Makiguchi the Value Creator, Revolutionary Japanese Educator and Founder of Soka Gakkai Dayle M. Bethel, 1973

Tsunesaburo Makiguchi is best known as the founder of Soka Gakkai the association of lay members of the Nichiren Shoshu sect of Buddhism that has grown to number more than ten million followers throughout the world including some 200 000 Nichiren Shoshu of America adherents in the United States But Makiguchi had spent a lifetime as an educator developing his value creating educational philosophy before he founded Soka Gakkai In the 1930s he proposed educational reforms that were fully as revolutionary as those advanced by his American counterpart John Dewey He is one of Japan s most significant yet perhaps least recognized educators Makiguchi said that Japan s educational system was haphazard unplanned

Fisker-Nielsen, 2012 Presenting a study of politics at grassroots level among young Japanese this book examines the alliance between the religious movement Soka Gakkai the Value creation Society and Komeito the Clean Government Party which shared power with the Liberal Democratic Party from 1999 to 2009 Drawing on primary research carried out among Komeito supporters the book focuses on the lives of supporters and voters in order to better understand the processes of democracy It goes on to discuss what the political behaviour of young Komeito supporters tell us about the role of religious organizations such as Soka Gakkai in Japanese politics Unlike most other books on politics in Japan which tend to concentrate on political elites this book provides extremely valuable insights into political culture at the grassroots level Soka Gakkai's Human

Revolution Levi McLaughlin, 2018-12-31 Soka Gakkai is Japan's largest and most influential new religious organization. It claims more than 8 million Japanese households and close to 2 million members in 192 countries and territories. The religion is best known for its affiliated political party Komeito, the Clean Government Party, which comprises part of the ruling coalition in Japan's National Diet and it exerts considerable influence in education, media, finance, and other key areas. Levi McLaughlin's comprehensive account of Soka Gakkai draws on nearly two decades of archival research and non-member fieldwork to account for its institutional development beyond Buddhism and suggest how we should understand the activities and dispositions of its adherents. McLaughlin explores the group's Nichiren Buddhist origins and turns to insights from religion, political science, anthropology, and cultural studies to characterize Soka Gakkai as mimetic of the nation-state. Ethnographic vignettes combine with historical evidence to demonstrate ways Soka Gakkai's twin Buddhist and modern humanist legacies inform the organization's mimesis of the modern Japan in which the group took shape. To make this argument, McLaughlin analyzes Gakkai sources heretofore untreated in English language scholarship, provides a close reading of the serial novel *The Human Revolution*, which serves the Gakkai as both history and de facto scripture, identifies ways episodes from members' lives form new chapters in its growing canon, and contributes to discussions of religion and gender as he chronicles the lives of members who simultaneously reaffirm generational transmission of Gakkai devotion as they pose challenges for the organization's future. Readers looking for analyses of the nation-state and strategies for understanding New Religions and modern Buddhism will find Soka Gakkai's *Human Revolution* to be an especially thought-provoking study that offers widely applicable theoretical models.

Controversial New Religions James R. Value-Creating Global Citizenship Education for Sustainable Development Namrata Sharma, 2020-10-13 This volume brings together marginalized perspectives and communities into the mainstream discourse on education for sustainable development and global citizenship. Building on her earlier work, Sharma uses non-Western perspectives to challenge dominant agendas and the underlying Western worldview in the UNESCO-led discourse on global citizenship education. Chapters develop the theoretical framework around the three domains of learning within the global citizenship education: conceptual, dimensions of UNESCO, the cognitive, socio-emotional, and behavioral, and offer practical insights for educators. Value-creating global citizenship education is offered as a pedagogical approach to education for sustainable development and global citizenship in addition to and complementing other approaches mentioned within the recent UNESCO guidelines.
