the same time most elusive genres of Neo Latin literature From the end of the fifteenth century almost every humanist writer
who regarded himself a true poeta had composed a respectable number of epigrams Given our sense of poetical aesthetics be
it idealistic postidealistic modern or postmodern the epigrammatic genre is difficult to understand Because of its close ties
with the historical and social context it does not fit any of these aesthetic approaches By presenting various epigram writers
collections and subgenres from the fifteenth to the seventeenth century this volume offers a first step toward a better

understanding of some of the features of humanist epigram literature
