In the Beginning Jerrold E. Levy, 2023-04-28 Jerrold E Levy's masterly analysis of Navajo creation and origin myths shows what other interpretations often overlook that the Navajo religion is as complete and nuanced an attempt to answer humanity's big questions as the religions brought to North America by Europeans Looking first at the historical context of the Navajo narratives Levy points out that Navajo society has never during its known history been either homogeneous or unchanging and he goes on to identify in the myths persisting traditions that represent differing points of view within the society The major transformations of the Navajo people from a northern hunting and gathering society to a farming then herding then wage earning society in the American Southwest were accompanied by changes not only in social organization but also in religion Levy sees evidence of internal historical conflicts in the varying versions of the creation myth and their reflection in the origin myths associated with healing rituals Levy also compares Navajo answers to the perennial questions about the creation of the cosmos and why people are the way they are with the answers provided by Judaism and Christianity

And without suggesting that they are equivalent Levy discusses certain parallels between Navajo religious ideas and contemporary scientific cosmology The possibility that in the future Navajo religion will be as much altered by changing conditions as it has been in the past makes this fascinating account all the more timely This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1998 Jerrold E Levy s masterly analysis of Navajo creation and origin myths shows what other interpretations often overlook that the Navajo religion is as complete and nuanced an attempt to answer humanity s big questions as the religions brought to North Am

our sense of ethics has changed over the course of human evolution By the author of Hierarchy of the Forest Sacred Rights Daniel C. Maguire,2003-04-03 This book presents the work of the Sacred Choices Initiative of the Religious Consultation on Population Reproductive Health and Ethics The purpose of this Packard and Ford Foundation supported initiative is to attempt to change international discourse on family planning and to rescue this debate from superficial

sloganeering by drawing on the moral stores of the world's major and indigenous religions. In many of the world's religions there is a restrictive and pro-natalist view on family planning and this is one legitimate reading of those religious traditions. As the essays in this volume demonstrate, however, this is not the only legitimate or orthodox view. These authors show that the parameters of orthodoxy are wider and gentler than that and that the great religious traditions are wiser and more variegated and nuanced than a simple repetition of the most conservative views would suggest. This theme is carried out in essays on each of the world's major religious traditions written by scholar-practitioners of those faiths. **Ibss:**

Routledge is an imprint of Taylor & Francis, an information company. **Psalms, Part 2, and Lamentations** Erhard S. Gerstenberger, 2001. *Psalms Part 2 and Lamentations* is Volume XV of *The Forms of the Old Testament Literature*, a series that aims to present a formal critical analysis of every book and each unit in the Hebrew Bible. Fundamentally exegetical, the FOTL volumes examine the structure, genre, setting, and intention of the biblical literature in question. They also study the history behind the formal critical discussion of the material, attempt to bring consistency to the terminology for the genres and formulas of the biblical literature, and expose the exegetical procedures so as to enable students and pastors to engage in their own analysis and interpretation of the Old Testament texts. This volume completes Erhard Gerstenberger's widely praised discussion of the psalms literature begun in Volume XIV and includes as well an admirable study of the book of Lamentations. Gerstenberger interprets the different kinds of songs and prayers that comprise the book of Psalms in light of their socio-historical settings and provides a concise formal and structural analysis of each biblical text based on an illuminating comparison with other ancient Near Eastern prayers and hymns. Seeing the biblical writings in relation to the social, cultic, religious, and theological conceptions of Israel's neighboring peoples allows contemporary readers to better grasp the purpose and spiritual meaning of the psalms and Lamentations to the Jewish community that composed them. *Glances Backward* James J. Gifford, 2006-09-21. *Glances Backward* brings together in one volume a broad selection of nineteenth-century and early twentieth-century American writings about gay male love, including love stories, Westerns, ghostly tales, poetry, drama, essays, letters, and memoirs. Many of these works, such as *The Cult of the Purple Rose*, the story of a gay alliance at Harvard in the 1890s, are reprinted here for the first time since their original publication. Henry Blake Fuller's *Allisonian*, Classical Academy has until now been available only in manuscript form. In addition to works by lesser-known authors, selections by Henry James, Herman Melville, Walt Whitman, Horatio Alger Jr., Jack London, and Willa Cather are included.
