## Makers Of Arab History:

Makers Arab History Philip K. Hitti, 1968      Makers of Arab History Philip Khuri Hitti, 1968      *Makers of Arab History*, By Philip K. Hitti Philip Khuri Hitti, 1969      Who's Who in the Arab World 2007-2008 Publitec Publications, 2011-12-22 Who's Who in the Arab World 2007 2008 compiles information on the most notable individuals in the Arab world. Additionally, the title provides insight into the historical background and the present of this influential and often volatile region. Part I sets out precise biographical details on some 6 000 eminent individuals who influence every sphere of public life in politics, culture and society. Part II surveys the 19 Arab Countries providing detailed information on the geography, history, constitution, economy and culture of the individual countries. Part III provides information on the historical background of the Arab world. Indexes by country and profession supplement the biographical section. A select bibliography of secondary literature on the Middle East is also included.      A History of the Middle East Saul S. Friedman, 2014-01-10 As the birthplace of three principal religions, the Middle East is holy to 15 million Jews, 2 billion Christians and 1 billion Muslims. As the cradle of western civilization, it is fundamental to world history, the place where humans transformed themselves from nomadic hunters to settled farmers capable of building great cities and societies. This detailed history covers the Middle East from its ancient beginnings to the present. The confluence of events that produced civilized society is fully discussed along with the establishment of Judaism, Christianity and Islam. The emergence and decline of the Byzantine and Ottoman empires, which laid much of the framework for the region to move into the modern era, is covered in depth. Analysis of the area in recent decades focuses on World War I and II and the regional conflicts that inflame the Middle East of the 21st century. Abadir PHD., 2021-08-10 The author Akef R. Abadir, born in Tanta, Egypt, was living in Alexandria as the colonial period was drawing to an end in the 1950s and early 1960s. At the time, Alexandria, Egypt, was a multiethnic and cosmopolitan city. The social fabric was composed of an aggregate of Egyptians, Europeans, and other minorities. These different communities and denominations coexisted in relative peace and respect of one another. However, despite what was shared in common, Europeans in general, whether at home or abroad, seemed to be more progressive than most Egyptians. This discrepancy became even more dramatic as one left the urban centers such as Cairo and Alexandria and ventured into rural areas where poverty and illiteracy prevailed. Looking back at life in this Mediterranean city, nothing seemed to point to an answer where religion would be a major factor. In fact, in reaction to a prolonged foreign presence, Egyptian society had been undergoing a gradual cultural change characterized by a return to a more restrictive interpretation and practice of Islam. This observation launched the author Akef Abadir on a long period of exploration and research that led to the writing of this book. Currently, the East-West relationship is experiencing a period of great instability. It has been suggested that the resolution of this conflict requires reaching a political compromise.

based on mutual acceptance and understanding To achieve this goal it is imperative to address the problem of Islamic modernism and examine the context in which it is taking shape From the authors viewpoint what has been written regarding Islamic modernity has not provided a comprehensive overview of the subject This book intends to address this gap and examine the core issues that have confronted Islam starting from the seventh century to the present The objective of this book is not to predict when Islam will modernize but rather to explore the current process of change taking place and the obstacles it is facing The aim is to ultimately promote a constructive dialogue between the Muslim community and the outside world particularly the West 1 fouz in1 his Trillogy **Complete Arab Cookery** Arto der Haroutunian,2023-10-26

**Who Writes Arab History?** Joseph A. Kéchichian, 2016-09-01 At a time of profound regional and international transformations that extend beyond the political Middle Easterners in general and Arabs in particular ponder their future as well as how to best preserve and protect their interests and equally important their cultures As non Arabs interpret and opine about Arab civilization far more than indigenous thinkers how can we understand what motivates scholars and opinion makers and how can Arab analysts highlight indigenous perspectives What are the core factors that separate non Arab scholars from their Arab counterparts Can the perceptions of nearly 500 million individuals be mislabeled so frequently and so easily and what ought to be done to repair the damage already done Do Arab thinkers bear any responsibility for what may appear to be little more than a campaign to denigrate To answer these questions this paper first offers an overview of the dilemmas involved then identifies and analyses two major concerns censorship and translation matters and finally focuses on the case of the Kingdom of Saudi Arabia to test the assertion that books authored by non Arabs many of whom shroud themselves in the cloak of authority but in reality harbor a sharp dislike if not outright hatred of Arabs dominate over works written by Arabs The paper closes with a few recommendations that call on Arab thinkers to overcome existing academic as well as journalistic prejudices

**The Muslim Contribution to Mathematics** Ali Abdullah Al-Daffa', 2020-09-10 This book first published in 1977 discusses the Muslim contribution to mathematics during the golden age of Muslim learning from the seventh to the thirteenth century It was during this period that Muslim culture exerted powerful economic political and religious influence over a large part of the civilised world The work of the Muslim scholars was by no means limited to religion business and government They researched and extended the theoretical and applied science of the Greeks and Romans of an earlier era in ways that preserved and strengthened man's knowledge in these important fields Although the main object of this book is to trace the history of the Muslim contribution to mathematics during the European Dark Ages some effort is made to explain the progress of mathematical thought and its effects upon present day culture Certain Muslim mathematicians are mentioned because of the important nature of their ideas in the evolution of mathematical thinking during this earlier era Muslim mathematicians invented the present arithmetical decimal system and the fundamental operations connected with it addition subtraction multiplication division raising to a power and extracting the square root and the cubic root They also introduced the zero symbol to Western culture which simplified considerably the entire arithmetical system and its fundamental operations it is no exaggeration if it is said that this specific invention marks the turning point in the development of mathematics into a science

**Islam and the West** Christopher J Walker, 2005-07-21 We have rapidly grown used to the idea particularly since the declaration of a worldwide war on terrorism that between Islam and the West there exists a deep historical and ideological gulf Christopher J Walker turns such accepted views on their head and paints instead a picture of two belief systems that have a long history of

toleration and mutual influence Indeed Islam has given a great deal to civilisation essentially modern notions of free enquiry rational experimentation rational experimentation and the independence of science from religious authority are legacies of the Islamic world Islam and the West is a thought provoking study covering some of the cardinal encounters between Islamic and Western countries **Prophets and Princes** Mark Weston,2008-07-28 Saudi Arabia oil rich devoutly Muslim and a vital ally To many in the West Saudi Arabia is easy to criticize It is the birthplace of Osama bin Laden and fifteen of the nineteen 9 11 hijackers Saudi women are not permitted to drive work with men or travel without a man s permission Prior to 9 11 the Saudis sent millions of dollars abroad to schools that taught Muslim extremism and to charities that turned out to be fronts for al Qaeda In *Prophets and Princes* a highly respected scholar who has lived in Saudi Arabia contends that despite these serious shortcomings the kingdom is still America s most important ally in the Middle East a voice for moderation toward Israel and a nation with a surprising ability to make many of the economic and cultural changes necessary to adjust to modern realities Author Mark Weston offers an objective and balanced history of the only nation on earth named after its ruling family Drawing on interviews with many Saudi men and women Weston portrays a complex society in which sixty percent of Saudi Arabia s university students are women and citizens who seek a constitutional monarchy can petition the king without fear of reprisal Filled with new and underreported information about the most controversial aspects of life in Saudi Arabia *Prophets and Princes* is a must read for anyone interested in the Middle East oil Islam or the war on terror

*Travel and Translation in the Early Modern Period* Carmine Di Biase,2006 The relationship between travel and translation might seem obvious at first but to study it in earnest is to discover that it is at once intriguing and elusive Of course travelers translate in order to make sense of their new surroundings sometimes they must translate in order to put food on the table The relationship between these two human compulsions however goes much deeper than this What gets translated it seems is not merely the written or the spoken word but the very identity of the traveler These seventeen essays which treat not only such well known figures as Martin Luther Erasmus Shakespeare and Milton but also such lesser known figures as Konrad Grunenberg Leo Africanus and Garcilaso de la Vega constitute the first survey of how this relationship manifests itself in the early modern period **Who's who in the Arab World** ,1966 Arab Cultural Studies Anastasia Valassopoulos,2013-09-13 This book seeks to both showcase and further develop innovative research and debates on contemporary Arab cultural production Popular culture in the form of cinema popular music literature visual media and cyber cultures both local and imported enjoy a central role in Arab cultural life and the contributors to this innovative collection showcase the tremendous cultural output emerging from the Arab world They present sensitive conceptual readings whilst remaining mindful of the place of this work within a wider framework that seeks to prevent isolationist readings of cultural phenomena Making sense of the place of culture in the Arab world and agreeing upon a broadly recognisable and commonly accepted set of terms within which to discuss this output is a new and urgent challenge Arab

Cultural Studies aspires to understand communicate and theorise these forms This book was originally published as a special issue of the Journal for Cultural Research      **World Maps for Finding the Direction and Distance of Mecca** David A. King,1999-01-01 The author describes how Muslims over the centuries have determined the sacred direction qibla towards Mecca and presents two highly sophisticated Mecca centred world maps for finding the qibla These recently discovered world maps have forced a reevaluation of Muslim achievements in mathematics and cartography      *The Global History of the Balfour Declaration* Maryanne A. Rhett,2015-11-19 This book examines the development and issuance of the Balfour Declaration the document that set the stage for the creation of the state of Israel within its global setting The heart of the book demonstrates that the Declaration developed and contributed to a juncture in a global dialogue about the nature and definition of nation at the outset of the twentieth century Embedded in this examination are gendered racial nationalistic and imperial considerations The work posits that the Balfour Declaration was a specific tool designed by the manipulation of these ideas Once established the Declaration helped and hindered established imperial powers like the British nascent imperial powers like the Japanese and Indians and emerging nationalist movements like the Zionists Irish Palestinians and East Africans to advocate for their own vision of national definition      **Globalization in World History** Peter N. Stearns,2009-10-20 Globalization in World History examines major changes in global interactions from 1000 CE onward and defines four major turning points that have accelerated the process of globalization It argues that although the term is a relatively new one the process of globalization has roots much further back in time
