Empires Ilhan Niaz,2014-03-26 This book is a sweeping historical survey of the origins development and nature of state power It demonstrates that Eurasia is home to a dominant tradition of arbitrary rule mediated through military civil and ecclesiastical servants and a marginal tradition of representative and responsible government through autonomous institutions The former tradition finds expression in hierarchically organized and ideologically legitimated continental bureaucratic states while the latter manifests itself in the state of laws In recent times the marginal tradition has gained in popularity and has led to continental bureaucratic states attempting to introduce democratic and constitutional reforms These attempts have rarely altered the actual manner in which power is exercised by the state and its elites given the deeper and historically rooted experience of arbitrary rule Far from being remote the arbitrary culture of power that emerged in many parts of the world continues to shape the fortunes of states To ignore this culture of power and the historical circumstances that have shaped it comes at a high price as indicated by the ongoing democratic recession and erosion of liberal norms within states that are democracies Lawrence and Aaronsohn Ronald Florence,2007 How a second

lieutenant from Oxfordshire and a Jewish agronomist from Palestine mapped the land and conflicts of the modern Middle East Historian Florence provides new perspectives on the origins of the Arab Israeli conflict In the turmoil of World WarI

Cowan,2019-02-26 Magic Monsters and Make Believe Heroes looks at fantasy film television and participative culture as evidence of our ongoing need for a mythic vision for stories larger than ourselves into which we write ourselves and through which we can become the heroes of our own story Why do we tell and retell the same stories over and over when we know they can t possibly be true Contrary to popular belief it s not because pop culture has run out of good ideas Rather it is precisely because these stories are so fantastic some resonating so deeply that we elevate them to the status of religion Illuminating everything from Buffy the Vampire Slayer to Dungeons and Dragons and from Drunken Master

to Mad Max Douglas E Cowan offers a modern manifesto for why and how mythology remains a vital force today *After the Last Post* Benjamin Zachariah, 2019-07-22 This book is about the production and consumption of history themes that have gained in importance since the discipline's attempts to disavow its own authority with the ascendancy of postmodern and postcolonial perspectives Several parallel themes crosscut the book's central focus on the discipline of history its intellectual history its historiography and its connection to memory particularly in relation to the need to establish the collective identity of nation community or state through a memorialisation process that has much to do with history or at least with claiming a historicity for collective memory None of this can be undertaken without an understanding of the roles that history writing and history reading have been made to perform in public debates or perhaps more accurately in public disputes The book addresses a discomfort with postcolonial theories in and as history Following are essays that examine the state of the discipline the art of reading and using archives practices of tracking the history of ideas and the themes of history memory and identity **The Contemporary Review** ,1901 **The Literary Digest** ,1914 **Literary Digest** ,1914
