Whitby,2001-11-12 Until now little attention has been paid to the development of military capabilities designed to target food crops with biological warfare agents This book represents the first substantive study of state run activities in this field It shows that all biological warfare programmes have included a component concerned with the development of anti crop biological warfare agents and munitions Current concern over the proliferation of biological weapons is placed in the context of the initiative to strengthen the Biological and Toxin Weapons Convention The book concludes by arguing that the risks posed by this form of warfare can be minimised but that this would depend largely on the effective and efficient implementation of regimes concerning the peaceful use and control of plant pathogens that pose a risk to human health and the environment **The Public Statutes at Large of the United States of America** United States,1925 **Department of Defense Appropriations for ...** United States. Shaw,2010-01-01 This comparative collection of original contributions examines the role of political staff in executive government and the consequences for policy making and governance The leading contributors reveal that good governance is about governments getting the advice that they need to hear as well as the advice that they want to hear They highlight the importance of ensuring that the advice is appropriately responsive to the policy priorities of the government of the day In countries such as the United States and in some European democracies political appointments to senior administrative positions are not a new development However in recent years a third element the political adviser has also become a feature of policy making and political management in Westminster styled systems This authoritative work seeks to illuminate the drivers behind the advent of political staff in executive government and the consequences for policy making and governance This unique book includes case studies from Australia Canada New Zealand
