Macau In Transition From Colony To Autonomous Region:

Macau in Transition H. Yee, 2001-09-12 The book analyzes various aspects of the process of Macau's transition from a Portuguese autonomous territory to a Chinese special administrative region. It analyzes the role of those involved in the process: Beijing, Lisbon, the local Portuguese Macau administration, the Macau branch of the New China News Agency, the Luso-Chinese Joint Liaison Group, and the local political and social groups. It stresses the dynamics of interactions between actors as well as the political, economic, and social changes in the enclave that have direct or indirect impact on the transition.

China's Macao Transformed Eilo W.Y. YU, Ming K. CHAN, 2014-10-01 The return of Macao from the Portuguese administration to the People's Republic of China (PRC) in 1999 marks the beginning of its transformation in the 21st century. Macao was confronted with various issues concerning the existing political system, economic downturn, and gangland violence during the transition period. Beijing put Macao under the One Country Two Systems and implemented a wide variety of measures in order to restore its law and order as well as to recover its tourism-dependent economy. Gradually, Macao transformed itself to Las Vegas of the East. This volume of 18 essays highlights the key dimensions of Macao's remarkable One Country Two Systems actualisation experience in its first 15 years and discusses how Macao transformed and what challenges it encountered during its post-handover transformation. The volume has several focuses. It first investigates the political and electoral issues in a critical manner: post-handover Macao suffered from maladministration and limited democratization, and the chief executives selected lacked representativeness due to restricted public participation in the electoral process. Overall speaking, the government lacked legitimacy and popular support. From a socio-economic point of view, this book looks into the business model in running Macao's casinos and the emerging culture of mass participation and youth participation in political affairs. The education reformation and changes in civic identity of local Macao Chinese are also addressed. Finally, the volume looks into how post-handover Macao relates itself in the international politics affair.

Macau 20 Years after the Handover Meng U. Jeong, 2020-05-25 This book outlines the major social and political changes in the city of Macau during its first 20 years under the One Country Two Systems arrangement with Mainland China. Despite the long-standing image of Macau as Asia's Las Vegas, it is a city that has changed a great deal since its return to China. Equally, despite this return, it retains a unique social, economic, and political character distinct both from the Mainland of China and from its larger neighbour Hong Kong. The chapters in this book examine the detail of this uniqueness from a range of perspectives, including the gambling industry, police-society relations, media usage patterns, and protest movements. Analysing the state of affairs 20 years after the city's return to China, they also attempt to anticipate its future trajectory. This is a valuable guide for scholars of Asian and particularly Chinese urban politics that will be of interest to academics and students looking to better understand the particularities of Macau.

China's Policies On Its Borderlands And The International Implications Yufan Hao, Bill K P Chou, 2010-11-25 This book examines the interplay of two sets of policies the Chinese government's policies to its borderlands and international relations It proposes a conceptual framework and argues that China's policymakers fail to make complete use of the opportunities in the borderlands for accomplishing foreign policymakers agenda to strengthen China's relations with other countries neighboring ones in particular As a result these foreign policies reflect the political elites inadequate consideration of the negative impact of these policies on the borderlands and underscore their worry for territorial disintegration Therefore these policies center on the pursuit of central control through exercising administrative military coercion making the borderlands economically dependent standardizing the cultural identity and indoctrinating CCP defined ideology The challenges of the borderlands to the national integration are exaggerated so much that political elites pursued control and standardization at the expense of the identification of many people in borderlands with the regime China's international image and the relations with its

neighbouring countries Sovereignty at the Edge Cathryn H. Clayton, 2020-03-17 How have conceptions and practices of sovereignty shaped how Chineseness is imagined This ethnography addresses this question through the example of Macau a southern Chinese city that was a Portuguese colony from the 1550s until 1999 As the Portuguese administration prepared to transfer Macau to Chinese control it mounted a campaign to convince the city's residents 95 percent of whom identified as Chinese that they possessed a unique cultural identity that made them different from other Chinese and that resulted from the existence of a Portuguese state on Chinese soil This attempt sparked reflections on the meaning of Portuguese governance that challenged not only conventional definitions of sovereignty but also conventional notions of Chineseness as a subjectivity common to all Chinese people around the world Various stories about sovereignty and Chineseness and their interrelationship were told in Macau in the 1990s This book is about those stories and how they informed the lives of Macau residents in ways that allowed different relationships among sovereignty subjectivity and culture to become thinkable while also providing a sense of why at times it may not be desirable to think them **Gambling Dynamism** Victor Zheng, Po-san Wan, 2013-11-29 Four years after the actual implementation of its casino deregulation policy Macao has surpassed Las Vegas as the world's top gambling destination in terms of annual turnover Also various recent surveys have put Macao at the very top of the list in terms of per capita GDP as its economy grew shortly after the resumption of Chinese sovereignty How could a tiny city without any natural resources on the southern coast of China have managed to achieve such a miraculous level of development This book presents an unparalleled study of Macao's economic dynamism and its gambling industry not only by merging historical and current developments but also by presenting solid subjective and objective indicators and evidence It offers an indispensable resource for students researchers and general readers looking to understand Macao's gambling miracle *Historical Dictionary of Modern China (1800-1949)* James Z. economically contested region In the late nineteenth century the region became the centre of competing Russian Chinese and Japanese interests thereby also attracting global attention The coexistence of people with different nationalities ethnicities and cultures in Manchuria was rarely if ever harmoniously balanced or static On the contrary interactions were both dynamic and complex Semi colonial experiences affected the people s living conditions status and power relations The transcultural negotiations between all population groups across borders of all kinds are the subject of this book The chapters of this volume shed light on various entangled histories in areas such as administration the economy ideas ideologies culture media and daily life
