Pound/the Little Review Ezra Pound,1988 Gathers Pound s letters to the publisher of the Little Review and provides background information on this period in Pound s life *The Poetry of the Medieval Troubadour, William IX of Aquitaine* Fidel Fajardo-Acosta,2023-08-15 The Poetry of the Medieval Troubadour William IX of Aquitaine The Songs that Built Europe offers a new edition translation and critical discussion of the songs of the first European troubadour William IX Duke of Aquitaine This book argues that William and his poetic works manifest the economic political and cultural forces that laid the foundations of modern Europe including the subjectivities of modern westerners and the concerns and motifs of what later

became the national literatures of France Spain England Germany and Italy Encouraging personal freedoms self definition and the pursuit of love and happiness the culture of courtly love that William initiated is distinctly modern but can also be seen to have played a key role in the subjection of medieval Europeans to the then emergent market economy imperialist ambitions of the Church and authority of proto national kingdoms As such subjection affected even the highest ranking aristocrats such as William the road of liberation of desire appears to have been a fast lane to serfdom for everyone perhaps the most pre modern feature of the modern and postmodern conditions *The Twelfth-Century Renaissance* Alex J.

Novikoff,2016-12-14 The twelfth century was a time of new ideas and creative innovation spurred on by patron monarchs like King Henry II and Eleanor of Aquitaine poets like Marie de France and Chr tien de Troyes lovers and intellectuals like Abelard and Heloise and religious thinkers like Bernard of Clairvaux and Hildegard of Bingen In his thoughtful introduction Novikoff explores the term twelfth century renaissance and whether or not it should be applied to a range of thinkers with differing outlooks and attitudes With reference to this ongoing historiographical debate Novikoff embraces the harmony of disharmonies and allows the authors of the twelfth century to define the period for themselves He situates classic works against a broad backdrop of other sources many appearing in translation for the first time in order to highlight the period s diverse currents of thought Sixteen black and white images are included **Singing Death** Helen Dell,Helen M.

Hickey,2017-04-21 Death is an unanswerable question for humanity the question that always remains unanswered because it lies beyond human experience Music represents one of the most profound ways in which humanity struggles nevertheless to accommodate death within the scope of the living by giving a voice to death and the dead and a voice that responds This book engages with the question of how music expresses and responds to the profound existential disturbance that death and loss present to the living Each chapter offers readers an encounter with music as a way of speaking or responding to human mortality Each chapter in its own way addresses these questions How are death and the dead made present to us through music How does music as composed performed and heard respond to the brute fact of death for the living the dying and the bereaved These questions are addressed from a wide range of disciplinary perspectives musicology ethnomusicology literature history philosophy film studies psychology and psychoanalysis Singing Death also covers a wide range of musical genres from medieval love song to twenty first century horror film music The collection is accompanied by a website including some of the music associated with each of its chapters *Handbook of Medieval Studies* Albrecht

Women and Gender in Medieval Europe Margaret Schaus,2006 Publisher description

Lacan's Medievalism Erin Felicia Labbie, One of the foundational premises of Jacques Lacan s psychoanalytical project was that the history of philosophy concealed the history of desire and one of the goals of his work was to show how desire is central to philosophical thinking In Lacan s Medievalism Erin Felicia Labbie demonstrates how Lacan s theory of desire is bound to his reading of medieval texts She not only alters the relationship between psychoanalysis and medieval studies but also illuminates the ways that premodern and postmodern epochs and ideologies share a concern with the subject the unconscious and language thus challenging notions of strict epistemological cuts Lacan s psychoanalytic work contributes to the medieval debate about universals by revealing how the unconscious relates to the category of the real By analyzing the systematic adherence to dialectics and the idealization of the hard sciences Lacan s Medievalism asserts that we must take into account the play of language and desire within the unconscious and literature in order to understand the way that we know things in the world and the manner in which order is determined Erin Felicia Labbie is assistant professor of English at Bowling Green State University

Messiaen the Theologian Andrew Shenton,2017-07-05 For Olivier Messiaen music was a way of expressing his faith He considered it his good fortune to have been born a Catholic and declared that the illumination of the theological truths of the Catholic faith is the first aspect of my work the noblest and no doubt the most useful Messiaen is one of the most widely performed and recorded composers of the twentieth century and his popularity is increasing but the theological component of his music has so far largely been neglected or dealt with superficially and continues to provide a serious impediment to understanding and appreciating his music for some of his audience Messiaen the Theologian makes a significant contribution to Messiaen studies by providing cultural and historical context to Messiaen s theology An international array of Messiaen scholars cover a wide variety of topics including Messiaen s personal spirituality the context of Catholicism in France in the twentieth

century and comparisons between Messiaen and other artists such as Dante and T S Eliot Interdisciplinary methodologies such as exegesis theological studies and analysis are used to contribute to the understanding of several major works including Sept Ha ka and Saint Francis d Assise By approaching Messiaen and his music from such important and original perspectives this book will be of interest not only to musicians and theologians but also to readers interested in the connection between spirituality and the arts

The Japanese Novel of the Meiji Period and the Ideal of Individualism

Janet A. Walker,2019-01-29 The Western ideal of individualism had a pervasive influence on the culture of the Meiji period in Japan 1868 1912 Janet Walker argues that this ideal also had an important influence on the development of the modern Japanese novel Focusing on the work of four late Meiji writers she analyzes their contribution to the development of a type of novel whose aim was the depiction of the modern Japanese individual Professor Walker suggests that Meiji novels of the individual provided their readers with mirrors in which to confront their new found sense of individuality Her treatment of these novels as confessions allows her to discuss the development of modern Japanese literature and the modern literary self both in themselves and as they compare their prototypes and analogues in European literature The author begins by examining the evolution of a literary concept of the inner self in Futabatei Shimei s novel Ukigumo The Floating Clouds Kitamura Tokoku s essays on the inner life and Tayama Katai s I novel Futon The Quilt She devotes the second half of her book to Shimazaki Toson the Meiji novelist who was most influenced by the ideal of individualism Here she traces Toson s development of a personal ideal of selfhood and analyzes in detail two examples of the lengthy confessional novel form that he created as a vehicle for its expression Janet A Walker is Associate Professor of Comparative Literature at Livingston College Rutgers University Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Medieval Culture of Disputation Alex J. Novikoff,2013-10-09 Scholastic disputation the formalized procedure of debate in the medieval university is one of the hallmarks of intellectual life in premodern Europe Modeled on Socratic and Aristotelian methods of argumentation this rhetorical style was refined in the monasteries of the early Middle Ages and rose to prominence during the twelfth century Renaissance Strict rules governed disputation and it became the preferred method of teaching within the

university curriculum and beyond In *The Medieval Culture of Disputation* Alex J Novikoff has written the first sustained and comprehensive study of the practice of scholastic disputation and of its formative influence in multiple spheres of cultural life Using hundreds of published and unpublished sources as his guide Novikoff traces the evolution of disputation from its ancient origins to its broader impact on the scholastic culture and public sphere of the High Middle Ages Many examples of medieval disputation are rooted in religious discourse and monastic pedagogy Augustine's inner spiritual dialogues and Anselm of Bec's use of rational investigation in speculative theology laid the foundations for the medieval contemplative world The polemical value of disputation was especially exploited in the context of competing Jewish and Christian interpretations of the Bible Disputation became the hallmark of Christian intellectual attacks against Jews and Judaism first as a literary genre and then in public debates such as the Talmud Trial of 1240 and the Barcelona Disputation of 1263 As disputation filtered into the public sphere it also became a key element in iconography liturgical drama epistolary writing debate poetry musical counterpoint and polemic *The Medieval Culture of Disputation* places the practice and performance of disputation at the nexus of this broader literary and cultural context *Dante, Artist of Gesture* Heather Webb, 2022-09-05 *Dante Artist of Gesture* proposes a visual technique for reading Dante's *Comedy* suggesting that the reader engages with Dante's striking images of souls as if these images were arranged in an architectural space Art historians have shown how series of discrete images or scenes in medieval places of worship such as the mosaics in the Baptistery of San Giovanni in Florence or the frescoes in the Scrovegni Chapel in Padua establish not only narrative sequences but also parallelisms between registers forging links between those registers by the use of colour and gestural forms Heather Webb takes up those techniques to show that the *Comedy* likewise invites the reader to make visual links between disparate non sequential moments in the text In other words Webb argues that Dante's poem asks readers to view its verbally articulated sequences of images with a set of observational tools that could be acquired from the practice of engaging with and meditating on the bodily depictions of vice and virtue in fresco cycles or programmes of mosaics in places of worship One of the most inherently visible aspects of the *Comedy* is the representation of signature gestures of the characters described in each of the realms This book traces described gestures and bodily signs across the canticles of the poem to provide a key for identifying affective and devotional itineraries within the text **Iberian Jewish Literature** Jonathan P. Decter, 2007-08-08 This stimulating and graceful book explores Iberian Jewish attitudes toward cultural transition during the 12th and 13th centuries when growing intolerance toward Jews in Islamic al Andalus and the southward expansion of the Christian Reconquista led to the relocation of Jews from Islamic to Christian domains By engaging literary topics such as imagery structure voice landscape and geography Jonathan P Decter traces attitudes toward transition that range from tenacious longing for the Islamic past to comfort in the Christian environment Through comparison with Arabic and European vernacular literatures Decter elucidates a medieval Hebrew poetics of estrangement and nostalgia poetic responses to catastrophe and the

refraction of social issues in fictional narratives Published with the generous support of the Koret Foundation
