*M3 Infantry Half-Track 1940-73* Steven J. Zaloga, 2013-06-20 As armoured warfare tactics matured mechanised infantry became a key ingredient in what is now called combined arms doctrine For the US Army of World War 2 the most important technical aspect of infantry mechanisation was the development of the M3 half track personnel carrier Steven Zaloga guides the reader through the early 1930s development of the half track its first deployment in action in the Philippines in 1941 and its varied and vital role in international deployments since World War 2 This authoritative text also examines the operators of half tracks and the troops that they carried *Browning .50-caliber Machine Guns* Gordon L. Rottman, 2011-03-15 The Browning 50 cal has become the longest serving weapon in the US inventory The fifty has been employed in every imaginable role for a machine gun It is considered such an effective and reliable weapon that few countries ever attempted to develop an equivalent weapon Even the Japanese created a copy of it during World War II when the US was producing literally thousands every month to use in every theater This is a history of the development of this famous weapon its most critical operational use and the variants that have been produced to keep it at the forefront of the action **American Tanks & AFVs of World War II** Michael Green, 2014-07-20 A comprehensive highly illustrated study of US tanks and other armoured vehicles used in World War II The entry of the US into World War II provided the Allies with the industrial might to finally take the war to German and Japanese forces across the world Central to this was the focus of the American military industrial complex on the manufacture of tanks and armoured fighting vehicles Between 1939 and 1945 88 140 tanks and 18 620 other armored vehicles were built almost twice the number that Germany and Great Britain combined were able to supply In this lavishly illustrated volume armour expert Michael Green examines the dizzying array of machinery fielded by the US Army from the famed M4 Sherman M3 Stuart and M3 Lee through to the half tracks armored cars self propelled artillery tank destroyers armored recovery vehicles and tracked landing vehicles that provided the armoured fist that the Allies needed to break Axis resistance in Europe and the Pacific Publishing in paperback for the first time and packed with historical and contemporary colour photography this encyclopedic new study details the design development and construction of these vehicles their deployment in battle and the impact that they had on the outcome of the war **World War II US Cavalry Groups** Gordon L. Rottman, 2012-07-20 An introduction to the US Cavalry units equipped with light armor and their role in the European Theater during World War II The cavalry regiments of the US Army were in the process of being transformed into a mechanized force when the USA entered World War II While those cavalry regiments deployed to the Pacific to fight the Japanese were turned into infantry units those sent to Europe were employed as light armor in the cavalry s traditional spearhead roles reconnaissance the screening of advances and flanks and the pursuit of beaten enemy forces Equipped with M8 Greyhound armored cars M5 Stuart and M24 Chaffee light tanks and halftracks these units were designated cavalry groups mechanized each c 1 700 strong and divided into two heavily armed squadrons They were seldom attached to

divisions but to higher level corps commands meaning they could be shifted around quickly and independently and be formed at need into flexible battle groups with armored infantry and other units depending on the mission Featuring specially drawn full color illustrations depicting uniforms insignia armored vehicles and tactical scenarios this is the story of the US cavalry units that led the advance to victory in Europe during World War II      **The Imjin and Kapyong Battles** S.P.

MacKenzie,2013-03-12 An excellent history of a massive Communist offensive and the brigades that resisted it H War The sacrifice of the British regiment known as the Glorious Glosters in defense of the Imjin River line and the hilltop fights of Australian and Canadian battalions in the Kapyong Valley have achieved great renown Using official and unofficial source material ranging from personal interviews to war diaries this in depth study the first of its kind seeks to disentangle the mythology surrounding both battles and explain why events unfolded as they did Based on thorough familiarity with all available sources many not previously utilized it sheds new light on fighting the forgotten war In Korea on the night of 22nd April 1951 communist forces unleashed what remains to this day their greatest offensive since Zhukov s storm on Berlin In the desperate fighting that followed the key flanks of free world forces were held by one British and one Commonwealth brigade The former took on a Chinese army the latter a Chinese division Six decades later an American historian has dismantled the barriers between Australian British Canadian and New Zealand accounts of those whirlwind days to compose the only comparative analysis of the tragedy on the Imjin and the stand at Kapyong Andrew Salmon author of *Scorched Earth* *Black Snow* Britain and Australia in the Korean War 1950      **The Sleeping Giant** J. Harbor Sent north to meet the Japanese landings in Lingayen Gulf the men of the PTG found themselves thrust into a critical role when the Philippine Army could not hold back the Japanese When General MacArthur ordered the retreat to Bataan the PTG proved itself indispensable During early months of 1942 the light tanks of the PTG patrolled Bataan s beaches encircling and destroying Japanese penetrations and small amphibious landings By April 1942 the situation had become untenable and 15 000 Americans along with 60 000 Filipinos surrendered in one of the worst defeats in U S military history The Provisional Tank Group ceased to exist and its men endured the Bataan Death March the torture and starvation of POW camps the hell ships that took them to Japan and Manchuria for slave labor and the Palawan massacre In an evocatively written book Donald L Caldwell reveals the largely ignored role of tanks in the Philippine campaign Conducting impressive primary research to bring to life the combat history of the PTG Caldwell has dug deeper to tell the stories of soldiers from each of the group s six companies recounting their service from enlistment training and combat to imprisonment liberation and return home Remarkable A well told history highly recommended Jay A Stout LtCol Ret USMC author of *Air Apaches* *The British National Bibliography* Arthur James Wells,1995 *Soviet Lend-Lease Tanks of World War II* Steven J. Zaloga,2017-06-29 The Red Army suffered such catastrophic losses of armour in the summer of 1941 that they begged Britain and the United States to send tanks The first batches arrived in late 1941 just in time to take part in the defence of Moscow The supplies of British tanks encompassed a very wide range of types including the Matilda Churchill and Valentine and even a few Tetrarch airborne tanks American tanks included the M3 Stuart light tank and M3 Lee medium tank and the M4 Sherman tank which became so common in 1944 45 that entire Soviet tank corps were equipped with the type With these Western tanks the Soviets were finally able to beat back the German tide in the East This study examines the different types of tanks shipped to the Soviet Union during the war Soviet assessments of their merits and problems and combat accounts of their use in Soviet service using full colour artwork contemporary photographs and detailed cut away illustrations **Patton's First Victory** Leo Barron,2017-10-20 American troops invaded North Africa in November 1942 but did not face serious resistance until the following February when they finally tangled with Rommel s Afrika Korps and the Germans gave the inexperienced Americans a nasty drubbing at Kasserine Pass After this disaster Gen George Patton took command and reinvigorated U S troops with tough training and new tactics In late March at El Guettar in Tunisia Patton s men defeated the Germans It was a morale boosting victory the first American success versus the Germans and the first of Patton s storied World War II career and proved to the enemy the British and the Americans themselves that the U S Army could fight and win [The Western European and Mediterranean Theaters in World War II](#) Donal Sexton,2011-10-06 [The Western European and Mediterranean Theaters in World War II](#) is a concise comprehensive guide for students teachers and history buffs of the Second World War With an emphasis on the American forces in these theaters each entry is accompanied by a brief annotation that will allow researchers to navigate through the vast amount of literature on the campaigns fought in these regions with ease Focusing

M26/M46 Pershing Tank 1943-53 Steven J. Zaloga,2000-11-25 From the moment that the M4 Sherman had been matched against German Panther and Tiger tanks the American tank crews had known that their vehicles were outclassed by the opposition What was needed was a more powerful tank more heavily armed and armored that could take on the powerful German panzers on a more equal footing Although it took time to develop by the latter months of the war numbers of M26 Pershing tanks were reaching the frontline US armored units Well armored and with a powerful 90mm gun the Pershing was a match for any tank in the German order of battle **Fallschirmjäger** Bruce Quarrie,2001-10-25 Few of the combatants of World War II have captured the imagination as compulsively as the Fallschirmjäger Boldness and courage were vital characteristics in the rigorous selection process and their training was highly demanding Hitler s airborne troops were involved in some of the most daring actions of the whole war from the 1940 assault on Eben Emael and the invasion of Crete in 1941 to the rescue of Mussolini and the attempt on Tito s life In addition they saw service as elite line infantry in the key theatres of North West Europe North Africa and the Eastern Front This title looks at the life and experiences of the average Fallschirmjäger and includes first hand accounts from different theatres and periods of the war Tank Warfare, 1939-1945 Simon Forty,Jonathan Forty,2020-07-19 On the battlefields of Europe and North Africa during the Second World War tanks played a key role and the intense pressure of combat drove forward tank design and tactics at an extraordinary rate In a few years on all sides tank warfare was transformed This is the dramatic process that Simon and Jonathan Forty chronicle in this heavily illustrated history They describe the fundamentals of pre war tank design and compare the theories formulated in the 1930s as to how they should be used in battle Then they show how the harsh experience of the German blitzkrieg campaigns

in Poland France and the Soviet Union compelled the Western Allies to reconsider their equipment organization and tactics and how the Germans responded to the Allied challenge The speed of progress is demonstrated in the selection of over 180 archive photographs which record as only photographs can the conditions of war on each battle front They also give a vivid impression of what armoured warfare was like for the tank crews of 75 years ago *Bibliografía española* ,2001-04
