychoanalytic theoretician on sex and gender discusses what has gone into this unquiet revolution the roles played by sexologists and psychoanalysts antibiotics and birth control the liberation movements and Freud's insight that sex has as much to do with the mind as with the genitals In this collection of new and previously published papers Ethel Person writes of the centrality of sexuality to our identity She describes the role of fantasy in desire its different expression in the sexes and the way in which desire is inevitably intertwined with power Her classic papers on transvestism transsexualism and cross dressing homosexuals written with Lionel Ovesey help us to understand how gender and sex develop in all of us The public acceptance of the transsexual says Person is emblematic of the profound scientific and intellectual shifts that have taken place in the past hundred years The way that sex and gender develop and are experienced and expressed is the result not only of nature and nurture but also of the cultural zeitgeist its unspoken values and biases

A Companion to British Literature, Volume 3 Robert DeMaria, Jr., Heesok Chang, Samantha Zacher, 2013-12-13 A Companion to British Literature The Long Eighteenth Century 1660-1830

The Doppelgänger Andrew J. Webber, 1996-06-27 Ever since its literary coinage in Jean Paul's novel *Siebenk's* 1796 the concept of Doppelgänger has had significant influence upon representations of the self in German literature This study charts the development of the double from its origins in the Romantic period through its more marginal but nonetheless significant manifestations in the post-Romantic culture to its revival at the fin de siècle and transfer to the silent screen The book features an introduction to the practice and theory underlying the use of the Doppelgänger with particular reference to psychoanalysis followed by chapters on Jean Paul Hoffmann Kleist poetic realism Droste H. Hoffmann Keller Storm and modernism Kafka Rilke Hoffmannsthal Schnitzler Meyrink Werfel This study shows that the often underestimated figure of the double may provide a key to the epistemological aesthetic and psychosexual structures of the texts it visits and revisits with a particular focus on its effects in the fields of vision and language
