Poker Strategy Kevin Bailey,2019-10-18 If you are getting into a high stakes table go in with a clear head and no emotional baggage whatsoever Remember to stay in your comfort zone and play at your leisure not because people are staring at you to call or bet Do not let people make you uncomfortable instead try to pull them out of their comfort zones so you can analyze them better Always remember your opponent s hand is just as important as yours is Try figuring out the range of the opponent s hands if you want to win the pot It is also important to make rational decisions and fold when your hole cards are not in your favor When playing poker like a pro you need to keep your ego aside and focus on the game nothing else Poker is a game of the mind and once you learn how to control it you will be in control of the game and this will increase your chances of winning All you need to do is to analyze your hand bluff or bet as per your game and then conquer your opponents Start with some of the strategies and tips presented in this book to polish your game If you try to use all the strategies all at once you may end up ruining your game strategy So master each tip and then move to the next one Furthermore understand that there will be good days while playing poker and then there will be bad days as well This should not demotivate you as long as you are fixed on your rules that you have created to keep yourself in control Keep all the rules and strategies in your mind so that they can guide you to win and respect the money you play for Also keep in mind that you are the one who will be walking away from the table if you are losing the game Do not indulge yourself in overconfidence that you can win on the next round and end up losing all your stake Be patient and have an approach that will give you the upper hand in all your games consecutively In this guide you will find a lot of valuable content that will show you how to use simple calculations while playing poker This book will teach you how to avoid guessing using proven tactics With these methods you will have the confidence to join any table You will also have the power to take on any player
