Lust To Kill Feminist Investigation Of Sexual Murder:

The Lust to Kill Deborah Cameron, Elizabeth Frazer, 1987 Mythologies of Violence in Postmodern Media Christopher Sharrett, 1999 This anthology examines a number of issues related to violence within the media landscape Violence has been a topic of continued concern within American culture and society Although there have been numerous sociological and historical studies of violence and its origins there is relatively little systematic analysis of violence within media representation even as this issue becomes preeminent within public discourse This anthology examines a number of issues related to violence within the media landscape using various methodologies to suggest the implications of the increasing obsession with violence for postmodern civilization **Lustmord** Maria Tatar, 2020-07-21 In a book that confronts our society's obsession with sexual violence Maria Tatar seeks the meaning behind one of the most disturbing images of twentieth century Western culture the violated female corpse This image is so prevalent in painting literature film and most recently in mass media that we rarely question what is at stake in its representation Tatar however challenges us to consider what is taking place both artistically and socially in the construction and circulation of scenes depicting sexual murder In examining images of sexual murder Lustmord she produces a riveting study of how art and murder have intersected in the sexual politics of culture from Weimar Germany to the present Tatar focuses attention on the politically turbulent Weimar Republic often viewed as the birthplace of a transgressive avant garde modernism where representations of female sexual mutilation abound Here a revealing episode in the gender politics of cultural production unfolds as male artists and writers working in a society consumed by fear of outside threats envision women as enemies that can be contained and mastered through transcendent artistic expression Not only does Tatar show that male artists openly identified with real life sexual murderers George Grosz posed as Jack the Ripper in a photograph where his model and future wife was the target of his knife but she also reveals the ways in which victims were disavowed and erased Tatar first analyzes actual cases of sexual murder that aroused wide public interest in Weimar Germany She then considers how the representation of murdered women in visual and literary works functions as a strategy for managing social and sexual anxieties and shows how violence against women can be linked to the war trauma to urban pathologies and to the politics of cultural production and biological reproduction In exploring the complex relationship between victim and agent in cases of sexual murder Tatar explains how the roles came to be destabilized and reversed turning the perpetrator of criminal deeds into a defenseless victim of seductive evil Throughout the West today the creation of similar ideological constructions still occurs in societies that have only recently begun to validate the voices of its victims Maria Tatar's book opens up an important discussion for readers seeking to understand the forces behind sexual violence and its portrayal in the cultural media throughout this century

Relating Rape and Murder Jane Monckton-Smith, 2010-08-16 This book is about relating the concepts of rape and murder in both senses of the term that is the way rape and murder are linked and related and also how stories of rape and

murder are related or told **Routledge Library Editions: Women, Feminism and Literature** Isobel Armstrong, 2013-12-19 Reissuing seminal works originally published between 1979 and 1994 Routledge Library Editions Women Feminism and Literature offers a selection of scholarship from a time of great change in feminist studies and literary studies Topics cover all aspects of women's literature gender and feminism through literary criticism and the work of women literary theorists **Stranger Rape** Kevin Bonnycastle, 2012-10-09 Kevin Denys Bonnycastle's *Stranger Rape* is an in depth study of the lives of fourteen men who raped women unknown to them Using new data derived from official offender files offender program observations and the men's personal histories Bonnycastle documents compares and contrasts their experiences from boyhood to adulthood and eventual incarceration Bonnycastle argues that stranger rapists do not fit existing portrayals of them as predatory monsters or misogynist everymen Instead through an innovative approach that builds on research and theory from feminism gender studies critical criminology and masculinity studies she positions stranger rape as a matter of experiences of pain and powerlessness rather than of male power and control The book's major achievement is to recognize rapists and rape in their particularity and complexity in the hope that critical thinking about their lives and about their experiences in penal contexts and programs may eventually lead to what one respondent called his road to redemption Please note that this book includes graphic content Male Envy Mervyn Nicholson, 1999-01-01 Taking as his central argument that relations between males in western society are deeply colored if not actually determined by envy Mervyn Nicholson ranges across disciplines and eras in a fascinating utterly unique analysis of this taboo subject This book presents a series of motifs that are associated with male envy locating each in a particular historical context and illustrating it with examples drawn from literature film and popular culture Unlike earlier treatments of envy by psychoanalysts or feminist theorists this book moves beyond mere illustration of the problem to actually construct a theory about how the code of Male Envy shapes social consciousness in modern culture A truly pathbreaking work Male Envy merits a close reading by gender theorists literary critics and social psychologists *Hunting Humans* Elliott Leyton, 2011-10-05 In this classic study Elliott Leyton challenges the conventional idea of serial murderers as deranged madmen He explores the twisted but comprehensible motives of a half dozen notorious killers Edmund Emil Kemper Theodore Robert Bundy Albert DeSalvo The Boston Strangler David Richard Berkowitz Son of Sam Mark James Robert Essex and Charles Starkweather In the process of describing their crimes Leyton exposes the cold rationality that underlies their apparent pointlessness The result is startling a revelatory text on a deeply troubling topic *Violence Against Women* Pauline B. Bart, Eileen Geil Moran, 1993 Violence against women permeates our society at every level in every setting Murder rape intimidation pornography workplace harassment incest are all part of a general belief built into the roots of patriarchal society Women are proper targets of male violence The chapters in this book contributed by some of the most prolific contemporary writers on women's issues explore this culture of violence and oppression examining its ideological underpinnings and its structural supports in the social

political and legal systems that protect the violent by blaming the victim *Femicidal Fears* Helene Meyers,2001-10-19

Argues that contemporary female Gothic novels of death can in fact breathe new life into feminist debates about victimization essentialism agency and the body **The Case of Literature** Arne Höcker,2020-06-15 In *The Case of Literature* Arne Höcker offers a radical reassessment of the modern European literary canon His reinterpretations of Goethe Schiller Büchner Döblin Musil and Kafka show how literary and scientific narratives have determined each other over the past three centuries and he argues that modern literature not only contributed to the development of the human sciences but also established itself as the privileged medium for a modern style of case based reasoning *The Case of Literature* deftly traces the role of narrative fiction in relation to the scientific knowledge of the individual from eighteenth century psychology and pedagogy to nineteenth century sexology and criminology to twentieth century psychoanalysis Höcker demonstrates how modern authors consciously engaged casuistic forms of writing to arrive at new understandings of literary discourse that correspond to major historical transformations in the function of fiction He argues for the centrality of literature to changes in the conceptions of psychological knowledge production around 1800 legal responsibility and institutionalized forms of decision making throughout the nineteenth century and literature's own realist demands in the early twentieth century *Tartan Noir* Len Wanner,2015-04-20 A comprehensive and fascinating guide to the worldwide crime fiction phenomenon known as Tartan Noir covering all its major authors What is Tartan Noir Which authors belong to this global crime fiction phenomenon Which books should you read first next again or not at all And what are the many historical political and cultural influences that have woven themselves into the Tartan Noir success story Here Len Wanner investigates the literature's four main sub genres the detective the police the serial killer and the noir novel Covering four decades worth of literary history Wanner offers not only four in depth cross examinations but also close readings of another 40 novels everything from commercial hits and critical triumphs to curiosity pieces and cult classics Books critiqued include international bestsellers by the likes of Ian Rankin William McIlvanney Val McDermid and Denise Mina alongside lesser known gems by counter cultural icons such as Hugh C Rae Ray Banks Allan Guthrie Helen FitzGerald and many more *True Crime and Women* Lili Pâquet,Rosemary Williamson,2024-08-22 Bringing new research from true crime writers scholars and media practitioners around the world this book offers fresh perspectives on how women read write and are portrayed in true crime stories across different platforms including documentaries podcasts and TikToks The genre of true crime is flourishing and it is overwhelmingly consumed by women Despite this there is much we do not know about how women consume true crime and are represented in true crime stories of various kinds This edited volume helps to fill this gap in our knowledge Across ten chapters and using a variety of study methods including creative practice interviews surveys archival research and case studies the book reveals the multifaceted ways that true crime matters to women and suggests areas of future research It also offers new insights on a diverse range of topics such as racial identities fraudsters activism victimisation and deviance as well as highlighting major

Feminism And Philosophy Nancy Tuana, 2018-02-06 The past twenty years have seen an explosion of work by feminist philosophers and several surveys of this work have documented the richness of the many different ways of doing feminist philosophy But this major new anthology is the first broad and inclusive selection of the most important work in this field There are many unanswered questions about the future of feminist philosophy Which of the many varieties of feminist philosophy will last and which will fade away What kinds of accommodations will be possible with mainstream non feminist philosophy Which will separate themselves and flourish on their own To what extent will feminists change the topics philosophers address To what extent will they change the very way in which philosophy is done However these questions are answered it is clear that feminist philosophy is having and will continue to have a major impact on the discipline of philosophy This volume is the first to allow the scholar the student and other interested readers to sample this diverse literature and to ponder these questions for themselves Organized around nine traditional types of feminist philosophy

#MeToo, Weinstein and Feminism Karen Boyle, 2019-11-04 This book provides a feminist analysis of MeToo and the sexual assault allegations against celebrity perpetrators which have emerged since the Weinstein story of October 2017 It argues for the importance of understanding MeToo in relation to an on going history of Anglo American feminist activism theory and interdisciplinary research Boyle investigates how speaking out about

rape sexual assault and harassment on social media can be understood in relation to second wave feminist traditions of consciousness raising Her argument explores the media depiction of feminism and feminists in the wake of Weinstein and the cultural values associated with men's abuse particularly within the film and television industries The book concludes with an exploration of what the MeToo era has meant for men as victims survivors and as alleged perpetrators in relation to narratives of victimisation and of monstrosity *Crime, Inequality and the State* Mary Vogel, 2020-10-28 Why has crime dropped while imprisonment grows This well edited volume of ground breaking articles explores criminal justice policy in light of recent research on changing patterns of crime and criminal careers Highlighting the role of conservative social and political theory in giving rise to criminal justice policies this innovative book focuses on such policies as three strikes two in the UK and your out mandatory sentencing and widespread incarceration of drug offenders It highlights the costs in both money and opportunity of increased prison expansion and explores factors such as labour market dynamics the rise of a prison industry the boost prisons provide to economies of underdeveloped regions the spreading political disenfranchisement of the disadvantaged it has produced Throughout this book hard facts and figures are accompanied by the faces and voices of the individuals and families whose lives hang in the balance This volume an essential resource for students policy makers and researchers of criminology criminal justice social policy and criminal law uses a compelling inter play of theoretical works and powerful empirical research to present vivid portraits of individual life experiences *The Murder of Helen Jewett* Patricia Cline Cohen, 1999-06-29 In 1836 the murder of a young prostitute made headlines in New York City and around the country inaugurating a sex and death sensationalism in news reporting that haunts us today Patricia Cline Cohen goes behind these first lurid accounts to reconstruct the story of the mysterious victim Helen Jewett From her beginnings as a servant girl in Maine Helen Jewett refashioned herself using four successive aliases into a highly paid courtesan She invented life stories for herself that helped her build a sympathetic clientele among New York City's elite and she further captivated her customers through her seductive letters which mixed elements of traditional feminine demureness with sexual boldness But she was to meet her match and her nemesis in a youth called Richard Robinson He was one of an unprecedented number of young men who flooded into America's burgeoning cities in the 1830s to satisfy the new business society's seemingly infinite need for clerks The son of an established Connecticut family he was intense arrogant and given to posturing He became Helen Jewett's lover in a tempestuous affair and ten months later was arrested for her murder He stood trial in a five day courtroom drama that ended with his acquittal amid the cheers of hundreds of fellow clerks and other spectators With no conviction for murder nor closure of any sort the case continued to tantalize the public even though Richard Robinson disappeared from view Through the Erie Canal down the Ohio and the Mississippi and by way of New Orleans he reached the wilds of Texas and a new life under a new name Through her meticulous and ingenious research Patricia Cline Cohen traces his life there and the many twists and turns of the lingering mystery of the murder Her stunning portrayals of Helen Jewett

Robinson and their raffish colorful nineteenth century world make vivid a frenetic city life and sexual morality whose complexities contradictions and concerns resonate with those of our own time **Monstrosity** Alexa Wright, 2013-06-30

From the Monster of Ravenna to the Elephant Man Myra Hindley and Ted Bundy the visualisation of real human monsters has always played a part in how society sees itself But what is the function of a monster Why do we need to embody and represent what is monstrous This book investigates the appearance of the human monster in Western culture both historically and in our contemporary society It argues that images of real rather than fictional human monsters help us both to identify and to interrogate what constitutes normality we construct what is acceptable in humanity by depicting what is not quite acceptable By exploring theories and examples of abnormality freakishness madness otherness and identification Alexa Wright demonstrates how monstrosity and the monster are social and cultural constructs However it soon becomes clear that the social function of the monster however altered a form it takes remains constant it is societal self defence allowing us to keep perceived monstrosity at a distance Through engaging with the work of Michel Foucault Julia Kristeva and Canguilhem to name but a few Wright scrutinises and critiques the history of a mode of thinking She reassesses and explodes conventional concepts of identity obscuring the boundaries between what is normal and what is not
