Luftwaffe in Colour: The Victory Years 1939-1942 Christophe Cony, Jean-Louis Roba, 2016-10-31 A photo packed look at the men and machines of one of history's legendary air forces This remarkable work explores the Luftwaffe as it truly existed day to day underneath the propaganda of their own regime and the stories of their enemies In Hitler's Germany color photography was primarily co-opted for state purposes such as the military publication Signal or the Luftwaffe's own magazine Der Adler But a number of men had cameras of their own and in this painstakingly acquired collection we can witness true life on Germany's airfields during the period of the Luftwaffe's ascendancy Not only do we see famous planes such as the Me 109 Ju 87 and He 111 but the wide variety of more obscure types with which the Germans began the war The array of Arados Dorniers Heinkels not to mention elegant four engine Condors that were initially employed in the war are here in plain sight and full color providing not only an insight into WWII history but a model maker's dream Just as fascinating are the shots of the airmen themselves along with their ground crews full of confidence and cheer as they bested every other air force in Europe during these years with the single exception of the RAF's Fighter Command in late summer 1940 But that was no big stumbling block to the Luftwaffe which had bigger fish to fry in Russia and North Africa the following year Both volumes The Victory Years and From Glory to Defeat are a fantastic addition to your aviation library The reproduction quality is superb War History Online
