Gail Darlington, 2000-03-16 About half of all the medicines prescribed by doctors are not taken by their patients One of the reasons most commonly given by patients for not taking drugs is that they feel unhappy about taking medicines which they do not understand and of which they are afraid This book attempts to rectify this problem by showing in clear non technical language how medicines and other drugs work in the body to reduce the effects of disease Most chapters include fascinating background information on how some of our most important drugs were discovered along with intriguing and often amusing anecdotes about the drugs and the people behind their discovery Each chapter also includes a summary of the key points together with illustrations photographs or diagrams to summarise the main groups and how they work in the body The book covers all the major groups of drugs with complete listings of all the drugs available in the UK and the USA so that the reader can locate his or her specific drug and read about the actions of the drugs in that group The various chapters cover drugs used to treat high blood pressure heart disease diabetes nausea vomiting diarrhoea constipation ulcers cancers infections impotence incontinence arthritis osteoporosis as well as hormone replacement therapy oral contraceptives and drugs used in disorders of the brain such as schizophrenia depression Parkinson's disease Alzheimer's disease and epilepsy There is also a chapter on drugs which are abused such as cannabis alcohol nicotine and ecstasy and a chapter covering some of the poisons we encounter such as carbon monoxide arsenic sheep dip and the venoms of snakes spiders scorpions and marine organisms Here then a fascinating survey of how chemicals have their effects in the body It shows how drugs work and explains why it is that taking some medicines for many years is far safer than suffering the long term effects of disease *Pills Potions and Poisons* is an entertaining read that should also help to improve your health and quality of life **Ethnic Aphrodisiac Plants** S.K.
