Tricycle, 1999 *Enjoy Life Liberated from the Inner Prison* Lama Zopa Rinpoche, 2021-03-04 When terrible things happen in life and there's little we can do to change them the only option seems to be either anger or despair This is the reality for prison inmates They have no power over their circumstances Many have long

sentences some have been wrongly accused and some even await execution Their environment is often overcrowded ugly violent and full of noise like being in a rock concert all day as one man reported There is nothing to look forward to and often no one to turn to For the past twenty five years Liberation Prison Project has been a lifeline for prisoners first in the United States and also in Australia Italy Mongolia New Zealand and other countries who turned to LPP asking for Buddhist books and spiritual advice in an effort to find meaning in life when everything else has been lost This book is a compilation of advice from Lama Zopa Rinpoche the spiritual director of LPP in response to letters from more than one hundred prisoners mainly in the USA edited into a coherent narrative Rinpoche s advice is that actually their prison is nothing in comparison with their inner prison the prison of anger the prison of attachment the prison of ignorance That prison Rinpoche says they can definitely change And why should they Because simply put happiness and suffering come from the mind not the external world The extent of the heartfelt compassion and love that Rinpoche offers the men who write to him is incredible He empowers them to never give up on the development of their potential and their ability to help others The advice in the book is not just for prisoners It is for all of us Pleine conscience et relation d'aide Collectif Collectif,2018-06-12T00:00:00-04:00 Cet ouvrage est rédigé par des universitaires de disciplines variées travail social psychologie éducation médecine sexologie et des cliniciens qui travaillent dans des centres de services sociaux et psychiatriques *Psicologia Buddhista e Terapia Cognitivo Comportamentale* DENNIS TIRCH, LAURA R. Healing Personal Psychology Jasenn Zaejian, 2012-07-10 The mental health professions are responsible for creating and maintaining a folie a deux or shared public delusion that their intention is to heal On close inspection we see that the primary

function of mental health professionals is to serve as moral arbiters of human behavior The legislature has granted clinical psychology and psychiatry the legal rights to define certain behaviors as mental illness Behaviors are defined as mental illness by morally tinged personal clinical opinion Cleverly hidden from the public is the fact that the concept of mental illness has never been established by rigorous science to qualify as an illness or disease The concept of mental illness continues to be created or invented by selected moral judgments and committee discussions not science Healing Personal Psychology presents an historical line of development of psychology and psychiatry from its roots in 19th Century German authoritarianism and oppression to the present state of the field where little has changed The clinical gaze is the bedrock of the professions Therein lies the failure of the mental health professions to effectively heal Mainstream clinical psychology and psychiatry by their very natures engage in some of the most repressive practices in modern society Supporting the thesis of this failure with factual references we are taken on an experiential journey through the system to see the devastation mental health treatment has caused by the creation of disease including central nervous system motor neuron and organ diseases found in different studies to range between 10% 75% of all those treated Not to mention the personal ruin caused for millions of people every year by effectively eliminating their freedom of choice to engage in a pleasurable life existence Strategic change exercises effective in healing a range of serious difficulties are presented as a solution to this devastation Valuable resources for healing from surprising sources are illustrated with references for daily practice The author brings more than 30 years of experience to bear in pointing towards a healthy way out This book can be utilized by professionals and the public both as an instructive textbook on alternative healing approaches for psychosis depression anxiety fears phobias obsessive or compulsive behaviors trauma or post traumatic related difficulties and as a resource that documents the system of oppression and inconsistent level of competence in the clinical psychology and psychiatry professions
